DIRECTIONS FOR THE GUIDANCE OF VOTERS.

The voter is to vote for only one candidate unless more than one member is to be elected for the electoral division, in which case he may vote for as many candidates as are to be elected.

The voter shall go into one of the compartments and with the black lead pencil provided place a cross within the white space containing the name of the candidate or within the white spaces containing the names of the candidates for whom he votes, thus: X.

The voter shall then fold the ballot paper so that the initials and stamp on the back and the number on the counterfoil can be seen without opening it; he shall then return the ballot paper so folded to the deputy returning officer who shall in full view of those present including the voter remove the counterfoil, destroy the same and place the ballot paper in the ballot box; the voter shall then forthwith leave the polling place.

If a voter inadvertently spoils a ballot paper so that he cannot conveniently use it as he desires he may return it to the deputy returning officer who will give him another.

If the voter votes for more candidates than he is entitled to vote for or places any mark on the ballot paper by which he can be identified his vote will be void and will not be counted.

If the voter fraudulently takes a ballot paper out of the polling place or fraudulently delivers to the deputy returning officer to be placed in the ballot box any other paper than the ballot paper given him by the deputy returning officer he will be liable to imprisonment for one year.

In the following form of ballot paper, given for illustration, the candidates are Wm. R. Smith, Frank Jones, Joseph Bourke, and John R. Williams, and the voter has marked his ballot paper in favour of John R. Williams, and the counterfoil has been detached.

CHAPTER 6.

An Act respecting Arbitration.

(Assented to February 25, 1909.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

SHORT TITLE.

Short title 1. This Act may be cited as "*The Arbitration Act.*"

INTERPRETATION.

Interpretation	2. In this Act, unless the contrary intention appears—

Court	2. "Court" means the Supreme Court of Alberta;
Judge	3. "Judge" means a judge of the Supreme Court of Alberta;
Rules of Court	4. "Rules of Court" means the rules of the Supreme Court of Alberta.

REFERENCES BY CONSENT OUT OF COURT.

Effect of submission	3. A submission unless a contrary intention is expressed therein shall be irrevocable except by leave of the court or a judge and shall have the same effect in all respects as if it had been made an order of court.
Submission includes provisions in schedule	4. A submission unless a contrary intention is expressed therein shall be deemed to include the provisions set forth in schedule A to this Act so far as they are applicable to the reference under this submission.
Stay of proceedings	5. If any party to a submission or any person claiming through or under him commence any legal proceedings in any court against any other party to the submission or any person claiming through or under him in respect of any matter agreed to be referred to any party to such legal proceedings may at any time after appearance and before delivering any pleadings or taking any other steps in the proceedings apply to that court to stay the proceedings and that court, or a judge thereof, if satisfied that there is no sufficient reason why the matter should not be referred in accordance with the submission and that the applicant was at the time when the proceedings were commenced and still remains ready and willing to do all things necessary to the proper conduct of the arbitration may make an order staying the proceedings.

6. In any of the following cases—

Appointment
of arbitrator in
certain cases

- (a) Where a submission provides that a reference shall be to a single arbitrator and all the parties do not after differences concur in the appointment of an arbitrator;

- (c) Where the parties or two arbitrators are at liberty to appoint an umpire or third arbitrator and do not appoint him;
- (d) Where an appointed umpire or arbitrator refuses to act or is incapable of acting or dies and the submission does not show that it was intended that the vacancy should not be supplied and the parties or arbitrators do not supply the vacancy;

any party may serve the other parties or the arbitrators as the case may be with a written notice to appoint an arbitrator, umpire or third arbitrator. If the appointment is not made within seven clear days after the service of the notice the court or a judge may on application by the party who gave the notice appoint an arbitrator, umpire or third arbitrator who shall have the like powers to act in the reference and make an award as if he had been appointed by consent of all parties.

Provided that the court or a judge may set aside any appointment made in pursuance of this section.

The rate of interest thereon shall be the rate of four per cent. per annum, payable half-yearly. The principal shall be payable in thirty years from the passing of this Act.

3. The said securities shall be secured by one or more deeds of trust by way of mortgage or charge to a trustee or trustees approved by the Lieutenant Governor in Council, and such deed or deeds of trust shall grant a first mortgage or charge upon the line or lines of railway included therein, and in respect to the mileage of which the securities secured thereby are issued, and the rolling stock and equipment present and future acquired for the purposes of the said line or lines; also the tolls, revenues

and incomes arising or to arise from the said line or lines, and the rights, privileges and franchises and powers now or hereafter possessed by the said line or lines, and the operation and maintenance thereof:

Provided always, that no securities shall be guaranteed with respect to the mileage of any line mentioned in the second part of the schedule hereto until the company becomes authorized by the Parliament of Canada to construct such lines.

4. The kind of securities to be guaranteed and the form and terms thereof, and the form and terms of the mortgage or deed of trust securing them, and the times and manner of the issue of the securities, and the disposition of the moneys to be raised thereon by sale, pledge or otherwise pending the expenditure of such moneys for the purposes of the said lines of railway respectively, and the form and manner of the guarantee shall be such as the Lieutenant Governor in Council may approve.

5. The said guarantee shall be signed by the Provincial Treasurer or such other officer as may be designated by the Lieutenant Governor in Council, and upon being so signed, the Province of Alberta shall become liable for the payment of the principal and interest of the securities guaranteed according to the tenor thereof, and the Lieutenant Governor in Council is hereby authorized to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee, and to advance the amount necessary for that purpose out of the general revenue of the province, and in the hands of any purchaser, pledgee or other person acquiring any of such securities, the said guarantee so signed shall be conclusive evidence that the terms of this Act with respect thereto have been complied with.

6. All moneys realized by sale, pledge or otherwise of the securities hereby secured shall be paid directly by the purchaser, subscriber, pledgee or lender into a bank or banks approved by the Lieutenant Governor in Council to the credit of a special account in the name of the treasurer of the province, or to such other credit as the Lieutenant Governor in Council may direct; and if money be borrowed by the company upon pledge or otherwise of any of the securities prior to sale thereof, which money shall be paid in as aforesaid, the amount so paid in shall be deducted from the purchase price subsequently received for the securities so borrowed upon, and the balance only shall be paid in, and the securities borrowed upon may, after the loans thereon have been paid or discharged by the company, be issued or re-issued and shall be secured by the said deeds of trust and entitled to the benefit thereof, notwithstanding such loans or payment or discharge. The balances at the credit of the special account or accounts shall be credited with interest at such times and at such rate as may be agreed upon between the company and the bank holding same, and the said balances shall from time to time be paid out to the company or its nominees in monthly payments as far as is practicable as the construction of the respective lines of railway specified in the schedule hereto is proceeded with to the satisfaction of the government according to the specifications fixed or to be fixed by contract between the government and the company; and from time to time as the

said work of construction proceeds the government shall out of the said balances pay to the company or its nominees in monthly payments as far as practicable such sums as an engineer appointed by the Lieutenant Governor in Council or such other officer as the government may appoint, shall certify as justified, having regard to the proportion of work done upon the said respective lines of railway as compared with the whole work done and to be done upon such lines respectively, each line for this purpose being treated as a separate line. The balances, if any, of the proceeds of such securities at the rate of thirteen thousand dollars per mile of the said lines respectively, treated as separate lines, which may remain after completion of the said respective lines of railway, shall be paid over to the company or its nominees. Pending completion of the said respective lines the balance at the credit of such special accounts shall, until paid out as above provided, be deemed part of the mortgaged premises under said deed of trust and shall not be taken to be public moneys received by the province.

7. Not less than fifty miles of the lines specified in the schedule hereto shall be completed on or before the 31st day of December, 1909, and the remainder of the said lines shall be completed on or before the 31st day of December, 1913, and the company shall enter into an agreement, to be approved by the Lieutenant Governor in Council, with the Grand Trunk Pacific Railway Company for the operation by such last mentioned company of said lines and for the maintenance and furnishing such equipment therefor as will reasonably provide for the requirements of the freight and passenger traffic thereon. 1911-12, c. 4, s. 36; 1913 (1st Session), c. 9, s. 25.

8. The said lines shall be constructed to a general standard not inferior to the standard of the main line of the Canadian Northern Railway between Winnipeg and Edmonton and to the satisfaction of the chairman of the Executive Council of the said province. Before the construction of any line is commenced, the general route thereof shall be approved by the Lieutenant Governor in Council.

9. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not in any event be taken to affect the liability of the company therefor under the securities so paid or under the mortgage or deed of trust securing the payment thereof, but such liability shall remain unimpaired and enforceable by the province against the company. The province shall be subrogated as against the company to all rights, privileges and powers to which the holders of the respective securities so paid were entitled by virtue of such securities, or of the said mortgage or deed of trust prior to payment by the province under its guarantee, and shall with respect to the securities so paid be in the same position as a holder of securities upon which the company has made default.

10. Subject to the provisos in this section contained, the mortgages or deeds of trust (herein called the original instruments) securing the securities hereby authorized to be guaranteed may

provide for the issue from time to time and ranking *pari passu* with said securities, and without preference or priority one over the other of additional securities of similar kind, tenor and effect not exceeding two thousand dollars per mile of the mileage of any of the lines mentioned in the schedule hereto and also of additional securities of similar kind, tenor and effect, also ranking *pari passu*, and without preference or priority as aforesaid, not exceeding fifteen thousand dollars per mile of additional lines of railway in the Province of Alberta to be hereafter constructed by the company:

Provided always that before such additional securities are issued the guarantee by the province of the payment of the principal and interest thereof shall first have been authorized by the Legislative Assembly, and that such guarantee shall first have been given under the authority of the Lieutenant Governor in Council:

Provided further that supplementary mortgages or deeds of trust (herein called supplementary instruments) covering the said lines and in form approved by the Lieutenant Governor in Council shall be taken to the trustees of the original instruments; and provided also that such additional securities shall be issued under the terms of the original instruments and supplementary instruments which together with the mortgaged premises covered thereby shall form the security for all the securities issued thereunder in the same manner and with the same effect as if the original instrument and supplementary instrument formed but one instrument, and as if all the securities issued or to be issued under the original or supplementary instruments were issued under one instrument.

CHAPTER 16.

An Act to provide for an Issue of Guaranteed Securities of The Alberta and Great Waterways Railway Company.

(Assented to February 25, 1909.)

WHEREAS the Alberta and Great Waterways Railway Company has by Act of the Legislature of the Province of Alberta been authorized to issue certain bonds secured by mortgage upon its railway (including its terminals at Edmonton as hereinafter mentioned) and whereas it is expedient that provision should be made for the guaranteeing of such bonds by the Government of Alberta as follows: To the extent of \$20,000 per mile of the mileage of the lines of its railway (length of branches and sidings being computed in making up the mileage on which the amounts are so to be guaranteed, but mileage at Edmonton terminals to be excluded in such computation), and to the additional extent of the cost of said Edmonton terminals as fixed and settled by the Lieutenant Governor in Council, the guarantee in respect of the cost of the Edmonton terminals not, however, to exceed the sum of \$400,000, and the mileage in respect of which said bonds may be guaranteed not to exceed 350 miles, such guarantee to cover principal and interest of such bonds and the bonds being payable in fifty years from the first day of January, A.D. 1909, with interest at five per centum per annum payable half-yearly:

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Government of Alberta is hereby authorized, on such terms and conditions not inconsistent with the provisions of this Act as may be agreed on with the company, to guarantee the payment of the said principal and interest of bonds of the company to the amount above set forth (or its equivalent in sterling or other money), the decision of the Lieutenant Governor in Council as to the mileage of said lines and as to the cost of the Edmonton terminals to be conclusive; such bonds to bear interest at the rate of five per centum per annum, payable half-yearly and to mature on the first day of January, A.D. 1959, and may be made redeemable at any time before maturity thereof. The total of said mileage in respect of which said bonds may be guaranteed shall not exceed 350 miles.

2. The said bonds so guaranteed shall be secured by mortgage to be made to trustees approved by the Lieutenant Governor in Council and shall cover the railway above mentioned, including the said Edmonton terminals, and the rolling stock and equipment present and future acquired for the purpose of the said lines, also the tolls, revenues and incomes arising or to arise from the

said line or lines, and the rights, privileges, franchises and powers of the company now or hereafter held in respect of and in connection with the said lines and the operation, maintenance and repair thereof; and subject only to the provisions of *The Railway Act of Alberta* and *The Railway Act of Canada*, whichever may be applicable to the railway, the said mortgage shall be the first charge thereon.

3. The forms and terms of such bonds and of the mortgage securing the same and of the guarantees and the times and the manner of the issue of the bonds shall be such as the Lieutenant Governor in Council may approve.

4. The said guarantees shall be signed by the Provincial Treasurer or such officer as may be designated by the Lieutenant Governor in Council to sign the same and upon being so signed the Province of Alberta shall be liable for the payment of the principal of the bond so guaranteed and of the interest thereon from and after the date of such guarantee according to the tenor thereof, and no purchaser, pledgee or other person acquiring any of such bonds so guaranteed need inquire in respect of compliance with the terms of this Act, and in case any need should ever arise for payment by the province under such guarantee the Lieutenant Governor in Council may make arrangements for payment accordingly.

5. Save as herein otherwise provided all moneys realized by sale, pledge or otherwise of the said bonds shall be paid directly by the purchaser, subscriber, pledgee or lender into a bank or banks approved of by the Lieutenant Governor in Council to the credit of a special account in the name of the Treasurer of the province, or such other credit as the Lieutenant Governor in Council may direct; and if the money be borrowed by the company upon pledge or otherwise upon any of the bonds prior to sale thereof, which money shall be paid in as aforesaid, the amount so paid in shall be deducted from the purchase price subsequently received from the bonds so borrowed upon and the balance only shall be paid in; and bonds borrowed upon may after the loans thereon have been paid or discharged by the company be issued or re-issued and shall be secured by the said mortgage and be paid to the benefit thereof notwithstanding such loans and payment or discharge. The balance at the credit of the special account or accounts shall be credited with interest at such times and at such rate as may be agreed upon between the company and the bank holding same, and the said balance shall from time to time be paid out to the company or its nominee in monthly payments as far as it is practicable as the construction of the said lines of railway and the said terminals is proceeded with to the satisfaction of the Lieutenant Governor in Council according to the specifications fixed or to be fixed by contract between the government and the company, and in such sums as an engineer appointed by the Lieutenant Governor in Council shall certify as justified, having regard to the proportion of work done upon the said lines of railway and Edmonton terminals respectively as compared with the whole work done and to be done upon said lines and Edmonton terminals respectively, such lines and Edmonton terminals respectively for this purpose being treated

separately; provided, however, that at the option of the company the moneys so paid into the said bank shall, instead of being paid out in the manner above set out, be paid out to the company from time to time upon the completion (except as to the ballast) of every section of ten miles of railway line (and in the case of the Edmonton terminals on a progress basis *pari passu* with construction thereof and proportionately to the total estimated cost thereof as fixed and settled by the Lieutenant Governor in Council), to the satisfaction of the Lieutenant Governor in Council according to the said specifications fixed or to be fixed by contract between the Government and the company and as certified upon the certificate of the said engineer so appointed by the Lieutenant Governor in Council. The balance, if any, of the proceeds of such bonds which may remain after the completion of the said lines of railway and Edmonton terminals shall be paid over to the company or its nominees pending the completion of the said respective lines and terminals. The balance at the credit of such special accounts shall, when paid out as above provided for, be deemed part of the mortgaged premises under said mortgage and shall not be taken to be public moneys received by the province.

6. In lieu of the provisions in the last preceding paragraph contained the following provisions shall have effect at the option of the company; the bonds hereby authorized to be guaranteed shall be guaranteed, or delivered to the company or its order, from time to time upon the completion (except as to the ballast) of every section of ten miles of railway line and in the case of the Edmonton terminals on a progress basis *pari passu* with construction thereof and proportionately to the total estimated cost thereof as so fixed and settled by the Lieutenant Governor in Council and in such case interim certificates in such form as the Lieutenant Governor in Council may please may be given certifying that the bond upon which such interim certificate is endorsed is of the series intended to be guaranteed and will be guaranteed in accordance with the terms of this Act.

7. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not, in any event, be taken to affect the liability of the company therefor, under the securities so paid or under the mortgage securing the payment thereof, but such liability shall remain unimpaired and enforceable by the province against the company.

8. The rates for passengers and freight which may be charged by the said company shall be such as may be approved of from time to time by the Lieutenant Governor in Council.

9. The company shall not, except with the sanction of the Lieutenant Governor in Council, amalgamate with any other company or lease or transfer the railway or its franchises, or adopt any method for placing the said railway under the management or control in whole or in part of any other railway or railways in any manner whatsoever.

(3) If within eight days after all the copies have been delivered or posted, or within such further time as the judge may allow, no objection is made as provided by this Act the sheriff shall make distribution forthwith pursuant to such list.

Attaching orders by sheriff or creditor

Accounts of debts, special rates, sinking funds, etc.

243. If after paying the interest of a debt for any financial year and appropriating the necessary sum to the sinking fund of such debt for the purpose of payment of any instalment of principal there is a surplus at the credit of the special rate account of such debt such surplus shall so remain and may be applied if necessary towards the next year's interest; but if such surplus exceeds the amount of next year's interest the excess shall be carried to the credit of the sinking fund account or shall be applied in payment of the principal of such debt.

Disposal of surplus

244. No moneys levied and collected for the purpose of a sinking fund shall in any case be applied towards paying any portion of the current or other expenditures of the town.

Investment of
sinking fund

248. If any part of the produce of the special rate levied in respect of any debt and at the credit of the sinking fund account or of the special rate account thereof or of any reserve fund cannot be immediately applied towards paying the debt by reason of no part thereof being yet payable the council shall from time to time invest the same in government securities, municipal or school debentures or in local improvement debentures of the town or in any other debentures of the town or in first mortgage of freehold real estate within the town to an amount not exceeding one-third of the sworn cash valuation of an independent appraiser and from time to time as such securities mature may invest in other like securities.

(2) The council may regulate by by-law the manner in which such investment shall be made in the aforesaid securities.

(4) The council may direct by by-law that any surplus moneys in the hands of the treasurer and not specially appropriated to any other purpose shall be credited to the sinking fund account of any debenture debt and may invest such sinking fund in any of the securities named in and according to the provisions of this section.

Surplus
income from
town works

249. The council may appropriate to the payment of any debt the surplus income derived from any town work or from any share or interest therein after paying the annual expenses thereof or may so appropriate any unappropriated money in the treasury or any money raised by general rate; and any money so appropriated shall be carried to the credit of the sinking fund of the debt or may be applied in payment of any instalment thereof accruing due or the council may from time to time appropriate to a fund to be known as a reserve fund part of any surplus income arising from any town work for the purpose of meeting contingencies which in the opinion of the council may be thought likely to arise in connection therewith.

to investment

250. No member of the council shall take part in or be a party to the investment of any moneys referred to in section 248 hereof otherwise than is therein authorized and any person so doing shall be held personally liable for any loss thereby sustained by the town.

251. In order to obviate a difficulty which has been found to prevail in negotiating local improvement debentures in consequence of many of the same having to be issued for small and broken amounts the council may from time to time after the passing of by-laws covering the several amounts required for particular local improvements and without in any way affecting the liens on the property therein described pass a collective or accumulative by-law consolidating the several amounts of the said debentures and may issue the new consolidated debentures in a general consecutive issue under such consolidated by-law apportioning nevertheless the amount raised thereby and crediting each service with the amount previously fixed for the same under the individual by-law passed in the first instance. Consolidation
of by-laws

252. After a referred by-law has been finally passed by the council the council may by by-law authorize the mayor and treasurer to raise from time to time by way of a temporary loan in anticipation of the issue or sale of the debentures authorized by the referred by-law and for the purposes thereby authorized such sum or sums not exceeding in the aggregate eighty per cent. of the total principal sum authorized by the referred by-law to be raised as the council deems expedient and all such temporary loans shall be a special charge upon the debentures in anticipation of the issue or sale whereof such temporary loans were made. - (g) The repairs and maintenance thereof after the lapse of the originally estimated lifetime thereof; or
- (h) The erection of firewalls and the acquiring of land necessary for the same.

(2) The term "special frontage assessment" shall be taken to mean a special assessment of the several lands abutting on the street or place whereon or wherein the improvement is to be made according to the number of lineal feet measured along the front or other abutting portion of the said several lands of the total charge to be provided by special frontage assessment, the rate per foot being a uniform and equal rate computed by dividing the total charge to be provided by special frontage assessment on the said lands by the number of lineal feet of such lands abutting on the street or place whereon or wherein the local improvement is to be made:

Provided that where the street or place whereon or wherein the local improvement is made abuts on several parcels of land some of which appear to call for a smaller or larger proportionate assessment on account of being corner lots or being of different size or shape from the other parcels of land abutting on the local improvement; such exceptional parcels of land may be assessed as having a smaller or larger number of feet abutting thereon than they actually have so that each parcel of land abutting on the local improvement bear a fair, just and equitable proportion of the cost of the improvement; and

Provided that in case the said system of special frontage assessment is adopted in respect of a sewer or a system of sewers and that for the purpose of affording an outlet therefor a sewer is carried along a street or place whereon or wherein it appears that owing to the peculiar position or condition of any lot or lots or parcel or parcels of land fronting or abutting thereon or to the absence of buildings thereon such sewer would not have been carried except as a means of affording an outlet as aforesaid; such lot or lots, parcel or parcels of land shall be exempted from the payment of any special frontage assessment in respect of such sewer either for the whole or a part of the term of the special frontage assessment or from the payment of the whole or a part of the proportionate cost thereof as shall appear just under the circumstances:

Provided that in case of sewers if any land which has not been assessed by way of special frontage assessment for any part of the cost of the sewer is connected therewith there may be assessed against such land the same amount per foot frontage as was assessed against the lands actually abutting on the street or place whereon or wherein the sewer was constructed and the provisions of the next following section shall apply to the assessment so made; and the amount so assessed shall be placed to the credit of the town account relating to sewers; but any land so assessed shall be exempt from special frontage assessment in respect of any sewer constructed on the street or place whereon or wherein such land abuts and the other lands specially assessed in respect of such last mentioned sewer shall not be specially assessed any greater sum on account of such exemption.

(3) The term "special local benefit assessment" shall be taken to mean a special assessment of each such parcel of land in the vicinity of the local improvement whether or not such land abuts on the street or place whereon or wherein such local improvement is made as is increased or is likely to be increased in market value or is otherwise benefited by reason of the

local improvement being made to the amount of such share of the total charge to be provided by special local benefit assessment as bears a fair, just and equitable proportion having regard to all other parcels of land benefited by the local improvement to such total charge.

(4) The term "cost" in relation to a local improvement shall include not merely the cost of the actual work of making the local improvement but also any expenses of engineering, surveying, advertising, issuing debentures and other expenses incidental to the entering on, carrying out and completing of the work and raising the money to pay the cost thereof including discounts and interests.

337. The amount assessed against any parcel of land either by way of special frontage assessment or special local benefit assessment shall be the total sum representing the proportion properly chargeable against such land of the total amount charged in respect of the local improvement against all the lands affected and the several amounts so assessed against the several lands shall with interest at a rate not exceeding six per cent. per annum be spread over the term of the probable lifetime of the local improvement so that the same shall be repayable in consecutive annual instalments in such manner that the aggregate amount payable for principal and interest in any year shall be equal as nearly as may be to what is payable for principal and interest during each of the other years of such period and each such annual instalment shall be entered upon the tax roll for the year in which the same is payable and shall be payable in the same manner and collectable by the same methods and shall be subject to the same penalties in case of default of payment as if they formed part of the general town taxes:

Amount of
assessment
and mode of
collection

Provided that the owner of any land so specially assessed may at any time commute the amount or balance remaining unpaid in respect thereof by paying the amount of the original assessment charged against such land together with interest and penalties chargeable in respect thereof less any amounts previously paid on account thereof.

338. The council may pass by-laws—

Procedure
by-laws

of the cost thereof shall be raised by uniform frontage assessment and what portion shall be borne by the town at large;
and it is hereby declared that a by-law or by-laws of general application for the said purposes shall be sufficient and it shall not be necessary to pass a special by-law in each particular instance;

- (c) For borrowing by way of temporary loans within the restrictions aforesaid on the credit of the town at large the whole or any part of the cost of a local improvement provided that section 179 hereof shall not apply to the case of such temporary loans;

and it is hereby declared that loans made for the purpose of local improvements to the extent to which the sums are secured by special assessments therefor form no part of the general debt of the town within the meaning of this Act and it shall not be necessary to cite the amount of the local improvement debt so secured by special assessment in any by-law for borrowing money but it shall be sufficient to state in any such by-law that the amount of the general debt of the town as therein set forth is exclusive of local improvement debts secured by special assessments.

Petition

When
boilers may
be inspected

Exemption
from pay-
ment of
inspection fee

REGULATIONS GOVERNING THE CONSTRUCTION AND INSPECTION OF BOILERS FOR THE PROVINCE OF ALBERTA.

(Issued under Sec. 55, Cap. 9, of *The Boilers Act*, 1912.)

(*Inserted for convenience only and subject to change at any time by the Minister.*)

I.—GENERAL.

1.—Regulations to Become Effective.

These regulations are in effect from the date of issue, September 1st, 1914. They are very similar to the 1910 regulations, except that certain ambiguous clauses in the latter have been made clear.

2.—Second-hand Boilers.

Boilers entering the province under Sub. 2; Section 11, of *The Boilers Act*, or as settlers' effects, and not built in accordance with these regulations, shall be rated by the formulae herein provided. They must be equipped with fittings, etc., according to the Act and regulations. The right is reserved to reduce the pressure of any boiler to what is considered a safe limit.

3.—Maximum Pressure for Traction and Portable Boilers.

The safety valve of any traction or portable boiler shall not be set at a greater pressure than 175 pounds, notwithstanding the calculated working pressure of the boiler, and no exception will be made to this ruling. If, for instance, however, the calculated working pressure of a traction or portable boiler is 200 pounds, and a reduction of pressure is made by reason of inferior workmanship or material or other defects, the reduction will be made from 200 lbs.

II.—REGISTRATION OF DESIGNS.

4.—*Drawings and Specifications.*

Before commencing work on any boiler, to be built under these regulations, three blue prints of working shop drawings of the same each having a blank or white space on it 3 x 4 inches in size, with specification Form 18 in duplicate (copies supplied by the Department upon request) must be submitted to the Department by the manufacturer for approval of the pressure and arrangement of the boiler, which must comply in all cases with these regulations.

Each drawing and specification form must contain complete details and dimensions, the intended working pressure being stated thereon.

This applies also to designs for safety valves and other fittings connected immediately to the boiler, such as stop valves, water gauges and gauge cocks, pressure gauges, and blow-off valves; also to proposed power plant piping arrangements or to proposed alterations of same. Such drawings must show all high pressure steam, water, and blow-off piping, together with fittings and accessories thereto.

Approval or corrections will be given, or pointed out in the order as applications are received by the Department, and the manufacturers advised accordingly.

Designs of manufacture, when finally approved, will be given registration numbers for the province, and from which boilers may be made by that manufacturer in any number, full reference being made to the registration upon specification form and affidavit of construction accompanying such boilers. Any new design submitted for approval after any change in these regulations has been made must be in accordance with such change.

Changes in design will necessitate submission of new drawings and specifications for approval and fresh registration.

One certified blue print and copy of specifications will be returned by the Department to the manufacturer after design has been finally approved and registered.

It is to be understood that the approval of drawings will not exonerate the manufacturer from any responsibility in the manufacture of a boiler or accessory constructed thereto should any departure be made from these regulations governing the material or workmanship.

5.—*Fees for Survey of Drawings, Etc.*

The fees for surveying designs or revisions of designs of boilers and accessories for approval and registration shall be as follows:

Vertical tubular to 36" dia.....	\$ 5.00
All other boiler designs.....	10.00
Power plant piping up to 500 horse power.....	5.00
Power plant piping from 500 to 1,000 horse power.....	7.50
Power plant piping over 1,000 horse power.....	10.00
Boiler accessories, such as safety valves, stop valves, steam gauges, etc., for each design.....	3.00

NOTE.—Fees must accompany drawings and specifications upon submitting same to the Department for approval.

6.—*Manufacturer's Affidavit Accompanying Boiler.*

Each new boiler intended for operation within this province shall be accompanied by a copy of the approved specifications provided by the manufacturer for identification purposes, and this form must contain affidavit of the boiler shop foreman under whose supervision the boiler was constructed.

Specification and affidavit forms are provided by the Department of Public Works, Edmonton, for this purpose, and will be supplied to the manufacturer upon application, each form being filled in to contain the complete data required.

Following is a list of forms to be used for the various type of boilers:

Form 18A.—Detailing construction and material of locomotive type boilers.

Form 18B.—Detailing construction and material of horizontal tubular type boilers.

Form 18C.—Detailing construction and material of internal furnace tubular type, or of vertical type boilers.

Form 18D.—Detailing construction and material of water tube type boilers.

When the inspector has noted this affidavit and specifications, and compared the same with the boiler during the initial inspection, he must then file it with the Department.

7.—*Identification.*

Every boiler built under these regulations shall be stamped legibly on the plates of the boiler on the place hereafter indicated, as follows, in figures at least one-quarter of an inch in size.

- (a) Builders' name and number of boiler.
- (b) Provincial letter and registration number of design.
- (c) Lowest tensile strength of any shell plate in the boiler, with "S" for steel and "I" for iron.
- (d) The name of the plate manufacturer.
- (e) The date of construction, thus: Day of month, numerical order of month, last two figures of year.

A sample stamping would be as below, it being stamped legibly and fully into the plate of the boiler itself (not the smoke box.)

- (a) Name in full. 777.
- (b) A. 555 (for Alberta).
- (c) 55000. S.
- (d) Name in full.
- (e) 26.10.10.

The locations of stamping shall be as follows:

On horizontal return tubular boilers, on centre of front head above tubes.

On portable and locomotive types, on right side of fire door, clear of attachments.

On water tube boilers, on the end of steam drum above manhole door.

On internally fired boilers, with circular furnaces, on right side of fire doors, if practicable.

On vertical boilers, on right side of fire door.

All new heating boilers must be stamped "FOR HEATING PURPOSES ONLY" on front head above tubes, or any conspicuous place on the shell.

III.—DESIGN.

8.—*Cylindrical Portions of Boilers.*

Cylindrical portions of boilers, such as shells or barrels, domes, drums or reservoirs, shall be made as nearly as possible truly cylindrical.

All surfaces formed to a true circular curve, except in surfaces otherwise provided for, shall be calculated in a similar manner to cylindrical shells, but when they or other parts are not so made, or are parts of true cylinders of different radii, they must be treated as flat surfaces, and stayed accordingly, and in any case at the change of curvature.

9.—*Thickness of Plates.*

The minimum thickness of any plate used in the construction of a boiler under these regulations shall be one-fourth ($\frac{1}{4}$) of an inch, and in all cases excepting for internally fired boilers exceeding 72" (seventy-two inches) diameter, the thickness of boiler heads having a diameter up to 40 inches shall not be less than $\frac{5}{16}$ inches; diameters over 40 inches and up to 52 inches, not less than $\frac{3}{8}$ inches; diameters over 52 inches and up to 60 inches, not less than $\frac{7}{16}$ inches, and not less than $\frac{1}{16}$ inch additional thickness for every six inches additional diameter for boilers above 60 inches diameter.

The thickness of all plates in cylindrical portions of shells or drums shall be alike (excepting for tube section of water tube boilers), and that required for the working pressure of any part according to formula hereafter given, but must not be less than one-quarter inch.

The minimum thickness of plates in stayed surface construction shall be five-sixteenths ($\frac{5}{16}$) of an inch.

10.—*Maximum Diameter of Boiler.*

Seventy-two inches shall be the maximum diameter for all externally fired boilers.

11.—*Reinforcing Plates.*

(a) For standard pipe connections below water line exceeding $\frac{3}{4}$ inch diameter, and not exceeding two inches in diameter, and for standard pipe connections above water line exceeding one inch in diameter and not exceeding

two inches in diameter, the openings in boiler shall be reinforced, with a plate securely riveted to the shell, the threads being made continuous and full size through both plates, and the pipe fitting tightly in both.

(b) Instead of the reinforcing plates required by the above clause, forged steel flanges threaded to receive the pipe may be used, except at blow-off outlet, and must be riveted to the outside of shell. The threaded portion for pipes up to $1\frac{1}{4}$ inch bore shall have a depth of not less than one inch; for pipes $1\frac{1}{2}$ in. bore the depth shall be not less than $1\frac{1}{4}$ in.; and for pipes up to two inches bore the depth shall not be less than $1\frac{1}{2}$ inches. The thickness of flange for pipes up to $1\frac{1}{4}$ in. bore shall not be less than $\frac{5}{16}$ inch, and for pipes exceeding $1\frac{1}{4}$ inch bore and up to two inches bore shall be not less than $\frac{3}{8}$ inch thick. Opening in boiler shell shall be drilled to size not more than $\frac{1}{4}$ of an inch greater in diameter than the bore of the flange.

(c) For all connections exceeding two inches in diameter, except at blow-off outlet, flanged nozzles riveted to the boiler must be used. For working pressures exceeding one hundred pounds per sq. inch the nozzles must in all cases be of steel. For traction boilers, steel flange bases riveted to the boiler may be used instead of flanged nozzles for connections up to and including 3 inches in diameter.

(d) Other openings in cylindrical parts of boilers, drums or other parts shall be reinforced in all cases when their measurement exceeds $2\frac{1}{2}'' \times 3\frac{1}{2}''$.

(e) All openings in flat or cambered surfaces of boilers, drums or other parts exceeding $2\frac{1}{2}'' \times 3\frac{1}{2}''$ shall be reinforced or (if exceeding $\frac{3}{8}''$ thick) flanged.

All reinforcement rings or plates must be fitted to lie closely to the plates they reinforce, and be at least the same thickness.

12.—Reinforcing Plates Where Brackets are Attached.

Where brackets or other fixtures subjected to any working strain are attached to a traction or portable boiler, the plates to which these brackets are attached shall be reinforced with plates of the same thickness as the outer plates, and properly riveted together. The outer rows of rivets attaching reinforcing plates must be outside the bracket. All brackets shall be properly fitted (without white metal or other filling) to the plates, flat or curved, with stud holes drilled to suit the holes in brackets, which must be drilled to templates and tapped 12 threads per inch. The use of cap screws will not be permitted for this purpose.

(a) Provided: Where the shell plates are not less than one-half inch in thickness throughout, the reinforcing plates referred to in the preceding paragraph may be omitted.

13.—Manholes.

All boilers shall be provided with the prescribed number of manholes of standard size, strengthened with reinforcing ring cut from boiler plate of at least same thickness as the shell, and equal, exclusive of rivet holes, to the area of section cut from shell in line with its longitudinal axis, riveted around the manhole opening.

A flange formed inwards on the reinforcing plate to receive the door is required. The reinforcing plate must be placed on the inside of boiler, except in boilers under forty-two (42) inches diameter, when it may be placed outside.

All manholes in flat surfaces must be flanged from solid plate inwards.

All manhole flanges less than eleven-sixteenths ($\frac{11}{16}$) of an inch must have a ring not less than three-quarters ($\frac{3}{4}$) of an inch by one and one-half ($1\frac{1}{2}$) inches securely shrunk around flange, which shall be faced to form a joint.

The rivets holding reinforcing rings to shell must be sufficient for caulking purposes, per section 28, but their area in no case shall be less than one hundred and twenty per cent. (120%) above the net sectional area of part cut from shell in line of its longitudinal axis.

14.—Location of Manholes.

There shall be a standard manhole in the upper part of the shell of a fire-tube boiler 42 inches and above in diameter, excepting vertical fire-tube boilers, where the furnace or tubes prevent access to the interior of the boiler.

(a) Horizontal cylindrical boilers 48 inches in diameter and upwards shall contain two manholes not less than 10 inches by 15 inches in the clear, one in the front head below the tubes, and one in the shell above the tubes. In boilers sixty-six (66) inches and above in diameter, manholes shall be 12 inches by 16 inches in the clear.

15.—Manhole and Handhole Doors, Bolts and Bridges.

Manhole doors must be well fitted and faced off. The possible lateral motion in no case exceeding one-eighth ($\frac{1}{8}$) inch. Cast iron manhole door of good design, and material, may be used for boilers carrying a pressure not exceeding one hundred (100) pounds. Doors not exceeding twelve (12) inches by sixteen (16) inches to be made of steel plate at least one inch thick, or of approved pressed steel design five-eighths ($\frac{5}{8}$) inch thick, for pressures to one hundred and twenty-five (125) pounds inclusive; and to two hundred (200) pounds pressure inclusive, these shall not be less than one and one-eighth ($1\frac{1}{8}$) inches and eleven-sixteenths ($11/16$) inch thick respectively. If two flat plates riveted together are used for manhole doors, the plate forming flange must be not less than $\frac{3}{4}$ inch thick, and the thickness of the two plates must be not less than 1" and $1\frac{1}{8}$ " respectively. The plates must be well riveted together.

(a) Manhole doors are to be provided with two bolts at least one and one-quarter ($1\frac{1}{4}$) inches in diameter, having a shoulder on the outside, screwed through the door and riveted to the inside. For pressed steel doors less than $\frac{3}{4}$ " thick, the bolts must be screwed through the door, nutted and riveted over.

(b) For working pressures up to one hundred pounds inclusive, cast iron handhole doors may be used when of good design and material, and may be made of cast malleable for pressures exceeding one hundred pounds when not over two and one-half ($2\frac{1}{2}$) by three and one-half ($3\frac{1}{2}$) inches. When exceeding two and one-half ($2\frac{1}{2}$) by three and one-half ($3\frac{1}{2}$) inches, and a pressure of over one hundred (100) pounds is carried, steel plate doors must be used, the thickness of door flange to be at least the thickness of surrounding shell plate.

(c) Handhole door bolts must be not less than three-quarters ($\frac{3}{4}$) of an inch in diameter, for doors two and one-half by three and one-half ($2\frac{1}{2} \times 3\frac{1}{2}$) inches, and at least seven-eighths ($\frac{7}{8}$) inch when exceeding that size, all bolts being screwed through the door and riveted to the inside.

(d) All bridges used for manhole and handhole doors must be wrought-iron or of pressed steel design, and of ample strength to withstand the stress put upon them. Bridges used for doors not exceeding two and one-half by three and one-half ($2\frac{1}{2} \times 3\frac{1}{2}$) inches may be cast malleable iron.

16.—Handholes and Washout Plugs.

All cylindrical horizontal boilers less than 42 inches in diameter must be provided with a handhole in each head below the tubes not less than three by four and one-half ($3 \times 4\frac{1}{2}$) inches, the opening being either flanged or reinforced.

All other types of boilers must be provided with sufficient mudhole or handhole and washout plug openings to provide for properly cleaning and inspecting every part of the boiler. When mudhole openings are threaded, the plugs must in all cases be of brass.

17.—Handholes and Washout Holes in Loco Type.

A locomotive type boiler shall be provided with sufficient handholes and washout plug openings to allow the whole of the interior to be properly cleaned out and inspected.

In no case shall there be less than six handholes, or less than twelve such openings in all, the whole to be located as approved in design, due regard being observed to facility of access when the machinery or other attachments are mounted on the boiler. Wet bottom boilers must have a plug opening in the lowest part of shell, and have a drainage tube in bottom to drain ashpan.

18.—Firehole Doors.

Fireholes in portable, traction and locomotive firebox boilers and in vertical boilers exceeding thirty inches diameter, must not be less than 10 inches by 15 inches, or equivalent area if the maximum dimension is not less than fourteen (14) inches in the clear, to allow for examination of firebox.

19.—Handholes in Vertical Boilers.

All vertical fire-tube boilers shall have not less than seven (7) openings for cleaning out purposes, located as follows: One (1) at the water line four inches by six inches, three (3) in line with the lower tube sheet, two (2) at

bottom of water leg, one (1) one inch plug opening under firehole door. Boilers exceeding 36 inches in diameter shall contain two (2) four by six (4 x 6) inch handholes located at the water line placed opposite to one another. Boilers under thirty (30) inches in diameter may contain 2½" x 3½" handholes at water line instead of 4" x 6" as above.

20.—Minimum Diameter of Stay.

No stay less than seven-eighths ($\frac{7}{8}$) inch, as measured over the threads, shall be used in the construction of any boiler.

21.—Screwed Stays to Have Substantial Heads.

Screwed stays (not fitted with nuts) must be thoroughly fitted to the sheets, be well set up, and the ends well riveted over, to form good substantial heads, but standing not more than two and one-half or less than two threads above the sheet at their centre. The number of threads per inch shall not exceed twelve, or be less than eleven in any plate or shell in a boiler, except for standard steam and water pipe sizes. The use of the Whitworth type of thread is recommended. Where stay nuts are used they must have true and smooth bearing on the sheets, or washers when brought up.

22.—Maximum Working Stress on Stays.

The maximum working stress on stays shall be as follows:

(a) Iron. For screw stays and other stays which have been welded, 5,000 pounds per square inch net section will be the maximum stress allowed. For screw stays and other stays not welded, 7,000 pounds per square inch net section will be the maximum stress allowed.

(b) Steel. For screw stays and other stays less than one and one-half ($1\frac{1}{2}$) square inches net sectional area, 8,000 pounds per square inch will be the maximum stress allowed. For all other stays 9,000 pounds per square inch net section will be the maximum stress allowed.

(c) Steel stays may be upset at ends, but not welded in any way. Longitudinal stays must be secured to heads by nuts and washers, and not riveted over on the sheets, excepting that, when the ends of longitudinal stays, if secured by nuts and washers, would be exposed to the action of the fire, as in the case of back ends of longitudinal stays below the tubes of horizontal tubular boilers, they may be attached to angles, stay-plates, or tee bars riveted to the boiler head, having an ample water space between them and the head of the boiler.

Holes in the sheets for stays not screwed into or riveted to plates must not be more than one-sixteenth of an inch ($1/16$) larger than the diameter of the stay, and drilled to size.

Stays must be arranged so as to admit of free access to the interior of the boiler.

23.—Working Stress on Studs and Bolts.

Maximum stress on studs and bolts used for dome covers, flanges and accessories, will be taken as follows:

DIA. OF BOLT OR STUD.	ALLOWABLE STRESS.
$\frac{3}{4}$ inch.....	3,000 pounds per square inch.
$\frac{7}{8}$ inch.....	4,000 " "
1 inch.....	5,000 " "
$1\frac{1}{4}$ inches.....	5,500 " "
$1\frac{1}{2}$ inches.....	6,000 " "
$1\frac{3}{4}$ inches.....	6,500 " "
2 inches.....	7,000 " "

Studs screwed into plain flanges, etc., must be tapped in to a depth of not less than the diameter of the stud.

24.—Domes on Cylindrical Parts of Boilers and Openings for Other Purposes.

An opening for a dome, manhole, handhole, or for other purposes in the shell or cylindrical part of any boiler must have its shorter axis parallel to the longitudinal axis of the same. When the shorter axis exceeds two and one-half inches the opening shall be reinforced. The reinforcing plate must be carefully fitted and riveted to the shell and be at least equal in cross section

and strength (exclusive of rivet holes) to the section of plate cut out of shell or covered by the dome in line with its longitudinal axis. The combined area of rivets securing the reinforcement to shell must be, exclusive of those necessary to hold dome to shell, one hundred and twenty (120) per cent. in excess of the area of section so removed or measured. The pitch at caulking edges not to exceed those allowed by section 28.

25.—Maximum Working Pressure Allowed on a Boiler.

The maximum working pressure to be allowed on the shell of a boiler or drum constructed of steel or wrought iron shall be determined from the minimum thickness of the shell plates, the lowest tensile strength stamped on the plates by the plate manufacturers, or as established by authoritative test, the efficiency of the longitudinal joint, or ligament between the tube holes, whichever is the least, the inside diameter of the outside course, and the lowest factor of safety allowed by these rules, the formula being:

$$B = \frac{2T \times TS \times K}{Dr \times F}$$

B = Maximum allowable working pressure in lbs., per square inch.

T = Maximum thickness of shell plates in inches.

TS = Tensile strength of plate in pounds per square inch.

K = Efficiency of longitudinal joint, or ligament between the tube holes, the lesser of the two to be taken.

Dr = The inside diameter of the outside course of the shell or drum expressed in inches.

F = Lowest factor of safety allowed by these regulations.

26.—Efficiency of Ligament.

When a shell or drum is drilled for tube holes in a line parallel to the axis of the shell or drum, the efficiency of the ligament between the tube holes shall be determined as follows:

(a) When the pitch of tube holes on every row is equal, the formula is:

$$\frac{P_1 - dr}{P_1} = \text{Efficiency of ligament.}$$

P₁ = Pitch of tube holes in inches.

dr = Diameter of tube holes in plate in inches.

(b) When the pitch of tube holes on any one row is unequal, but pitched in regular sequence, the formula is:

$$\frac{P_2 - n_2 dr}{P_2} = \text{Efficiency of ligament.}$$

P₂ = Unit length of ligament

n₂ = Number of tube holes in length P₂.

dr = Diameter of the tube holes in plate in inches.

(c) When a shell or drum is drilled for tube holes in a line diagonal with the axis of the shell or drum, and when the pitch of the holes in every row is equal, the efficiency of the ligament between the tube holes shall be determined as follows:

$$\frac{P_3 - dr}{P_3 \times \cos \sphericalangle}$$

P₃ = Diagonal pitch of tube holes in plate in inches.

dr = Diameter of tube holes in inches.

∠ = Angle of inclination of tubes to the longitudinal axis of shell or drum.

27.—Factors of Safety.

Boilers well constructed and made of good material, shall be allowed a higher working pressure than boilers inferior in these respects.

When cylindrical shells of boilers are made of the best material (either iron or steel), with all holes drilled in place from the solid plate, the plates afterwards taken apart and the burrs removed, and all longitudinal seams fitted with double butt straps, each at least five-eighths the thickness of the plates they cover, the seams being double-riveted with rivets having an allowance of not more than 75 per cent. over the single shear, and having the circumferential seams constructed so that the percentage is at least

one-half that of the longitudinal seams, and provided that the boiler has been inspected by inspectors authorized by the Act during the whole period of construction, in accordance with these regulations, then 4.5 may be used as a factor of safety. But when the above conditions have not been complied with, the additions in the following scale must be added to the factor of safety, according to the circumstances of each case.

To be added to Factor of 4.50.

- (a) .10 holes in longitudinal seams, fair and good, but drilled from solid out of place after bending edges of plates.
- (b) .20 holes in longitudinal seams, fair and good, drilled from solid out of place before bending edges of plates.

- (d) .30 holes in longitudinal seams, fair and good, punched before bending edges of plates and reamed after assembling.
- (e) .07 holes in circumferential seams, fair and good, drilled from solid out of place after rolling plates.
- (f) .10 holes in circumferential seams, fair and good, drilled from solid out of place before rolling plates.
- (g) .10 holes in circumferential seams, fair and good, punched after rolling plates and reamed after assembling.

- (j) .50 in longitudinal seams, if double butt straps are not fitted and the said seams are lapped and treble riveted.
- (k) .60 in longitudinal seams, if only single butt straps are fitted and the said seams are double riveted.
- (l) 1.00 in longitudinal seams, when any description of joint is only single riveted, or when double butt straps are used, and only one row of rivets is in double shear.
- ‡(m) .50 holes or rivets in longitudinal seams, not fair or not good.
- ‡(n) .20 holes or rivets in circumferential seams, not fair or not good.
- (o) .40 holes in any seams not properly spaced in crossing.
- ‡(p) .40 when material is doubtful and not properly stamped, in accordance with these regulations.
- ** (q) .50 if joints are not close fitting, the plates being open when boiler is finished, or workmanship unsatisfactory.
- (r) .50 if boiler has not been inspected by inspectors authorized by the Act during the whole period of construction, in accordance with these regulations.

Where marked ‡ the inspector may, according to circumstances, increase the factor given, and in the event of satisfactory information not being obtainable, the inspector shall use a basic factor of safety of five, with such additions as his judgment may dictate.

In the foregoing (a), (b), (c), (d), (e), (f), (g), (h) must be used separately, but may be added, when justified, to either (i), (j), (k), (l), (m) or (n), separately, and to (o), (p), (q), or (r) separately, or to the whole four latter when calculating the efficiency of a joint.

(s) Where any boiler has been subjected to overheating, strained by forcing, crystallized by age or otherwise impaired, the factor of safety expressed in section 27 shall be increased according to the discretion of the inspector.

Nothing in the regulations shall be construed as requiring the Department to provide for the inspection of boilers outside of the province.

28.—Maximum Pitches for Riveted Joints.

$$pM = (C \times T) + 1\frac{1}{8}.$$

When—

T = Thickness of plate in inches.

pM = Maximum pitch of rivets in inches immediately inside the caulking edge or edges.

C = Constant applicable from the following table:

No. of rivets in one
pitch, p, (a) (b) (c)
(d) and in one pitch
p joint (e) Sec. 32.

Constant for
Lap Joint.

Constant for Double
Butt Strap Joints.

2	1	1.31	1.75
	2	2.62	3.50
	3	3.47	4.63
	4	4.14	5.52
	5	6.00

When work is first class, such pitches may be adopted, so far as safety is concerned, yet, in some cases, it may not be well to adopt the greatest pitch found by the formula. The maximum pitch should not exceed ten inches, with the thickest plates for boiler shells.

29.—Lap Outside Rivets.

The lap outside rivet shank as measured from edge of rivet hole to edge of plate must be at least equal to diameter of rivet hole.

30.—Minimum Diameter of Rivet.

The minimum diameter of rivets in riveted joints shall be five eighths ($\frac{5}{8}$) of an inch after driving, and in no case less than the thickness of any one plate in joint.

31.—Rivet Heads.

The button head or partly spherical form of ordinary rivet heads is recommended, made to the sizes given in the following table:

SIZE	BUTTON HEADS		COUNTERSUNK	
	Height	Diameter at base	Depth	Diameter at outside of sheet
$\frac{1}{8}$ "	15/32"	$1\frac{1}{8}$ "	5/16"	1"
$\frac{3}{8}$ "	9/16"	$1\frac{5}{16}$ "	$\frac{3}{8}$ "	$1\frac{3}{16}$ "
$\frac{1}{2}$ "	21/32"	$1\frac{3}{4}$ "	7/16"	$1\frac{1}{2}$ "
$\frac{3}{4}$ "	$\frac{3}{4}$ "	$1\frac{1}{2}$ "	$\frac{1}{2}$ "	$1\frac{9}{16}$ "

Providing conical head rivets are used, the following proportions should be followed: The lap of the head at each side of shank should be about $\frac{1}{4}$ of an inch for a $\frac{3}{8}$ inch rivet, $\frac{5}{16}$ of an inch for $\frac{1}{2}$ inch rivets, and $\frac{3}{8}$ of an inch for 1 inch rivets.

The height should not be less than three-quarters of the diameter of the rivet.

32.—Efficiency of Riveted Joints.

The efficiency that a unit of length of a riveted joint has to the same unit of length of the solid plate of which that joint is composed shall be calculated by the following formula:

In the following formula the strength of rivets is double shear is taken as being 1.75 times their strength in single shear:

$$C = \text{a constant} = \frac{\text{Shearing strength of rivets per square inch.}}{\text{Tensile strength of plate per square inch.}}$$

and may be taken as:

- .85 for iron rivets and iron plates.
- .70 for steel rivets and steel plates.
- .65 for iron rivets and steel plates.

Chain riveted joints are prohibited for use under these regulations, which allow for use in boilers only the staggered types of riveting, and limit the number of rows of effective rivets in joints to three, whether in lap or butt strap construction.

K = Efficiency of joint.

K_t = Efficiency of plate in joint.

K_s = Efficiency of rivets in joint.

K_{st} = Efficiency of combined plate and rivets in joint.

$K = K_t, K_s$ or K_{st} , whichever is least.

P = Pitch of rivets in outside row when calculating the efficiency of joints.

T = Thickness of plate in inches.

T_1 = Thickness of each butt strap in inches.

(a) *Single Riveted Lap Joint.*

$$K_t = \frac{P - d}{P}$$

$$K_s = \frac{a}{P \times T} \times C$$

a = Area of one rivet in single shear.

(b) *Double Riveted Lap Joint.*

$2a$ = Area of two rivets in single shear.

(c) *Treble Riveted Lap Joint.*

$$K_t = \frac{P - d}{P}$$

$$K_s = \frac{3a}{P \times T} \times C$$

$3a$ = Area of three rivets in single shear.

Single, double or treble riveted butt strap joints, with single butt straps, shall be considered equal respectively to single, double or treble riveted lap joints.

(d) *Double Riveted Butt Joints with Equal Straps and Equal Pitch of Rivets in Each Row.*

$$K_t = \frac{P - d}{P}$$

$$K_s = \frac{3.5a}{P \times T} \times C$$

$3.5a$ = Area of two rivets in double shear.

(e) *Treble Riveted Butt Joints with Unequal Straps and every other Rivet Omitted in Outer Row.*

$$K_t = \frac{P-d}{P}$$

$$K_s = \frac{8a}{P \times T} \times C$$

$$K_{st} = \frac{(a \times C) + [(P-2d) \times T]}{P \times T}$$

(a) $V = \sqrt{\frac{(11P+4d)(P+4d)}{10}}$ = Minimum distance in inches between rows of rivets for lap joints and double riveted butt joint with straps of equal width, when every other rivet is omitted in the outer row. And treble riveted butt joints, with straps of equal width, with full number of rivets in all rows.

(b) $V = \sqrt{\left(\frac{11}{20}P+d\right)\left(\frac{1}{20}P+d\right)}$ = Minimum distance in inches between rows of rivets in double riveted butt joints with equal straps, and with full number of rivets in all rows. And between outer and middle rows of rivets for treble riveted butt joints when every other rivet is omitted in the outer row.

34.—Butt Straps, with Full Number Rivets in All Rows.

$$T_1 \text{ for double butt straps} = \frac{5 \times T}{8}$$

$$T_1 \text{ for single butt straps} = \frac{9 \times T}{8}$$

35.—*Double Butt Straps, when every other Rivet is Omitted in Outer Row*

$$T_1 = \frac{5 \times T(P-d)}{8(P-2d)}$$

36.—*Longitudinal Seams.*

The longitudinal seam of a cylindrical boiler shell or drum shall not have a continuous length exceeding ten (10) feet, and the difference in location of adjoining longitudinal seams shall not be less than thirty (30) degrees, as measured in cross section. All such seams must be located above the horizontal centre line.

In designs where any departure from the above requirements is unavoidable, special consideration may be given to same by the Department.

37.—*Cylindrical Heads, Either Dished or Flat.*

Convex heads will not require staying providing they are one-sixteenth inch thicker than the shell or drum plates to which they are attached, and are also dished truly spherical to a radius not less than the diameter of same.

When convex heads are dished to a radius greater than the diameter of the shell to which they are attached, the working pressure allowable may be calculated by the following formula:

$$B = \frac{(t-1) \times TS}{R \times 56}$$

If the working pressure as thus calculated is less than the pressure allowable for the shell to which they are attached, they may be calculated as flat surfaces, allowing in the calculations for the value of resistance to rupture or collapse as found by the formula.

Where—

B=Pressure allowable in pounds per square inch.

t=Thickness of plate in sixteenths of an inch.

TS=Tensile strength of plate, per square inch.

R=Radius to which head is bumped in inches.

h=Camber or height of bump measured from chord in inches.

c=Diameter of spherical portion of head, exclusive or radius at flange in inches.

38.—*Radius to Which Head is Bumped.*

$$R = \frac{(\frac{1}{2}c)^2 + h^2}{2h}$$

will give a radius to which a head is bumped, care being taken to measure h and c correctly.

39.—*Concave Heads.*

Concave heads are to be considered as only sixty per cent. of the strength of convex after calculating as provided in section 37. The circumferential joints for all such heads must be at least fifty-five per cent. the value of the solid plate, and double riveted where practicable.

40.—*Flat Heads.*

Flat heads other than dome heads should be stayed preferably by longitudinal stays having substantial upset ends and fitted with nuts and washers, the area to be stayed being determined as follows: When the head is flanged and riveted to the shell, a portion of it becomes stiff enough to carry the boiler pressure without depending upon the braces. The distance that thus becomes self-supporting may be determined by the following formula:

The allowance in inches for shell as stay to head to equal—

$$\frac{1}{2} \sqrt{\frac{112 \times t^2}{B}} \text{ or radius of curvature of head flange, whichever is greatest.}$$

t=Thickness of head in sixteenths of an inch.

B=Working pressure.

41.—Area of Head to be Stayed.

When the area of any segment of a head to be stayed is required, the following formula shall be used:

$$A = \frac{4h^2}{3} \sqrt{\frac{2R}{h} - .608}$$

h=Height in inches of segment to be supported. (See sections 40 and 47a).

A=Area of the segment in square inches.

R=Radius in inches of segment to be supported.

42.—Diagonal Stays.

Diagonal stays must be increased in area to an amount which shall be not less than the area that would be required for a direct stay, multiplied by $\frac{H}{L}$.

When H equals the length of diagonal stays, L equals the length of a line drawn at right angles from the surface to be supported to a point on this line at right angles to the end of the diagonal stay.

The angle which a diagonal stay makes with the shell shall not exceed thirty degrees (30°), and should be as much less as possible. The welding of crow feet or palm ends to stays is prohibited.

43.—Rivet Area for Stays.

The rivet area attaching stays of all kinds to a head or shell shall aggregate twenty per cent. (20%) greater than the stay area.

Where a stay end is attached to angle or tee bars by a stay pin in double shear, the pin may have an area of twenty-five per cent. (25%) less than the stay.

44.—Minimum Diameter of Rivets in Stays.

The minimum diameter of rivets attaching stays of all kinds shall be three-quarters ($\frac{3}{4}$) of an inch.

45.—Gusset Stays.

When gusset stays are used, they must be attached to plates between two angle irons, an allowance in area of ten per cent. (10%) being allowed in excess of that required for diagonal stays.

The working pressure allowed for gusset stays shall be calculated as follows:

$$B = \frac{Swt \times W \times T}{E} \times \frac{L}{H} \times .9$$

Where—

E=Area in square inches of surface supported.

Swt=Working tensile strength in pounds per square inch.

W=Width of web of stay at narrowest part.

T=Thickness of web in inches.

H=As for diagonal stays.

L=As for diagonal stays.

46.—Flat Surfaces.

The maximum stress allowable on flat plates supported by stays shall be determined by the following formula:

All stayed surfaces formed to a curve, the radius of which is over 21 inches, excepting surfaces otherwise provided for, shall be deemed flat surfaces.

$$\text{Working pressure} = \frac{C \times t^2}{p^2}$$

Where—

t=Thickness of plates in sixteenths of an inch. Where doubling plates are used for "t" take 75% of the combined thickness of both plates.

p=Pitch of stays in inches when equally spaced in both directions.

C=112 for screw stays with riveted heads, plates seven-sixteenths of an inch thick and under.

- C=120 for screw stays with riveted heads, plates over seven-sixteenths of an inch thick.
- C=120 for screw stays with nut outside sheet, plates seven-sixteenths of an inch thick and under.
- C=125 for screw stays with nut outside sheet, plates over seven-sixteenths of an inch thick and under nine-sixteenths of an inch.
- C=135 for screw stays with nut outside sheet, plates nine-sixteenths of an inch thick and over.
- C=175 for stays with double nuts having one nut on the inside and one nut on the outside of plate, without washers or doubling plates.
- C=160 for stays fitted with washers or doubling strips which have a thickness of at least the thickness of the plate, and a diameter of at least .5 of the greatest pitch of the stay, riveted to the outside of the plates, and stays having one nut inside of the plate, and one nut outside of the washer or doubling strip. For t take 75 per cent. of the combined thickness of the plate and washer or plate and doubling strip.
- C=200 for stays fitted with doubling strips which have a thickness equal to at least the thickness of the plates reinforced, and covering the full area braced (up to the curvature of the flange, if any), riveted to the plate, and stays having one nut outside and one inside of the plates. Doubling plates to be substantially riveted. For t take 75 per cent. of the combined thickness of the two plates.
- C=200 for stays with plates stiffened with tees or angle bars having a thickness of at least the thickness of plate and depth of webs at least one-fourth of the greatest pitch of these stays, and substantially riveted to the plates, and stays having one nut inside bearing on washers fitted to the edges of the webs, that are at right angles to the plate. For t , take 75 per cent. of the combined thickness of web and plate.

When the Pitches of Stays are Unequal.

$$\frac{p^2 + w^2}{2} \text{ is to be taken instead of } p^2$$

l = The pitch of stays in inches in one row.

w = Distance in inches between two rows of stays.

46a.—Irregular Staying.

In case of irregular staying, as in figure—

$$\frac{(p_1 + p_2)^2}{8} \text{ is to be taken instead of } p^2$$

47.—Tube Sheets.

The minimum thickness for a tube sheet of any size shall be five-sixteenths (5/16) of an inch.

47a.—Support Given by the Tubes.

The rectangular area covered by the tubes in tube sheets shall, in accordance with the following formula, be considered as stayed by the tubes, but no value is to be allowed for beading as staying, its use being only to protect ends of tubes from fire or rust.

$$\frac{1}{2} \sqrt{\frac{112 \times t^2}{B}} - \frac{dr}{2} = \text{Distance in inches from edge of tube hole to outside edge of rectangular area stayed by the tubes.}$$

t = Thickness in sixteenths of an inch.

dr = Diameter of tube holes.

B = Working pressure.

47b.—*Minimum Size of Ligament.*

The minimum size of tube sheet ligament between any two tubes in boilers with horizontal tubes shall be three-tenths (.3) square inches in section or not less than three-fourths of a lineal inch measurement, whichever gives the greater pitch. For vertical boilers the minimum size shall be three-tenths (.3) square inches in section, or one-half ($\frac{1}{2}$) of a lineal inch measurement, whichever gives the greater pitch.

47c.—*Compressive Stress on Tube Sheet.*

A greater compressive stress shall not be allowed on the upper edges of tube sheets (when crown sheets are supported by girders, and the ends of such girders rest on the upper edges of tube sheets, the girders not being supported by sling stays) than is found by the following formula, which limits such compressive stress to 9,000 pounds per square inch of sheet between tubes:

$$B = \frac{(D - dr_1)T \times 18000}{D \times W}$$

D = Least horizontal distance between centres of tubes in inches.

dr₁ = Inside diameter of tubes in inches.

T = Thickness of tube plate in inches.

W = Distance in inches between tube sheet and opposite side of combustion or fire box.

The area of the tube sheet between the upper side of tubes and the bearing point of girder must be sufficient to transmit without distortion of the tube plate the stress above dealt with.

48.—*Belly Stays.*

In boilers thirty-six inches and upwards in diameter of the locomotive type with straight fire box tube sheets, the portion of tube sheet between bottom tubes and top staybolts in throat sheet must be stayed as for flat surfaces by belly stays riveted to the barrel, their ends arranged to receive the bolt from tube sheet.

49.—*Internally Fired Furnaces or Parts of Boilers (other than Ordinary Fire Tubes) Subjected to Compression.*

The furnace plates in plain circular internally fired furnaces, not exceeding 42 inches in diameter, must be stayed as flat surfaces, allowing in the calculations for such seventy-five per cent. (75%) of the value of the resistance to collapse, as found by the following formula, the pitch of the stays being computed by the rule for flat surfaces, but the pitch shall in no case exceed eight inches on the furnace plate. For furnaces over forty-two inches in diameter, no allowance for value of resistance to collapse shall be made. Care must be taken not to reduce the efficiency of the riveted joint when applying these stays.

$$B = \frac{C \times T^2}{(L_1 + 1)Dr}$$

Where—

Dr = Outside diameter of furnace in inches.

T = Thickness of plate in inches.

L₁ = Length of furnace in feet, or length between rings.

C = Constant according to the following circumstances.

B = Working pressure per square inch, which must not exceed that found by the limiting formula, as follows:

$$B = \frac{10000 \times T}{Dr}$$

Furnaces with butt joints and rivet holes punched small and reamed out in place.

112500 where the longitudinal seams are double riveted, and fitted with single butt straps.

100000 where the longitudinal seam is single riveted, and fitted with single butt strap.

112500 where the longitudinal seam is single riveted, and fitted with double butt straps, or where seam is welded.

Furnaces with lap joints and rivet holes punched small and reamed out in place.

96000 where the longitudinal seams are double riveted.

87500 where the longitudinal seams are single riveted.

49a.—Adamson Type Furnaces.

For furnaces of Adamson type which do not require staying,

$$B = \frac{9900 \times T}{3 \times Dr} \times \left(5 - \frac{l_1 + 12}{60 \times T} \right)$$

T = Thickness of plate in inches.

Dr = Outside diameter of body of furnace in inches.

l_1 = Length in inches between flanges.

49b.—Corrugated Steel Furnaces.

$$B = \frac{14000 \times T}{Dr}$$

Where—

T = Thickness in inches.

Dr = Outside diameter in inches, measured at the bottom of the corrugations.

50.—Truncated Cones.

Flues used in vertical boilers as upper combustion chambers formed in the shape of a frustum of a cone when new and made to true circles, shall be allowed steam pressure according to the following formula:

$$B = \frac{965.625t - 53.045l_1}{Dr}$$

B = Working pressure in pounds per square inch.

t = Thickness of cone in sixteenths of an inch not to be less than five-sixteenths of an inch.

Dr = Outside mean diameter in inches.

l_1 = Length of cone in inches, which must not exceed $(135 \times \text{thickness of cone plate in inches}) - 12$.

When the mean diameter of frustum of cone exceeds 36 inches, the cone shall be deemed a flat surface, and must be stayed accordingly.

51.—Crown Sheets in Loco Type or Other Boilers.

When the tops of fire boxes or of combustion boxes are flat (excepting the outside sheet is parallel to the same) they may be supported by girders properly fitted to the edges of the tube plate, and the back plate or to the side plates, as the case may be, by chipping and filing, so that a good bearing may be effected on the edges of these sheets, and also upon the flanged curve of the crown sheet. When the tops of fire boxes or combustion boxes are curved, they may be stayed by radial or direct stays, which do not enter the sheets at more than five degrees (5°) from a right angle to a tangent on sheet at point of contact, the pitch and strength of stays being determined by formula. The several longitudinal rows of stays on crown sheets must make equal angles from vertical centre line with the corresponding rows on opposite side, and their pitch shall be determined by the formula for flat surfaces. No stays shall be permitted to pass between the tubes.

51a.—Flat Crown Sheets on Traction and Portable Boilers.

Flat crown sheets shall not be allowed in traction and portable engine boilers, and the camber of same as measured from the extension of sidesheet to meet the curvature of centre of crown sheet shall not be less than the width of firebox $\times 0.14$.

52.—Girder Stays on Crown Sheets.

The working pressure on girder stays supporting the top of fireboxes or combustion boxes shall be calculated by the following formula, the pitches

of girder stays and bolts in same being determined by formula for staying flat surfaces.

$$B = \frac{C \times g^2 \times T}{(W - p) D \times L_1}$$

W = Width in inches of combustion or firebox in line with girder.

p = Pitch of supporting bolts in inches.

D = Distance in inches between girders from centre to centre.

L₁ = Length of girder in feet.

g = Depth of girder in inches at centre.

N = Number of supporting bolts.

T = Thickness of girder in inches.

$$C = \frac{1200N}{(N+1)} \text{ when the number of bolts is odd.}$$

$$C = \frac{1200(N+1)}{N+2} \text{ when the number of bolts is even.}$$

If the girders are made of steel, the value of C is to be increased 10 per cent.

53.—Water Spaces.

The water space outside the furnace of any internally fired boiler shall not be less than two inches in the clear.

When the tops of fire boxes are supported by girders, there shall be a clear waterway between the girders and crown sheet of not less than 1½ inches and preferably 1¾ inches.

54.—Wagon Tops.

Wagon tops or saddle sheets of boilers are preferably made of one sheet with side sheets of water legs. When radial stays from crown sheets enter the wagon top at any point at an angle less than sixty degrees (60°) from a tangent to the wagon top at point of contact, the camber of crown sheet shall be increased to bring the angle within this limit, and insure full threads of stay in wagon top.

55.—Back Heads of Loco Type Boilers.

The portion of back head in a loco type boiler not stayed to firebox will be stayed under the formula for flat surfaces.

56.—Throat Sheets.

Throat sheets in loco type boilers must not be thinner at any point than the sheets they are attached to at the barrel connection. The barrel connection to firebox casing must be double riveted.

57.—Hydrostatic Tests.

When hydrostatic tests are applied to boilers they will be applied in the ratio of one hundred and fifty per cent. of the working pressure.

58.—Tensile Strength.

When the actual tensile strength of steel or wrought iron shell plates is not known, it shall be taken as 55,000 pounds for steel, and 45,000 pounds for wrought iron, provided sample of material cut from the boiler will pass prescribed bending test.

59.—When Special Formula is Necessary.

If it occurs that there are parts of any type of boiler for which formula has not been provided in these regulations, the case shall be submitted to the Department.

IV.—MATERIAL.

60.—*Plate Maker's Name and Tensile Strength.*

Every steel plate intended for the construction of boilers hereafter built for operation under these regulations must be stamped by the makers with their names and the tensile strength. The stamps must be so located that they are plainly visible after boiler is constructed.

61.—*Steel Plates.*

Steel plates are to be homogeneous, made by the open hearth process and having the following qualities:

61a.—*Qualities of Plate and Limits of Same.*

Shell plates, or plates on which flanging is to be done, may have from 55,000 minimum to 65,000 maximum pounds per square inch tensile strength, elastic limit not less than one-half the tensile strength, elongation not less than twenty-two per cent. in eight inches, cold and quench bends 180 degrees flat on itself without fracture on outside of bent portion. Maximum phosphorus .05 per cent., maximum sulphur .05 per cent.

61b.—*Firebox Steel.*

Firebox plates to have from 52,000 minimum to 62,000 maximum pounds per square inch tensile strength, elastic limit not less than one-half the ultimate strength, elongation not less than 26 per cent. in eight inches, cold and quench bends 180 degrees flat on itself without fracture on outside of bent portion. Maximum phosphorus .035 per cent., maximum sulphur .035 per cent.

61c.—*Rivet Steel.*

Steel for boiler rivets to have from 45,000 to 55,000 pounds per square inch tensile strength, elastic limit not less than one-half the tensile strength, elongation not less than 28 per cent. in eight inches, cold and quench bends 180 degrees flat on itself without fracture on outside of bent portion. Maximum phosphorus .04 per cent., maximum sulphur .04 per cent. It must test hot and cold by driving down on an anvil, the rivet being held in a tool. The head must flatten until its diameter is two and a half times the diameter of the shank (hot test), and one and a half times the diameter of the shank for cold test, all without developing cracks or flaws.

62.—*Wrought Iron Plates and Bars.*

Wrought iron, where used, must stand the same bending tests as steel when bent lengthwise, of plates or bars, but the tensile strength will be 20 per cent. less, also the elongation.

The elastic limit will be one-half the tensile strength.

63.—*Braces, Stays and Stay Bolts.*

All braces, stays and stay bolts are to be made of iron or mild steel specially manufactured for the purpose. Iron shall have a tensile strength not less than 46,000 pounds per square inch, elastic limit not less than 26,000 pounds, elongation not less than 22 per cent., in a length of eight inches. Steel to have a tensile strength of 62,000 pounds maximum, and not less than 52,000 pounds, elastic limit not more than 33,000 pounds, or less than 26,000 pounds per square inch, elongation not less than 25 per cent. in eight inches.

63a.—*Tests for Stay Bolts.*

Material for stay bolts must be smoothly rolled and free from slivers, depressions, seams, crop ends and evidences of being burnt.

Iron for stay bolts must stand the following tests: Double bending test. Close in both directions without flaw.

Nick and break test. A bar nicked all around to a depth not less than 8%, and not more than 16% of the diameter of the bar, and broken, shall show a clean fibre entirely free from crystallization.

Steel for stay bolts must stand the following bending test: A bar taken at random full threaded must bend cold 180° around a bar of its own diameter without showing any cracks or flaws. The use of the Whitworth type of thread is recommended for stay bolts.

64.—*Tubes.*

Tubes of whatever material manufactured must be truly cylindrical in form and meet the following physical tests:

For iron and steel the percentage of elongation must be not less than 22% in eight inches, and the tensile strength, elastic limit, etc., must agree with that given for rivet bars.

Any tube, must, when cold, stand without cracking, expanding on a mandril by repeated blows with a hand hammer, until it is one-eighth larger than its original diameter.

A piece cut from the tube must flatten closely without cracking, and a piece cut lengthwise from a tube and flattened must stand bending back on itself both cold and after being heated to a red heat and quenched, without cracking.

65.—*Malleable Iron Castings.*

Malleable iron castings, where used, must be clean and free from cracks. Samples from material intended for use in boilers constructed under these regulations must stand repeated blows from a hammer when cold without fracture.

66.—*Rejection of Material.*

In cases where tests show that for stay bars, rivet bars, tubes or malleable iron castings three pieces (or in cases of lots of a hundred or more, three (3) per cent. of those) subjected to the test, fail to meet the foregoing requirements, the whole lot so submitted may be rejected.

67.—*Cast Iron.*

It is desirable that the use of cast iron in boiler construction under the provisions of these regulations be discontinued.

It may be used for manhole plates, handhole plates and nozzles, for pressure not exceeding one hundred pounds, but its use for manhole rings, steam domes, or like purposes, is prohibited.

It must be clean and of a soft grey texture.

Cast iron flanges and fittings shall not be used on any steam main or connection used to carry superheated steam.

68.—*Steel Castings.*

Steel castings may be made by the open hearth or basic process, but must receive such heat treatment as will produce a fine grained, homogeneous and tough metal, free from slag, cracks and cavities, injurious blowholes and surface or other defects.

Tensile strength per square inch not below 60,000 pounds.

Elongation in 2 inches not below 23 per cent.

Reduction in area not below 30 per cent.

Phosphorus not over .06 per cent.

Sulphur not over .06 per cent.

V.—WORKMANSHIP.

69.—*Good Workmanship Essential.*

The manner in which punching, swaging, cutting and caulking or beading tools, whether hand or machine used, are maintained, also the character of workmanship generally, will be taken into consideration when determining the factor of safety. No leaks will be permitted to continue.

70.—*Plates Not to be Damaged During Construction.*

The edges of all plates must be neatly planed, sheared, rolled, bent or chipped, without in any way damaging them.

71.—Caulking.

Caulking is to be done by hand or pneumatic hammers, and round-nosed tools; caulking edges are to be carefully prepared, the edges being bevelled sufficiently to hold the caulking. The fit of the joint must be made in the laying of the plates, and excessive caulking avoided, and the lower plate not nicked or damaged by caulking tools.

72.—Holes in Sheets.

The drilling of rivet holes and stay bolt holes from solid after plates are fitted is preferred, but they may, if not less in diameter than the thickness of the plate, be punched small before rolling, after the edges of plates are bent, and drilled in line after assembling. If holes are punched, they must, up to thirteen-sixteenths ($13/16$) of an inch in diameter, be punched one-eighth ($1/8$) of an inch less, and for rivet holes over thirteen-sixteenths ($13/16$) of an inch in diameter, be punched three-sixteenths ($3/16$) of an inch less, and reamed after assembling to insure exact size and good fair holes (all material damaged by punching being entirely removed), and all burrs must be removed, the plates being separated for this purpose.

73.—Holes to be Fair.

After reaming, all holes for rivet seams must be fair, punch marks obliterated by it, and so formed that rivet heads will lie fairly to the sheet and be concentric with the rivets.

Holes for stays and stay bolts must be left small for reaming to insure the threads in both sheets being full and in straight line.

74.—Butt Straps, Scarfing, Etc.

All plates requiring scarfing must be properly prepared, in order to allow the joint to be well fitted and set up.

Butt straps must be pressed to correct shape and edges of sheets forming joints bent after marking (but before holes are made), to ensure good fitting when assembled and correctness of form. The edges of butt straps must be planed, and the joint at connection be protected. The scarfing of butt straps must take in the circumferential rivets.

The lap over rivets on edge of scarfed portion must be at least equal to the diameter of the rivet.

Joints must be examined while assembling and before any riveting is done. When assembled, the joints must be close and well fitting, being brought together by fitting up bolts in holes specially prepared. The bringing of plates together by rivets is forbidden. Holes in flanged plates must not be punched or drilled on inner plates until plates are assembled, when holes may be marked off from outer plates, the holes then made and reamed after again assembling.

75.—Drift Pins.

Drift pins may be used with light hammers to pull the plates into position, but they must not be driven with such force as to disturb the metal about the hole.

76.—Templets.

The use of permanent steel templets for standard work is recommended. For other work it is considered good practice to prepare one set of plates from which while flat a second set is marked off and assembled, the first set, if correct, being used as templets for the rest.

77.—Rivets.

Rivets should be driven wherever possible by power riveters. Air hammers may be used where practicable. Rivets must be heated their whole length, and be of such length as to fill the hole by upsetting and form full heads, being left to cool under pressure of riveter until black.

78.—Flanging Sheets.

Flanging or forming should be done at one heat. Where two or more heats occur the whole plate should be heated at the conclusion of the flanging, and left to cool slowly and equally, being covered and unexposed to draughts of cold air, the same treatment being given plates flanged in one heat, in which case reheating is not necessary. Sharp corners in flanges must not occur. THE MINIMUM INSIDE RADIUS ALLOWED IN FLANGES IS ONE INCH.

79.—Tubes—Fitting and Expanding.

Tubes must fit the holes in tube sheets as nearly as possible before expanding, the end nearest fire being a driving fit when applied. The ends must be prepared for this, and the holes in sheets be truly round, with edges slightly rounded and true to size.

The hole in sheet where tube is entered is to be only large enough to allow free entry of tube.

Tubes must be expanded by roller expanders.

The ends of tubes must not extend more than three-sixteenths to one-quarter inch beyond sheet, according to thickness of tube, and then be beaded against tube sheet without cracking, to insure which the ends of tubes must be annealed. The hand welding of tubes is prohibited.

80.—Tube Sheets.

All tube holes must be truly round. The holes may be punched three-sixteenths of their diameter small, and bored to size. The edges of holes are to be slightly rounded to prevent damage to tubes.

VI.—FITTINGS.

The following regulations (Sections 82-94 inclusive) governing Boiler Fittings and Accessories shall apply to all boilers, including boilers used exclusively for heating purposes, unless otherwise exempted therein, but the application thereof will not be made retroactive with respect to any steam plant installed within the province prior to Sept. 1st, 1914, with the exception of that portion of Section 85 relating to the guarding of water gauge glasses.

In the event, however, of alteration to, or further installation of any such pre-existing plant, the observance of the regulations in question will be required.

81.—Quality and Strength.

The material of all mountings and fittings must be of good quality, and sufficient strength to withstand strains from internal pressure and work for their respective uses. Those attached to boilers carrying over one hundred and twenty-five pounds of steam shall be of the class known as extra heavy.

The nipples attaching same, when over one inch in nominal diameter and screwed connections are permitted, must be made at least fifty per cent. (50%) thicker than ordinary standard steam pipe.

In applying fittings or their bases, when riveted to boiler they must be carefully fitted to boiler before riveting, and in case of castings, a caulking strip of soft steel or iron should be inserted between the boiler plate and casting.

They must be provided for every boiler as follows:

82.—Safety Valves.

Every boiler shall be provided with a lock pop side discharge safety valve of approved design under the following conditions:

Cast iron seats and discs are not allowed.

The springs and valves are to be cased in, so that they cannot be easily tampered with.

Provision is to be made to prevent the valves flying off in case of springs breaking.

Lifting gear is to be provided to ease all valves.

The springs must have a sufficient number of coils to allow a compression under the working load of one-eighth the diameter of the valve.

The valves are to be provided with a cap for safely protecting its adjustable parts, and fitted in such a manner that it can be efficiently sealed by the inspector.

Safety valves over two inches in diameter must be equipped with flanged bases.

For low pressure heating boilers these may be either flanged or screwed. When a superheater can be shut off from the boiler, whether attached or separately fixed, it shall have a safety valve of ample area at or near the steam inlet.

Heating boilers having a grate area exceeding sixteen (16) square feet shall be equipped with at least two safety valves.

In every case where a low pressure service connection is taken from a boiler or steam pipe carrying a higher pressure, a safety valve of ample size shall be placed on the low pressure pipe line outside of reducing valve. Such safety valve shall be set at a pressure not exceeding five (5) pounds above the maximum pressure required on the low pressure system.

82a.—Area of Valve.

The area of such safety valve measured at the inside point of contact between the valve and the seat shall be proportioned to the size of the fire grate according to the following formula when the working pressure exceeds fifty (50) pounds.

$$A = \frac{C \times G}{B + 15}$$

For working pressure not exceeding fifty (50) pounds, $A = G \times 0.6$.

Where A = area of valve in square inches at point of contact between valve and seat, G = area of fire grate in square feet, B = working pressure in pounds per square inch.

82b.—Testing Safety Valves.

When considered necessary, the safety valves shall be tested under full steam, and full fires for at least fifteen minutes, with feed water shut off and stop valve closed; if the accumulation of pressure exceeds ten per cent. of the working pressure of the boiler, a larger safety valve must be substituted.

82c.—Twin Valves.

The diameter of a safety valve used on a boiler shall not be less than one (1) inch, or more than three (3) inches, excepting for heating boilers carrying pressures not exceeding 20 pounds, when the maximum diameter of valve shall be five (5) inches.

When more than one valve is required, each valve shall be equal in diameter and aggregate a combined cross sectional area not less than the area found by formula, Section 82a.

82d.—Location of Valve, Escape Pipe, Etc.

All safety valves are to be fitted independently of any other connection to the boiler, and must be placed immediately at the boiler (special consideration will be given for heating boilers), and no valve of any description shall be placed between the safety valve and the boiler, nor on the escape pipe between the safety valve and the atmosphere. The escape pipe shall have an open-ended drain at its lowest point. The safety valve shall be located so as to be readily accessible, and must not be connected to an internal pipe in the boiler.

83.—Fusible Plug.

Every boiler shall be equipped with at least one (1) fusible plug. The body of the plug shall be composed of brass, with a taper hole through its centre, the smallest diameter of this hole to be at least three-eighths ($\frac{3}{8}$) of an inch, and filled with good Banca tin, to efficiently protect the fire line, when the water falls below the minimum level prescribed by these regulations. This plug shall project through the sheet not less than three-quarters

($\frac{3}{4}$) of an inch, and be located as shown and approved in design. All fusible plugs must be kept in an efficient condition, the fusible portion being renewed at least once each year and examined at each washout.

84.—*Steam Gauge.*

Every boiler shall be provided with a correct pressure gauge which shall be tested by the inspector at the time of inspection, and must be set to correspond with a standard test gauge, and placed so as to be plainly visible to the operator. Traction and portable boilers shall be provided with steam gauge of the double tube type.

84a.—*Steam Gauge Dial.*

The dial of the steam gauge shall be graduated to not less than one and one-half times the maximum pressure carried on the boiler, and for dark hours shall be well lighted.

84b.—*Syphon and Cut-out Cock.*

All steam gauges shall be connected directly to the boiler, and shall be fitted with a syphon or equivalent device sufficiently large, to fill the gauge tube with water, a cut-out cock with lever handle, to be placed between the syphon and the boiler; to which it is to be directly coupled and not connected with any other fitting.

84c.—*Inspector's Test Gauge Connection.*

A one-quarter ($\frac{1}{4}$) inch size pipe connection must be provided on every boiler to permit inspector's gauge to be connected above the cock or syphon pipe for the purpose of testing in service the working steam gauge on boiler.

85.—*Gauge Glass.*

Every boiler shall have at least one water glass not less than six (6) inches in length (as measured between the gland nuts), the visible bottom end of which shall be at least two (2) inches above the fireline, which for horizontal, locomotive type and upright tubular boilers of submerged tube type shall be the highest point of crown sheet or firetube. In dry top upright tubular boilers, the visible bottom end of water glass shall be not less than two-thirds ($\frac{2}{3}$) the distance between the tube sheets measured from the lower tube sheet.

All water gauges must be capable of being operated from floor of boiler room or from the deck of a traction engine or portable boiler as the case may be. Proper and efficient means must be provided to permit the water level in boiler to be distinctly seen at all times.

Prismatic water gauges are recommended as a protection against accidents caused by bursting of gauge glasses. Otherwise, every water gauge glass must be encased within a suitable guard in such a manner as to render accidents impossible.

86.—*Gauge Cocks.*

Every boiler shall have two (2) (and in boilers exceeding thirty inches in diameter three (3)) gauge cocks with three-quarter ($\frac{3}{4}$) inch pipe thread connections to boiler having a minimum bore of three-eighths ($\frac{3}{8}$) of an inch, the lower cock being placed in the same plane as the bottom of the glass, and the others at least two (2) inches apart, measured vertically. In traction or portable boilers the gauge cocks must be inserted within reach of operator in the face plate or in a water column attached to the same. In stationary boilers where gauge cocks cannot be conveniently operated, a second gauge glass may be used instead of gauge cocks, provided the second gauge glass is separately connected to the boiler.

87.—*Water Column and Connections.*

The internal diameter of any water column and pipes attaching the same to the boiler shall be as follows:

Diameter of Boiler	Least internal Diameter of Pipe	Least internal Diameter of Column
Up to and including 36 inches.....	1 inch	2 inches
Above 36 inches, to 54 inches.....	1½ inches	3 inches
Above 54 inches.....	1½ inches	3 inches

Straightway stop valves are to be fitted top and bottom of the column. The fittings at the connections to boiler shall be as short as possible, and conveniently arranged with tees or crosses having brass plugs for cleaning out. The waste pipe and valve at the bottom of the column shall be at least one-half the diameter of connecting pipe from boiler to column, and the end of the waste pipe plainly visible so that the discharge may be noted.

88.—Feed Water Supply.

Each boiler of fifteen (15) horse power in capacity or over shall be equipped with two (2) separate means capable of supplying feed water, while the maximum steam pressure is carried on the boiler. Direct pressure to the boiler from a waterworks shall not be considered as one of the two means. A sufficient reserve supply of water for feeding boiler must in all cases be provided for use with injectors or pumps.

88a.—Feed Arrangements.

Each boiler shall have a feed pipe fitted with a check valve and also a stop valve between the check valve and the boiler. A boiler having a capacity of fifteen (15) horse power or over (low pressure heating boilers excepted), shall have two feed pipes of equal diameter connected therewith by separate and distinct connections. Each feed pipe shall contain a check valve, and also a stop valve between the check valve and the boiler. The feed water should be fed at the coolest part through an internal pipe where possible, but never near the parts of the boilers that are exposed to the direct heat of the fire, or through the blow-off connection. Mud pans at water level at end of internal feed pipe are recommended, but they must not rest on the tubes.

89.—Stop Valves on Steam Mains.

Each steam outlet from a boiler (excepting at safety valve connections) shall be fitted with a stop valve immediately at the boiler, in addition to the stop valve at the engine. When the working pressure carried exceeds one hundred (100) pounds, and the steam pipe exceeds two and one-half (2½) inches in diameter, such stop valve shall be of the outside screw and yoke gate type, and, in addition to the boiler stop valve, in cases where two or more boilers are connected to a common main, each steam pipe shall be equipped with an automatic non-return valve of approved design.

89a.—Equipment for Connections to Heating Boilers.

The main return pipe to a heating boiler (Gravity Return System) shall contain a check valve, also a stop valve (in addition to a blow-off valve) between the check valve and boiler.

These valves shall be located as close to boiler as possible, the blow-down valve being inserted in a cross connection between stop valve and boiler.

When there are two or more boilers, each boiler shall be equipped as above.

The opening in shell plate for return pipe shall be reinforced as for a blow-off pipe (see Section 92) or fitted with a pressed steel flange, the pipe being screwed in full depth, and adequately protected from the products of combustion.

89b.—Equalizing Pipes.

When two or more boilers are connected to a common heating main, the riser and return pipes of each boiler shall be connected with an equalizing pipe to the riser and return pipes of adjoining boilers, in order to maintain a uniform water level in each boiler. A stop valve must be placed on every equalizing pipe.

90.—*Steam Mains.*

Provision shall be made for the expansion and contraction of steam mains connected to all boilers, with substantial anchorage at suitable points, to prevent perceptible vibration on the boiler shell plates. Cast iron fittings will not be permitted for superheated steam service.

91.—*Drains.*

All steam mains shall be efficiently drained. Where traps are connected to high pressure drains, the discharge end of trap shall be open for observation at all times. All drain cocks and valves must be accessible, and so placed as to permit of readily draining any portion of the steam pipe or chests in connection therewith.

92.—*Blow-off Pipes and Valves.*

Each boiler must be provided with an extra heavy blow-off pipe and straightway valve (not of the globe or angle type) connected directly to the lowest point of shell or drum. The pipe must contain sweep bends not less than four (4) times the diameter of the pipe, and arranged so the discharge cannot, under any circumstances enter an adjoining boiler when connected together.

The opening in shell or drum plate shall be reinforced by a plate at least equal in thickness, the two plates being drilled to size and tapped continuously, the pipe being screwed through both flush with the inside of shell plate.

The pipe must be adequately protected from the products of combustion and fitted with a cast iron sleeve where it passes through the walls of setting, thus providing for free expansion.

In all cases the valve must be located as close to the boiler as circumstances will permit, and be readily accessible.

92a.—*Blow-off Tanks.*

Blow-off tanks shall be so constructed of steel plate as to be equal in strength to the boiler or boilers connected therewith, according to these regulations. Such tanks shall contain inlet and outlet connections close to upper head, the latter being at least twice the diameter of the former, and made to extend internally to within six (6) inches from the bottom of the tank. A vent pipe of equal diameter to outlet connection shall lead to atmosphere from top of tank, and for convenience in cleaning same a manhole should be provided in the upper head. All pipe connections between boiler and tank shall be made as direct as possible, and equipped with sweep bends at least four times the diameter of the pipe.

93.—*Side Lugs and Settings for H.C. Boilers.*

The following rules shall be observed in the setting of cylindrical externally fired boilers:

(a) No boiler shall be suspended from the crown or allowed to stand on a pedestal at the back end.

(b) All externally fired boilers up to and including twelve (12) feet in length may be supported upon four (4) cast iron brackets, resting upon substantial plates set in the brickwork, and the back lugs resting upon rollers between the lugs and plate to provide for expansion of boiler.

(c) Boilers over twelve (12) feet and under sixteen (16) feet long shall be suspended at the back end from single side lugs placed on each side. The front end may be supported by steel brackets resting upon a substantial plate let into the brickwork. All such plates must be carefully levelled to fit the brackets.

(d) Boilers sixteen (16) feet long and over shall be suspended front and back by side lugs set in pairs. All lugs and brackets shall be located at each side above the fire-line, and properly fitted to the curvature of the shell. The shearing stress on rivets attaching same must not exceed eight per cent. (8%) of the shearing strength.

(e) All lugs must be of steel plate, and when set in pairs so designed and located as to allow an equal stress upon each lug.

(f) Suspension, where required by the preceding clauses, shall be from wrought iron or steel beams, which shall be carried by and secured to iron or steel columns (preferably cast iron), having bases bolted to substantial

Fig. 2.—Side View of Suspended Boiler.

foundations. (See Figs. 1 and 2.) Suspension beams or supporting columns shall not rest on the side walls of the brickwork setting.

The maximum fibre stress for suspension beams and columns must in no case exceed 12,500 pounds per square inch.

94.—*Back Arch.*

Back arches shall be set in such a manner as to allow for the free expansion of the boiler, and placed clear of the fusible plug.

All flues and back settings shall be constructed with doors in lower part of setting, not less than sixteen (16) inches by sixteen (16) inches so arranged as to be easily accessible at all times.

Distances from back head of return tubular boilers to the back wall should not be less than the following:

20 inches for boilers 30 inches to 42 inches in diameter.

24 inches for boilers 44 inches to 60 inches in diameter.

28 inches for boilers 60 inches to 72 inches in diameter.

95.—*Boiler Room Doors.*

It is recommended that all exits from boiler rooms should open outwards.

VII.—INSPECTION.

96.—*Precaution to be Taken when Entering Boiler.*

When any person enters a steam boiler which it is possible to connect with another boiler containing steam, a man must be placed at his disposal to prevent the danger of steam being turned into the boiler which he enters during the time he is inside it. (See Section 27 of *The Boilers Act.*)

97.—*Lowest Rating of One Boiler in a Battery to be Taken.*

When more than one boiler is connected to a main steam pipe, and for any reason the working pressure of one of them is reduced, the safety valves on the other boilers so connected shall be set to correspond with the safety valve on the boiler carrying the lowest working pressure.

98.—*Inspectors May Drill Holes Where Necessary.*

When the inspector has doubts of a boiler being defective he may drill or cause to be drilled the part he has doubt of to ascertain the thickness and condition of same. (See Section 20 of *The Boilers Act.*)

99.—*Boiler to be Prepared for Inspection and Tests.*

Before a stationary boiler is subjected to a hydrostatic test, the owner or operator shall see that it is opened for inspection, the manhole and hand-hole plates removed, the flues cleaned, and all soot and ashes removed from inside and outside of setting, and in case of a portable boiler the owner or operator shall see that the furnace grates and straw burners are taken out and the firebox and smokebox thoroughly cleaned. (See Section 19 of *The Boilers Act.*)

100.—*Handrail to Flywheel, Etc.*

Inspectors shall also see that all flywheels, pulleys, and belting in the engine and boiler room are properly protected, and that the keys in pulleys do not project beyond the end of shafting and see that set screws on collars are countersunk when considered necessary.

101.—*Flywheel Velocity.*

The maximum velocity that will be allowed on the periphery of any cast iron flywheel shall not exceed 6,000 feet per minute. Automatic stops shall be provided to each engine having a flywheel 8 feet in diameter and over. In determining the maximum velocity of flywheel rims which are made in segments, due account shall be taken of the joints between segments, and the attachment of the flywheel arms to the rims.

102.—Nominal Horse Power.

The nominal horse power of boilers, or of steam plants, for the rating of fees and engineers' certificates, is to be calculated as follows:

For all stationary boilers excepting loco firebox—

$$\frac{HS}{12} = \text{Nominal horse power.}$$

For locomotive firebox, traction and portable—

$$\frac{HS}{9} = \text{Nominal horse power.}$$

HS = Heating surface.

103.—Inspection of Steam Mains.

All steam pipes and connections are to be carefully examined by the inspectors at each inspection. Inspectors may subject all main steam pipes to a hydrostatic test of twice the working pressure of the boilers to which they are connected, as often as in their judgment they may deem it necessary; provided, however, that the hydrostatic test to be applied to copper pipes shall not exceed one and one-half times the working pressure of the boilers to which they are connected.

RIGHT OF ENTRY UPON PRIVATE LANDS.

4. A surveyor, when engaged in the performance of his duties as such, may pass over, measure along and ascertain the bearings of any line or boundary whatsoever, and for such purposes may pass over the lands of any person whomsoever, doing no actual damage to the property of such person. Right of entry upon private lands

EVIDENCE.

5. Every surveyor, acting in that capacity, may examine witnesses on oath with respect to all matters relating to the survey of lands, and for better ascertaining the original corner or limits of any surveyed parcel or tract of land whatsoever, may administer such oath to every person whom he examines in relation to such matters. Surveyors may examine under oath

6. Whenever any surveyor is in doubt as to the true corner, boundary or limit of any parcel or tract of land whatsoever which he is employed to survey and has reason to believe that any person is possessed of any important information touching such corner, boundary or limit, or of any writing, plan or document tending to establish the true position of such corner, boundary or limit, and if such person does not willingly appear before and be examined by such surveyor, or does not willingly produce to him such writing, plan or document, such surveyor may apply to any justice of the peace for an ordinary subpoena *ad testificandum*, or a subpoena *duces tecum*, as the case requires, accompanying such application by an affidavit or solemn declaration as to the facts on which the application is founded; and such justice may issue a subpoena accordingly, commanding such person to appear before the surveyor at a time and place mentioned in the subpoena, and, if the case requires it, to bring with him any writing, plan or document mentioned or referred to therein. Field notes

9. Every surveyor shall keep exact and regular field notes of all surveys made by him; and such field notes shall show the date on which the survey was made, the astronomic bearing or angular measurement of each line with some other line of the survey, the lineal measurements taken on each line, the nature, markings and location of each post planted by him, and the nature of, and marking on, all original monuments found by him upon the ground, or, in default of such monuments being found, the information or evidence as to original boundaries taken as a basis for the survey, together with all important topographical features of the land surveyed; every surveyor shall furnish a copy of such field notes certified in form B in the schedule of this Act to the parties concerned or to the Director of Surveys when so required for which copies he may charge at the rate of \$2.00 for each hour required to make same; provided that such surveyor may charge the sum of \$2.00 for any such copy which may be made in less time than one hour.

SYSTEM OF SURVEY.

Surveys to
be astronomical

10. All surveys shall be referred to the local astronomical meridian and no person shall make use of the magnetic compass in making surveys.

Certain
surveys to
be made
under
*Dominion
Lands
Surveys Act*

11. Whenever a surveyor is employed to re-establish the position of any line surveyed under the provisions of *The Dominion Lands Surveys Act* or to survey dividing lines between any subdivisions, authorized by the said Act, smaller than those originally laid out, he shall proceed according to the provisions of the said Act, or any Act passed in amendment or substitution therefor in force at the time of such survey.

Surveys to
be marked
on the ground

12. All surveyors shall erect, except as hereinafter otherwise specially provided, at all corners or angles of any survey, iron posts as herein defined, or wooden posts squared so as to have a face of not less than three inches across and a top bevelled so as to turn the rain; such wooden posts shall be at least 15 inches above the surface of the ground and shall be driven not less than 15 inches into the ground.

SUBDIVISION SURVEYS.

Outlines
to be first
established

13. Whenever a surveyor is employed to make a subdivision survey he shall first re-establish and carefully survey such part of the original outlines of any section, quarter section, settlement lot or other surveyed parcel of land, necessary to properly establish the boundaries of the land to be subdivided, and shall then establish the block corners on the outlines of the land to be subdivided, or if it is intended that there be no block corners on the said outlines he shall establish those block corners adjacent thereto and shall subsequently determine the interior block corners of his survey in reference to the block corners so first established.

14. Every surveyor shall mark all corners and angles of blocks with iron posts having the number or letter designating the block marked thereon with a cold chisel; and straight lines connecting the said corners and angles in the manner shown on the plan shall constitute the boundaries of said blocks. How block corners to be marked

15. Every surveyor shall mark, in all blocks which have curvilinear boundaries, the points of beginning and end of each curve having a constant radius and shall mark all four corners of each lot on said curvilinear boundary with iron posts. How curvilinear lots to be marked

16. The iron posts planted in accordance with the two next preceding sections shall, upon the registration of the plan of survey, establish for all purposes whatsoever the true and unalterable boundaries of every lot or block shown on such plan, whether or not such iron posts upon admeasurement upon the ground are found to be in the relative position shown on such plan of survey. Iron posts to govern

17. Each and every lot on a rectilinear block boundary shall have a frontage measurement proportionate to the total distance between the corners of the block in the same ratio as the frontage measurement of each lot shown on the registered plan bears to the total distance between the corners of the block shown on said plan. Lots to have proportionate frontage

18. Every surveyor employed to survey a side or rear boundary of any lot or parcel of land as shown on a plan of subdivision survey registered after the passing of this Act, where the said line is not a block boundary, shall proceed in such a manner as to give to each and every lot and lane in the block which contains the said lot, dimensions proportionate to those shown on the said registered plan. How side and rear lines of lots to be surveyed

19. Notwithstanding anything in this Act contained, plans of surveys completed on the ground prior to the passing of this Act and not made in accordance therewith, may, if there is attached thereto a certificate that the survey was so completed on the ground, and if such plans are correct in other respects, be registered by the Registrars of Land Titles at any time within one year from the passing of this Act; provided further, however, that all such surveys shall, when the plans thereof have been registered, be considered for the purposes of this Act as if made thereunder. Registration of plans not made in accordance with this Act

RE-ESTABLISHMENT OF LOST CORNERS OF SUBDIVISION SURVEYS MADE UNDER THIS ACT.

20. When a surveyor is employed to make a survey in any subdivision of which a plan has been registered after the passing of this Act and is unable to find the original iron post planted at the corner of any block (or lot on a curvilinear block boundary) of which he is required to re-establish the boundaries, he shall obtain the best evidence possible of the original position of such post, and, if satisfied in regard to such evidence re-establish the said boundaries accordingly by planting a new iron post in lieu Re-establishment of lost corners

of the lost post; but if in his opinion such evidence is inconclusive or untrustworthy he shall proceed as follows:

Block
corners
marking
corners of
original
subdivision

(a) If such post is for a block corner at the intersection of two of the external boundaries of the original subdivision, or at the intersection of the inner limits of the streets adjoining such external boundaries, he shall join by a straight line the two nearest undisputed points which are block corners on each of said boundaries, or limits, and produce the two straight lines thus determined to an intersection and shall plant an iron post in re-establishment of the lost corner at said intersection;

Block corners
on external
boundaries

(b) If such post is for a block corner on one of the external boundaries of the subdivision, or for a block corner adjacent thereto in cases where no block corners were established on such external boundary, as the same is shown on the registered plan thereof, he shall connect by a straight line the nearest undisputed points which are block corners on, or adjacent to, such boundary which are on opposite sides of the lost corner, and shall plant an iron post in re-establishment of the lost corner on the said line in such manner as to make the distances between it and the two undisputed points proportionate to one another in the same ratio as those shown therefor on the registered plan;

Interior
block corners

(c) In all other cases of lost block corners, he shall join by straight lines the two nearest undisputed points which are block corners, which are on opposite sides of the lost corner on each of the street lines which intersect at said corner, and shall plant an iron post in re-establishment of the lost corner at the intersection of the two said straight lines;

Curvilinear
lot corners

(d) If such post is for a lot corner on a curvilinear block boundary, he shall re-establish said boundary as between the two nearest undisputed points thereon which are on opposite sides of the lost corner, and which are shown on the registered plan to be block corners, lot corners or points of curve, and shall re-establish the lost corner on the boundary so re-established in such a way as to make the distances between the said corner and the two undisputed points proportionate to one another in the same ratio as those shown therefor on the registered plan.

MONUMENTS TO GOVERN.

Monuments
of surveys
made prior
to this Act
to govern

21. In subdivision surveys of which plans have been registered prior to the passing of this Act any original monument or post marking a corner of a block, lot, street, lane, park or other point of the survey, the original position of which can be in any way satisfactorily established, shall determine the true and unalterable position of such corner, whether upon admeasurement on the ground it is shown to agree with the measurements marked on the plan or not.

RE-ESTABLISHMENT OF LOST CORNERS OF SUBDIVISION SURVEYS
MADE PRIOR TO THIS ACT.

22. When a surveyor is employed to make a survey in a subdivision of which a plan has been registered prior to the passing of this Act, and is unable to find the original post planted at the corner of any block or lot of which he is required to re-establish the boundaries, or if its original position cannot be satisfactorily established he shall proceed as follows:

- (a) If such post is for a block corner he shall proceed in the manner prescribed in section 20 hereof; Block corners
- (b) If such post is for a lot corner he shall join by a straight line the two nearest undisputed points, if any, on the block boundary on which such corner occurs on opposite sides of the lost corner, and shall subdivide the distance found by admeasurement on the ground between said points, in such a way as to give each lot or lane a frontage measurement proportionate to said distance in the same ratio as the frontage measurement shown on the registered plan of such lot or lane bears to the said distance as shown on the plan; if there is no undisputed point on the block boundary on either or both sides of the lost corner, the surveyor shall first re-establish the block corner or corners and then proceed in the manner above set forth. Lot corners

23. Notwithstanding anything in this Act contained, in all cases where the provisions in regard to re-establishing lost corners are clearly inapplicable every surveyor shall proceed in such manner as to carry out the evident intention of the original survey as shown on the registered plan of the same. Procedure in special cases

(2) A surveyor may remove a monument shown in a registered plan of subdivision survey when it is intended to excavate or build to the boundary line of the lot of which the post is a corner having first planted suitable permanent reference marks to establish the position of the original monument; and shall file evidence in regard to such removal in the Land Titles Office where said plan is of record showing clearly the position of such reference marks and the location of the original monument in regard thereto.

RAILWAY SURVEYS.

24. When a surveyor is employed to make a survey of the lands required by any railroad company for right-of-way, station grounds or other railroad purposes he shall proceed as follows:

- (a) He shall make all measurements, both angular and linear on the centre line of the railway, and shall make all measurements to reference posts or to connect the right-of-way to the corners of sections, quarter sections, settlement lots or other surveyed parcels of land in reference thereto; Measurements to be referred to centre line
- (b) He shall plant an iron post on the southerly or westerly limit of the right-of-way or station grounds at the beginning and end of every curve having a constant Survey to be marked with iron posts

radius and at the intersection of said limit with the southerly or westerly boundary of each road allowance, or, where there is no road allowance, of each section, settlement lot or other surveyed parcel of land; and each such iron post shall have the initial letters of the words composing the name under which such railway company is incorporated permanently marked thereon to distinguish it from iron posts used for other land surveys;

Intersections
with land
boundaries

(c) Wherever such centre line intersects the southerly or westerly boundary of a road allowance, or where there is no road allowance, of a section, settlement lot or other surveyed parcel of land, such surveyor shall first re-establish the true position of the two nearest monuments on said boundary, being on opposite sides of the said centre line, and shall connect the same by a straight line, and the intersection of the straight line so established and the said centre line shall be the point of intersection shown in his field notes and plan of the survey;

Either limit
may be posted

**An Act to authorize the Guarantee of Certain Securities
of The Edmonton, Dunvegan and British Columbia
Railway Company.**

(See also 1914, *Cap. 27*; 1915, *Cap. 21*.)

(Assented to February 16, 1912.)

WHEREAS the Edmonton, Dunvegan and British Columbia Railway Company, a company incorporated by an Act of the Parliament of Canada, is authorized to construct the line of railway mentioned in the schedule hereto;

And whereas it is expedient to authorize the guarantee by the government of certain securities to be secured upon the said line mentioned in the said schedule and to be issued by the company;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the Edmonton, Dunvegan and British Columbia Railway Company (hereinafter called the company), to guarantee the payment of the principal and interest of the bonds, debentures, debenture stock or other securities (hereinafter called the securities) of the company in respect of the line of railway mentioned in the first column of the schedule to this Act, to the extent of the amount per mile mentioned in the second column of the said schedule, and for and in respect of the mileage of such line mentioned in the third column of the schedule to this Act, and upon the terms hereinafter set forth.

2. The certificate of the Minister of Railways and Telephones of the Province of Alberta as to the mileage of the said line shall, for the purposes of this Act and of the guaranteed securities, be conclusive, but the said Minister may issue interim certificates from time to time based upon the estimated mileage with regard thereto. A final certificate shall ultimately be issued by the said Minister with regard to the said line to accord with the miles and fractions of miles of the said line actually constructed between the points authorized. The said securities may be made payable in whole or in part in lawful money of Canada or in its equivalent in sterling or other money. Interest thereon shall be payable at the rate of four per cent. per annum half-yearly. The principal shall be payable in thirty years from the passing of this Act.

3. The said securities shall be secured by one or more deeds of trust by way of mortgage or charge to a trustee or trustees

approved by the Lieutenant Governor in Council and such deed or deeds of trust shall grant a first mortgage or charge upon the line of railway, and the rolling stock and equipment, present and future, acquired for the purposes of the said line, and the tolls, revenues and income arising and to arise therefrom, and the rights, privileges, franchises and powers of the company now or hereafter held or enjoyed in respect of the said line of railway and the operation and maintenance thereof.

4. The kind of securities to be guaranteed, and the form and terms thereof, and the form and terms of the deed or deeds of trust by way of mortgage securing them, and the times and manner of the issue of the securities, and the disposition of the moneys to be raised thereon by sale, pledge or otherwise, pending the expenditure of such moneys for the purposes of the said line of railway, and the form and manner of the guarantee or guarantees from time to time or at any time given in respect thereof, shall be such as the Lieutenant Governor in Council may approve.

5. The said guarantee or guarantees shall be signed by the Provincial Treasurer or such other officer as may be designated by the Lieutenant Governor in Council and upon being so signed the Province of Alberta shall become liable for the payment of the principal and interest of the securities guaranteed according to the tenor thereof, and the Lieutenant Governor in Council is hereby authorized to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee or guarantees and to advance the amount necessary for that purpose out of the general revenue of the province, and in the hands of any purchaser, pledgee or other person acquiring any of such securities the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of this Act with respect to the guaranteed securities and the deed of trust and all matters relating thereto have been complied with.

6. All moneys realized by sale, pledge or otherwise of the securities hereby authorized shall be paid directly by the purchaser, subscriber, pledgee or lender into a bank or banks approved by the Lieutenant Governor in Council to the credit of a special account in the name of the Treasurer of the province or to such other credit as the Lieutenant Governor in Council may direct; and if the money be borrowed by the company upon pledge or otherwise of any of the securities prior to sale thereof, which money shall be paid in as aforesaid, the amount so paid in shall be deducted from the purchase price subsequently received for the securities so borrowed upon, and the balance only shall be paid in; and securities borrowed upon may after the loans thereon have been paid or discharged by the company be issued or re-issued and shall be secured by the said deed or deeds of trust and entitled to the benefit thereof notwithstanding such loans and payment or discharge. The balances at the credit of the special account or accounts shall be credited with interest at such times and at such rates as may be agreed upon between the company and the bank holding the same, and the said balances shall from time to time be paid out to the company or its nominees in monthly payments as far as practicable as the construction

of the line of railway mentioned in the schedule hereto is proceeded with to the satisfaction of the government according to the specification fixed by contract between the government and the company, and from time to time as the said work of construction proceeds the government shall (subject to the provisions of the next succeeding clause of this Act), out of the said balances, pay to the company or its nominees, in monthly payments as far as is practicable such sums as an engineer appointed by the Lieutenant Governor in Council shall certify as justified, having regard to the proportion of the work done upon the said line of railway as compared with the whole work done and to be done thereon. The balance, if any, of the proceeds of such securities which may remain after the completion of the said line of railway shall be paid over to the company or its nominees. Pending completion of the said line of railway the balances at the credit of such special account shall, until paid out as above provided for, be deemed part of the mortgaged premises under said deed or deeds of trust and shall not be taken to be public moneys received by the province.

7. No amount shall be paid by the government out of the moneys arising by the sale, pledge or otherwise of the securities hereby authorized until work equal in value to fifty miles of constructed line has been completed by the company to the satisfaction of the government according to the specifications fixed by contract between the government and the company, but upon such work equal in value to fifty miles of constructed line being so completed by the company the government shall out of the moneys so realized by sale, pledge or otherwise of the securities hereby authorized pay to the company or its nominees such amount as an engineer appointed by the Lieutenant Governor in Council shall certify as justified, having regard to the proportion of the said work equal in value to fifty miles of constructed line as compared with the whole work done or to be done on the said line.

8. Work to the value of at least one hundred miles of constructed line shall be done by the company upon the line of railway in the schedule mentioned on or before the thirty-first day of December, 1912, and similarly each consecutive year until the whole of the said line is completed and ready for traffic, and the said line shall be completed and ready for traffic on or before the thirty-first day of December, 1915. 1914, c. 2, s. 8.

9. The said line shall be constructed to a general standard in all respects, apart from grades and curvature (as to which the character of the country through which the line passes shall be taken into consideration) not inferior to the standard set by the specifications of the main line of the Canadian Northern Railway between Winnipeg and Edmonton, and to the satisfaction of the Minister of Railways and Telephones.

10. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not in any event be taken to affect the liability of the company therefor under the securities so paid or under the deed or deeds of trust securing the payment thereof, but such liability shall

remain unimpaired and enforceable by the province against the company. The province shall be subrogated as against the company to all rights, privileges and powers to which the holders of the respective securities so paid were entitled by virtue of such securities, or of the said deed or deeds of trust prior to payment by the province under its guarantee, and shall with respect to the securities so paid be in the same position as a holder of securities upon which the company has made default.

11. Subject to the proviso in this section contained the deed or deeds of trust (hereinafter called the original instruments) securing the securities hereby authorized to be guaranteed may provide for the issue from time to time and ranking *pari passu* with the said securities and without preference or priority one over the other of additional securities of similar kind, tenor and effect in respect of the mileage of the line mentioned in the schedule hereto, and also additional securities of similar kind, tenor and effect also ranking *pari passu* and without preference or priority as aforesaid in respect of additional lines of railway in the Province of Alberta to be hereafter constructed by the company, but not exceeding twenty thousand dollars (\$20,000) per mile of such additional lines; provided always that before any such additional securities are issued the guarantee by the province of the payment of principal and interest thereof shall first have been authorized and the amount to be issued per mile in respect of such line or lines shall first have been fixed by the Legislative Assembly and that such guarantee shall first have been given pursuant thereto.

12. A supplementary deed or deeds of trust (herein called supplementary instruments) covering the said line mentioned in the schedule hereto in respect of which additional securities are authorized to be issued or such additional lines as aforementioned, as the case may be, in the form approved by the Lieutenant Governor in Council shall from time to time be taken to the trustees of the original instruments, and such additional securities shall be issued under the terms of the original instruments and supplementary instruments which, together with the mortgaged premises covered by the original and supplementary instruments, shall form the security for all the securities issued thereunder in the same manner and with the same effect as if the original instrument and supplementary instrument or instruments formed together but one instrument, and as if all securities issued or to be issued under the original or supplementary instruments were issued under one instrument.

13. Should the constructed mileage of the line specified in the schedule be less than the mileage estimated in the said schedule by reason whereof there remains—

A surplus of authorized mileage in respect of which no securities were actually issued or guaranteed; or

A surplus of proceeds of the moneys realized by sale, pledge or otherwise of the guaranteed securities issued in respect thereof,

the Lieutenant Governor in Council may guarantee additional securities in respect of such surplus of mileage or authorize the application of such surplus of proceeds, whichever may be the

case, in or in respect of further construction by the company or extensions of the line mentioned in the schedule or of branches thereof, or of other lines of railway in Alberta approved by the Lieutenant Governor in Council.

14. A supplementary deed or deeds of trust covering the mileage further constructed by the company under the last preceding section of this Act shall be taken to the trustees of the original instruments mentioned in sections 11 and 12 of this Act, and the provisions of section 12 shall, where not inconsistent with this section or with the last preceding section, apply to the supplementary deeds executed under this section and to the securities which may be issued and guaranteed in pursuance thereof.

And whereas it is expedient to authorize the guarantee by the government of certain securities to be secured upon the said line mentioned in the said schedule and to be issued by the company;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the Grand Trunk Pacific Branch Lines Company (hereinafter called the company), to guarantee the payment of the principal and interest of the bonds, debentures, debenture stock or other securities (hereinafter called the securities) of the company in respect of the line of railway mentioned in the first column of the schedule to this Act, to the extent of the amount per mile mentioned in the second column of the said schedule to this Act, and upon the terms hereinafter set forth.

2. The certificate of the Minister of Railways and Telephones of the Province of Alberta as to the mileage of the said line shall, for the purposes of this Act and of the guaranteed securities, be conclusive, but the said Minister may issue interim certificates from time to time based upon the estimated mileage of the said line, or fixing temporarily the mileage with regard thereto. A final certificate shall ultimately be issued by the said Minister with regard to the said line to accord with the miles and fractions of miles of the said line actually constructed between the points authorized. The said securities may be made payable in whole or in part in lawful money of Canada or in its equivalent in sterling or other money. 5. The said guarantee or guarantees shall be signed by the Provincial Treasurer or such other officer as may be designated by the Lieutenant Governor in Council and upon being so signed the Province of Alberta shall become liable for the payment of the principal and interest of the securities guaranteed according to the tenor thereof, and the Lieutenant Governor in Council is hereby authorized to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee or guarantees and to advance the amount necessary for that purpose out of the general revenue of the province, and in the hands of any purchaser, pledgee or other person acquiring any of such securities the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of this Act with respect to the guaranteed securities and the deed of trust and all matters relating thereto have been complied with.

The balance, if any, of the proceeds of such securities which may remain after the completion of the said line of railway shall be paid over to the company or its nominees. Pending completion of the said line of railway the balances at the credit of such special account shall, until paid out as above provided for, be deemed part of the mortgaged premises under said deed or deeds of trust and shall not be taken to be public money received by the province.

7. The line of railway in the schedule mentioned shall be completed and ready for traffic on or before the thirty-first day of December, 1912.

8. The said line shall be constructed to a general standard in all respects, apart from grades and curvature (as to which the character of the country through which the line passes shall be taken into consideration) not inferior to the standard set by the specifications of the main line of the Canadian Northern Railway between Winnipeg and Edmonton, and to the satisfaction of the Minister of Railways and Telephones.

9. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not in any event be taken to affect the liability of the company therefor under the securities so paid or under the deed or deeds of trust securing the payment thereof, but such liability shall remain unimpaired and enforceable by the province against the company. The province shall be subrogated as against the company to all rights, privileges and powers to which the holders of the respective securities so paid were entitled by virtue of such securities, or of the said deed or deeds of trust prior to payment by the province under its guarantee, and shall with respect to the securities so paid be in the same position as a holder of securities upon which the company has made default.

10. Subject to the provision in this section contained the deed or deeds of trust (hereinafter called the original instruments) securing the securities hereby authorized to be guaranteed may provide for the issue from time to time and ranking *pari passu* with the said securities and without preference or priority one over the other of additional securities of similar kind, tenor and effect in respect of the mileage of the line mentioned in the schedule hereto, and also additional securities of similar kind, tenor and effect also ranking *pari passu* and without preference or priority as aforesaid in respect of additional lines of railway in the Province of Alberta to be hereafter constructed by the company, but not exceeding twenty thousand dollars (\$20,000) per mile of such additional lines; provided always, that before any such additional securities are issued the guarantee by the

province of the payment of principal and interest thereof shall first have been authorized and the amount to be issued per mile in respect of such line or lines shall first have been fixed by the Legislative Assembly and that such guarantee shall first have been given pursuant thereto.

11. A supplementary deed or deeds of trust (herein called supplementary instruments) covering the said line mentioned in the schedule hereto in respect of which additional securities are authorized to be issued or such additional lines as aforementioned, as the case may be, in the form approved by the Lieutenant Governor in Council shall from time to time be taken to the trustees of the original instruments, and such additional securities shall be issued under the terms of the original instruments and supplementary instruments which, together with the mortgaged premises covered by the original and supplementary instruments, shall form the security for all the securities issued thereunder in the same manner and with the same effect as if the original instrument and supplementary instrument or instruments formed together but one instrument, and as if all securities issued or to be issued under the original or supplementary instruments were issued under one instrument.

12. Should the constructed mileage of the line specified in the schedule be less than the mileage estimated in the said schedule by reason whereof there remains—

A surplus of authorized mileage in respect of which no securities were actually issued or guaranteed; or

A surplus of proceeds of the moneys realized by sale, pledge or otherwise of the guaranteed securities issued in respect thereof,

the Lieutenant Governor in Council may guarantee additional securities in respect of such surplus of mileage or authorize the application of such surplus of proceeds, whichever may be the case, in or in respect of further construction by the company or extensions of the line mentioned in the schedule, or of branches thereof, or of other lines of railway in Alberta approved by the Lieutenant Governor in Council.

13. A supplementary deed or deeds of trust covering the mileage further constructed by the company under the last preceding section of this Act shall be taken to the trustees of the original instruments mentioned in sections 10 and 11 of this Act, and the provisions of section 11 shall, where not inconsistent with this section or with the last preceding section, apply to the supplementary deeds executed under this section and to the securities which may be issued and guaranteed in pursuance thereof.

(See also 1913 (1), *Cap.* 20; 1913 (2), *Cap.* 9; 1915, *Cap.* 20.)

(Assented to February 16, 1912.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the Canadian Northern Western Railway Company (hereinafter called the company) to guarantee the payment of the principal and interest of the bonds, debentures, debenture stock or other securities (hereinafter called securities) of the company in respect of each of the lines of railway mentioned in the first column of the schedule to this Act, being the column of such schedule headed "Lines of Railway," to the extent of the amounts per mile respectively set opposite each of such lines in the second column of the said schedule, being the column headed "Guarantee per mile in dollars," and for and in respect of the mileage of such lines respectively set opposite each of such lines in the third column of the schedule (whether the same be for and in respect of the whole mileage of such lines respectively or any portion thereof) being the column headed "Mileage guaranteed," and upon the terms hereinafter set forth.

2. The certificate of the Minister of Railways and Telephones of the Province of Alberta as to the mileage of the said respective lines of railway shall, for the purposes of this Act and of the guaranteed securities, be conclusive, but the said Minister may issue interim certificates from time to time based upon the estimated mileages of the said lines or any of them, or fixing temporarily the mileages with regard thereto. Final certificates shall be ultimately issued by the said Minister with regard to each of the said lines to accord with the miles and fractions of miles of the said lines actually constructed between the points authorized. The said securities may be made payable in whole or in part in lawful money of Canada or in its equivalent in sterling or other money. Interest thereon shall be payable at the rate of four per cent. per annum half-yearly. The principal shall be payable in thirty years from the passing of this Act.

3. The said securities shall be secured by one or more deeds of trust by way of mortgage or charged to a trustee or trustees approved by the Lieutenant Governor in Council and such deed

or deeds of trust shall grant a first mortgage or charge upon the line or lines of railway included therein and with respect to the mileage of which the securities secured thereby are issued, and the rolling stock and equipment, present and future, acquired for the purposes of the said line or lines so included in such deed or deeds of trust respectively, and the tolls, revenues and income arising and to arise therefrom, and the rights, privileges, franchises and powers of the company now or hereafter held or enjoyed in respect of the said line or lines and the operation and maintenance thereof.

4. The kind of securities to be guaranteed, and the form and terms thereof, and the form and terms of the deed or deeds of trust by way of mortgage securing them, and the times and manner of the issue of the securities, and the disposition of the moneys to be raised thereon by sale, pledge or otherwise, pending the expenditure of such moneys for the purposes of the said lines of railway respectively, and the form and manner of the guarantee or guarantees from time to time or at any time given in respect thereof shall be such as the Lieutenant Governor in Council may approve.

5. The said guarantee or guarantees shall be signed by the Provincial Treasurer or such other officer as may be designated by the Lieutenant Governor in Council and upon being so signed the Province of Alberta shall become liable for the payment of the principal and interest of the securities guaranteed according to the tenor thereof, and the Lieutenant Governor in Council is hereby authorized to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee or guarantees and to advance the amount necessary for that purpose out of the general revenue of the province, and in the hands of any purchaser, pledgee or other person acquiring any of such securities the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of this Act with respect to the guaranteed securities and the deed of trust and all matters relating thereto have been complied with.

6. All moneys realized by sale, pledge or otherwise of the securities hereby authorized shall be paid directly by the purchaser, subscriber, pledgee or lender into a bank or banks approved by the Lieutenant Governor in Council to the credit of a special account in the name of the Treasurer of the province or to such other credit as the Lieutenant Governor in Council may direct; and if money be borrowed by the company upon pledge or otherwise of any of the securities prior to sale thereof, which money shall be paid in as aforesaid, the amount so paid in shall be deducted from the purchase price subsequently received for the securities so borrowed upon, and the balance only shall be paid in; and securities borrowed upon may after the loans thereon have been paid or discharged by the company be issued or re-issued, and shall be secured by the said deed or deeds of trust and entitled to the benefit thereof notwithstanding such loans and payment or discharge. The balances at the credit of the special account or accounts shall be credited with interest at such times and at such rates as may be agreed

upon between the company and the bank holding same, and the said balances shall from time to time be paid out to the company or its nominees in monthly payments as far as is practicable as the construction of the respective lines of railway specified in the schedule hereto is proceeded with to the satisfaction of the government according to the specifications fixed by contract between the government and the company, and from time to time as the said work of construction proceeds the government shall out of the said balances pay to the company or its nominees in monthly payments as far as is practicable such sums as an engineer appointed by the Lieutenant Governor in Council shall certify as justified, having regard to the proportion of work done upon the said respective lines of railways as compared with the whole work done and to be done upon such lines respectively, each line for this purpose being treated as a separate line. The balance, if any, of the proceeds of such securities (at the rates respectively specified in the schedule hereto) which may remain after the completion of each of the said lines of railway, respectively, treated as separate lines, shall be paid over to the company or its nominees. Pending completion of the said respective lines the balances at the credit of such special accounts shall, until paid out as above provided for, be deemed part of the mortgaged premises under said deed or deeds of trust and shall not be taken to be public moneys received by the province.

7. Work to the value of at least two hundred (200) miles of constructed line shall be done by the company upon the lines in the schedule mentioned on or before the 31st day of December, 1912, and similarly each consecutive year until the whole of the said lines are completed and ready for traffic; and the said lines shall be completed and ready for traffic on or before the 31st day of December, 1915.

8. The said lines shall be constructed to a general standard in all respects, apart from grades and curvature (as to which the character of the country through which the lines pass shall be taken into consideration) not inferior to the standard fixed by the specifications of the main line of the Canadian Northern Railway between Winnipeg and Edmonton, and to the satisfaction of the Minister of Railways and Telephones.

9. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not in any event be taken to affect the liability of the company therefor under the securities so paid or under the deed or deeds of trust securing the payment thereof, but such liability shall remain unimpaired and enforceable by the province against the company. The province shall be subrogated as against the company to all rights, privileges and powers to which the holders of the respective securities so paid were entitled by virtue of such securities, or of the said deed or deeds of trust prior to payment by the province under its guarantee, and shall with respect to the securities so paid be in the same position as a holder of securities upon which the company has made default.

10. Subject to the proviso in this section contained, the deed or deeds of trust (hereinafter called the original instruments)

securing the securities hereby authorized to be guaranteed may provide for the issue from time to time and ranking *pari passu* with the said securities and without preference or priority one over the other of additional securities of similar kind, tenor and effect in respect of the mileage of any of the lines mentioned in the schedule hereto, and also additional securities of similar kind, tenor and effect also ranking *pari passu* and without preference or priority as aforesaid in respect of additional lines of railway in the Province of Alberta to be hereafter constructed by the company, but not exceeding twenty thousand dollars (\$20,000) per mile of such additional lines; provided always, that before any such additional securities are issued the guarantee by the province of the payment of the principal and interest thereof shall first have been authorized and the amounts to be issued per mile in respect of such lines shall first have been fixed by the Legislative Assembly and that such guarantee shall first have been given pursuant thereto.

11. A supplementary deed or deeds of trust (herein called supplementary instruments) covering the said lines mentioned in the schedule hereto in respect of which additional securities are authorized to be issued or such additional lines as aforementioned, as the case may be, in the form approved by the Lieutenant Governor in Council shall from time to time be taken to the trustees of the original instruments, and such additional securities shall be issued under the terms of the original instruments and supplementary instruments which, together with the mortgaged premises covered by the original and supplementary instruments, shall form the security for all securities issued thereunder in the same manner and with the same effect as if the original instrument and supplementary instrument or instruments formed together but one instrument and as if all the securities issued or to be issued under the original or supplementary instruments were issued under one instrument.

12. Should the constructed mileage of any line or lines specified in the schedule to this Act, or the aggregate mileage of some or all of such lines, be less than the mileages estimated in the said schedule, by reason whereof there remains—

A surplus of authorized mileage in respect of which no securities at the rates respectively specified with regard thereto in such schedule were actually issued or guaranteed; or

A surplus of proceeds of the moneys realized by sale, pledge or otherwise of guaranteed securities issued in respect thereof,

the Lieutenant Governor in Council may guarantee additional securities in respect of such surplus of mileage or authorize the application of such surplus of proceeds, whichever may be the case, in or in respect of the further construction by the company of extension of the lines mentioned in the said schedule, or of branches therefrom, or of other lines of railway in Alberta approved by the Lieutenant Governor in Council.

(2) A supplementary deed or deeds of trust covering the mileage further constructed by the company under this section shall be taken to the trustees of the original instruments mentioned

in sections 10 and 11 of this Act, and the provisions of section 11 shall, where not inconsistent with this section, apply to the supplementary deeds executed under this section and to the securities which may be issued and guaranteed in pursuance hereof.

5. A closing by-law may prohibit, either absolutely or subject to such exemptions and conditions as may be therein contained, the carrying on of any retail trade, or business, after the closing hour in any place not being a shop within the area of the city or town to which such by-law applies, if under the terms of said by-law, or any other by-law passed under the provisions of this Act, it would be unlawful at such time to keep a shop open for the purpose of carrying on of any such trade or business.

**Scope
of by-law**

6. Any such by-law may—

under this Act, or unless he is the holder of a provisional certificate granted by the Chief Inspector authorizing him to act in such capacity for a period not more than sixty days after the next examination is held for the district in which the mine is situated and for which the provisional certificate is granted.

28. Any person who has been granted a provisional certificate authorizing him to act as overman at any mine operated under this Act shall not be granted a renewal of such certificate nor shall he be granted a second provisional certificate.

(3) No mine shall be worked for more than thirty days without the appointment of a manager as provided in subsection 1 of this section, but such owner or agent shall not be guilty of an offence if he can prove that he has taken all reasonable means to appoint a manager under said subsection.

(4) If for a reasonable cause there is for the time being no manager of a mine qualified as required by this section, the owner or agent of such mine may, subject to the written approval of the Chief Inspector appoint any person holding a second class certificate under this Act to be manager for a period not exceeding thirty days or such longer period as elapses before such person has an opportunity of obtaining by examination a first class certificate under this Act, and the said owner or agent shall immediately send to the Minister and to the District Inspector a written notice of the name and address of such overman and the reason for such appointment.

(5) A mine in which less than thirty persons are employed underground shall be exempt from the provisions of this Act in so far as it relates to the appointment of a manager, unless the Chief Inspector, by notice in writing served on the owner or agent requires the same to be under the control of a manager; but the operations underground shall be under the daily charge of a person holding a second class certificate under this Act unless permission is given by the Minister that the operations underground may be under the daily charge of a competent person known to the Chief Inspector.

(6) Any person employed as an overman under this Act shall devote his whole time to the supervision of the mine or part thereof and the fulfilling of his statutory duties but nothing in

this section shall be taken to mean that he cannot do such acts as are necessary for the safety of the mine or of the persons employed therein.

(7) After the first day of January, 1914, no person who is manager of a mine shall, without the approval in writing of the Chief Inspector, be manager of any other mine required to be under the control of a manager unless all said mines are within a distance of ten miles of the mine for which he was first appointed.

(8) When any person is appointed to be manager of two or more mines required to be under the control of a manager, there shall be an overman appointed at each mine.

Inquiry into
cases of
incompetency

30. If at any time complaint is made to the Minister that any person holding a certificate under this Act is by reason of incompetency or gross negligence unfit to discharge his duty or has been convicted of an offence against this Act, the Minister may make inquiry touching the said complaint and for the purposes thereof, the following provisions shall have effect:

1. The inquiry shall be public and shall be held at such place as the Minister directs.

4. The Minister may require the person against whom the complaint has been made to deliver up his certificate to the Minister; the Minister may hold said certificate until the conclusion of the inquiry and he may then either return, cancel or suspend the same.

5. The Minister may also by summons under his hand require the attendance of any person or persons and examine them for the purpose of the inquiry, and every person so summoned shall be allowed such fees as are allowed to a witness attending on a subpoena in proceedings before the Supreme Court.

6. The Minister may make such order, as he may think fit, respecting the costs and expenses of the inquiry and such order shall, on the application of any person entitled to the benefit of the same, be enforced by any court of summary jurisdiction as if such costs and expenses were a penalty imposed by such court.

PAYMENT OF WAGES.

34. No wages shall be paid to any person employed in or about any mine, at, or within any hotel or place where any spirituous or fermented liquor is authorized to be sold or in any house of entertainment, office, garden or place belonging thereto or connected therewith. Where wages cannot be paid

(2) All wages earned by any person or persons employed in or about a mine from the first day to the fifteenth day of each month, both days inclusive, shall be paid on the first Saturday of the following month, and all wages earned from the sixteenth day to the last day of each month, both days inclusive, shall be paid on the third Saturday of the following month:

Provided, however, that if the said first or third Saturday of any month is a holiday the wages payable on such Saturday shall be paid on the Friday next preceding such Saturday.

35. When the amount of wages paid to any of the persons employed in a mine depends on the amount of mineral gotten by them, such persons shall be paid according to the weight or measurement of the mineral gotten by them and such mineral shall be truly weighed accordingly at a place as near to the mine entrance as is reasonably practicable or measured at the working face. How wages are to be determined

(2) Nothing in this section shall preclude the owner, agent or manager of any mine from agreeing with the persons so employed and paid that deductions shall be made in respect of stones or material other than mineral contracted to be gotten which are sent out of the mine with the mineral contracted to be gotten, or in respect to any tubs or cars being improperly filled in those cases where they are filled by the getter of the mineral, or by the loader, or by any person immediately employed by him, and no such deductions shall be made until such agreement is made in writing on behalf of both parties.

(3) If such deductions are not mutually agreed upon, they shall be determined as follows:

- (a) In any special manner agreed upon between the owner, agent or manager of the mine on the one hand, and the persons so employed and paid on the other; or
- (b) By some person appointed for that purpose by the owner, agent or manager and by a person appointed by such employees who may be the check-weigher if any check-weigher has been appointed as in this Act provided; or

(4) If any owner, agent or manager, or the persons so employed in any mine, fail to appoint a person to agree upon such deduction, a person may be appointed on his or their behalf by the Minister.

CHECK-WEIGHER.

Appointment
of check-
weigher

36. The persons who are employed in a mine and are paid according to the weight of the mineral gotten by them may, at their own cost, appoint a person (in this Act called a "check-weigher") who is resident in the province and station him at the place appointed for the weighing of such mineral in order to take an account of the weight thereof on behalf of the persons by whom he is so stationed. The check-weigher must be a practical working miner of at least three years' experience and may be appointed by the aforesaid persons employed from time to time in the mine.

(2) A check-weigher shall have every facility afforded him by the owner, agent or manager to take correct account of the weighing for the persons by whom he is so stationed, including facilities for examining and testing the weighing machine and checking the taring of the tubs and boxes when necessary; and also for counting boxes and tallies in order that the number of boxes, weights or quantities credited to each person may be ascertained, and also including a shelter from the weather and a desk or table at which to write, all to be furnished by the owner, agent or manager, and he shall have access to all parts of the mine and bankhead necessary for the fulfilment of his duties.

Interference
of check-
weigher

37. The check-weigher shall not in any way impede or interrupt the working of the mine or interfere with the working of the mine or interfere with the weighing, his duty being to take such account as aforesaid only, and the absence of the check-weigher shall not be a reason for interrupting or delaying such weighing.

Payment of
check-
weigher

38. When a check-weigher has been appointed by the persons employed in a mine who are paid according to the weight of mineral gotten out by them and has acted as such, he may recover from any person for the time being employed at such mine and so paid, his proportion of the check-weigher's wages or recompense, notwithstanding that any of the persons by whom the check-weigher was appointed have left the mine or others have entered the same since the check-weigher's appointment, any rule of law or equity to the contrary notwithstanding.

(2) Whenever a majority of the miners who are employed in a mine to which this Act applies who have engaged a check-weigher shall request in writing of the owner, agent or manager, that the wages of such check-weigher be paid direct from the offices of the mine, the said owner, agent or manager shall withhold from the wages due the miners aforesaid, a *pro rata*

amount sufficient from time to time to meet the wages due the check-weigher, and shall pay the same to him in a like manner as the wages of the said miners are paid.

39. If an owner, agent or manager of a mine desires the removal of a check-weigher on the ground that the check-weigher has impeded or interrupted the working of the mine or improperly interfered with the weighing or has otherwise misconducted himself, he may complain in writing to a judge of the District Court, who, if of the opinion that said complaint should be investigated, shall issue a summons to the said check-weigher to appear at a certain time and place therein named. Removal of
check-weigher

(2) Such summons and a copy of the complaint shall be served personally on the check-weigher at least five days before the return of such summons; if, after diligent efforts, it is found impossible to personally serve said check-weigher the said summons may be left with some grown-up person residing in the home or last known place of residence of said check-weigher at least five days before the return of said summons.

(3) In default of appearance of the check-weigher to answer the complaint, service of the said summons on him shall be furnished to the satisfaction of said judge.

(4) Whether the check-weigher appears or not, said judge shall hear the case at the time fixed in the summons and if he deems sufficient ground is shown by the owner, agent or manager to justify the removal of the check-weigher, he shall make a summary order for his removal and the check-weigher shall thereupon be removed without prejudice to the stationing of another check-weigher in his place.

(5) Said judge may in every case make such order as to the costs of the proceedings he thinks just and such costs may be recovered as a judgment in the District Court.

(6) The judgment of said judge shall be final and there shall be no appeal therefrom.

40. In any mine in which the persons employed are paid by mutual agreement otherwise than according to the weight of the mineral gotten by them they may, at their own cost, employ one or two practical working miners of at least three years' experience, resident in the province who shall at all times have power and necessary facilities to check the correctness of the manner, method, measure, measurements or quantities according to which persons are paid, on behalf of the persons by whom he is employed; and also for counting boxes and tallies once daily, in order that the number of boxes, weights or quantities credited to such persons may be ascertained. Checker

(2) The provisions of this Act with respect to the powers and duties of a check-weigher and the facilities to be afforded him and for his removal from office shall apply to every person appointed under this section.

41. Any person employed in or about a mine may by order in writing authorize his employer to apply the whole or part of the moneys due to him to the payment of any debt due by such person employed in or about a mine, but any such order shall be effective only for an amount specified therein. Orders and
deductions

(2) He shall also see that no person is allowed to be raised in or on any cage or trip if the opposite cage or trip contains material of any description nor shall he allow any person to ascend in or on any cage which contains any car; nothing in this subsection shall, however, be taken to mean that a person may not be raised in a cage or trip where material is required to be placed on the opposite cage or trip, for the purpose of acting as a back balance:

Provided such material is securely fixed in such a manner that it cannot move on such cage or trip.

OUTSIDE FOREMAN.

120. The outside foreman shall be subject to the control of ^{Duties} the manager or a person appointed by him, and he shall direct and supervise all operations outside the mine.

certain
places

In case any difference of opinion shall arise between an inspector and an owner, agent or manager under this rule, the same shall be settled as provided in *The Mines Act*.

4. Notices shall be sent to the District Inspector of Mines on the forms prescribed by the Minister, as follows, namely:

Notices

(i) Notice of any existing apparatus. To be sent within one month from the date on which these rules come into force;

(ii) Notice of intention to introduce apparatus into any mine, or into any ventilating district in any mine;

- (iii) Notice of the intention to introduce or re-introduce electricity into any mine where the use of electricity has previously been prohibited under Rule 3;
- (iv) An annual return giving the size and type of apparatus and any particulars which may be required by the Minister as to the circumstances of its use. To be sent on or before the twenty-first day of January in every year.

If the District Inspector does not object in writing within one calendar month from the receipt by him of the notice, to the carrying out of either of the intentions specified in the second or third notices the owner shall be entitled to carry out such intention or intentions:

Provided that this rule shall not apply to telephones and signalling apparatus.

Plans

5. The owner, agent or manager of every mine in which electricity is used underground, shall keep in the office at the mine a correct plan on the same scale as that required to be kept at the mine in fulfilment of the requirements of *The Mines Act*, showing up to a date not more than three months previous, the position of all fixed apparatus in the mine, other than telephones and signalling apparatus; said plan shall be produced to an inspector at any time on his request.

It shall be of mechanical strength sufficient for its purpose, and it shall be of such a character or so protected as fully to maintain its insulating properties under working conditions of temperature and moisture.

(c) Every part of a system shall be kept efficiently insulated from earth, except that (i) the neutral point of polyphase system may be earthed at one point only; (ii) the mid-voltage point of any system, other than a concentric system, may be earthed at one point only; and (iii) the outer conductor of a concentric system shall be earthed. (b) Where the cables are provided with a metallic covering constructed and installed in accordance with Rule 14 (e) such metallic covering may be used as a means of connection to the earthing system. All the conductors of an earthing system shall have a conductivity at all parts and at all joints at least equal to 50 per cent. of that of the largest conductor used solely to supply the apparatus, a part of which it is desired to earth: provided that no conductor of an earthing system shall have a cross-sectional area of less than No. 12 B. & S. gauge.

(c) All joints in earth conductors and all joints to the metallic covering of the cables shall be properly soldered or otherwise efficiently made and every earth conductor shall be soldered into a lug for each of its terminal connections. - (iv) All live parts shall be so protected or enclosed as to prevent accidental contact by persons and danger from arcs or short circuits, fire or water;
- (v) Where there may be risk of igniting gas, coal dust, or other inflammable material, all parts shall be so protected as to prevent open sparking

13. (a) Properly constructed switchgear for cutting off the supply of ^{Control of} current to the mine shall be provided at the surface of the mine, and during the time any cable is live a person authorized to operate the said switchgear ^{the supply of current} shall be available within easy reach thereof.

Lightning arrestors, properly adjusted and maintained shall be provided where necessary to prevent danger.

(b) Efficient means, suitably placed, shall be provided for cutting off all pressure from every part of a system, as may be necessary to prevent danger.

(c) Such efficient means shall be provided for cutting off all pressure automatically from the part or parts of the system affected in the event of a fault, as may be necessary to prevent danger.

(d) Every motor shall be controlled by switchgear for starting and stopping, so arranged as to cut off all pressure from the motor and from all apparatus in connection therewith, and so placed as to be easily worked by the person appointed to work the motor.

(e) If the concentric system is used no switch, fuse, or circuit breaker shall be placed in the outer conductor or in any conductor connected thereto, except that, if required, a reversing switch may be inserted in the outer conductor at the place where the current is being used. Nevertheless, switches, fuses, or circuit breakers may be used to break the connection with the generators or transformers supplying the electricity; provided that the connection of the outer conductor with the earthing system shall not thereby be broken.

(f) Each branch circuit inside a mine shall be controlled by an independent switch and in any mine where safety lamps are required to be used, all switches shall be of the oil type.

Cables

14. All cables other than flexible cables for portable apparatus and signalling wires, shall comply with the following requirements:

(b) They shall be efficiently protected from mechanical damage and supported at sufficiently frequent intervals and in such a manner as adequately to prevent danger and damage to the cables;

(c) Concentric cables, or two-core or multi-core cables protected by a metallic covering, or single-core cables protected by a metallic covering which shall contain all the conductors of the circuit, shall be used (i) where the roadway conveying the cables is also used for mechanical haulage; and (ii) where there may be risk of igniting gas, coal-dust, or other inflammable material:

Provided that if the medium pressure direct current system is used (i) two single-core cables protected by metallic coverings may be used for any circuit if the said metallic coverings are bonded together by earth conductors so placed that the distance between any two consecutive bonds is not greater than 100 feet measured along either cable; and (ii) two single-core cables covered with insulating material efficiently protected otherwise than by a metallic covering may be used in side roads (except in side roads which are also used for mechanical haulage, or where there may be risk of igniting gas, coal dust, or other inflammable material) for the purpose of supplying portable apparatus;

(d) Cables shall be properly secured by some non-conducting and readily breakable material to efficient insulators;

(e) The metallic covering of every cable shall be (i) electrically continuous throughout; (ii) earthed, if it is required by Rule 10 (a) to be earthed, by a connection to the earthing system of not less conductivity than the same length of the said metallic covering; (iii) efficiently protected against corrosion where necessary; (iv) of a conductivity at all parts and at all joints at least equal to fifty per cent. of the conductivity of the largest conductor enclosed by the said metallic covering; and (v) where there may be risk of igniting gas, coal-dust, or other inflammable material, so constructed as to prevent as far as is practicable any fault or leakage of current from the live conductors for causing open sparking:

Provided that where two single-core cables protected by metallic coverings bonded together in accordance with Rule 14 (c) are used for a circuit, the conductivity of each of the said metallic coverings at all parts and at all joints shall be at least equal to 25 per cent. of the conductivity of the conductor enclosed thereby;

(f) Cables and conductors where joined up to motors, transformers, switch-gear, and other apparatus, shall be installed so that (i) they are mechanically protected by securely attaching the metallic covering (if any) to the apparatus; and (ii) the insulating material at each cable end is efficiently sealed so as to prevent the diminution of its insulating properties. Where necessary to prevent abrasion or to secure gas-tightness there shall be properly constructed bushes.

Portable
apparatus

15. (a) Flexible cables for portable apparatus shall be two-core or multi-core and covered with insulating material which shall be efficiently protected from mechanical damage. If a flexible metallic covering be used either as the outer conductor of a concentric system or as a means of protection from mechanical damage, the same shall not alone be used to form an earth conductor for the portable apparatus.

(b) Every flexible cable for portable apparatus shall be connected to the system and to the portable apparatus itself by a properly constructed connector.

(c) At every point where flexible cables are joined to main cables a switch capable of entirely cutting off the pressure from the flexible cables shall be provided.

(d) No lampholder shall be in metallic connection with the guard or other metal work of a portable lamp.

Supervision
and working
of apparatus

16. (a) Every person appointed to work, supervise, examine, or adjust any apparatus shall be competent for the work that he is set to do. No

person except an electrician or a competent person acting under his supervision shall undertake any work where technical knowledge or experience is required in order to adequately avoid danger.

(b) An electrician shall be appointed in writing by the manager of the mine to supervise the apparatus. If necessary for the proper fulfilment of the duties detailed in the succeeding sections of this rule the manager shall also appoint in writing an assistant or assistants to the electrician.

(c) The electrician shall be in daily attendance at the mine. He shall be responsible for the fulfilment of the following duties, which shall be carried out by him or by an assistant or assistants duly appointed under subsection (b), (i) the thorough examination of all apparatus (including the testing of earth conductors and metallic covering for continuity) as often as may be necessary to prevent danger; and (ii) the examination and testing of all new apparatus and of all apparatus re-erected in a new position in or about the mine before it is put into service in the new position; provided that in the absence of the electrician for more than twenty-four hours the manager shall appoint in writing an efficient substitute.

(d) The electrician shall keep at the mine a log-book made of daily log sheets kept in the form prescribed by the Minister. The said log-book shall be produced at any time to an inspector on his request.

(e) Should there be a fault in any circuit the part affected shall be made dead without delay, and shall remain so until the fault has been remedied.

(f) All apparatus shall be kept clear of obstruction and free from dust, dirt and moisture, as may be necessary to prevent danger.

Inflammable or explosive material shall not be stored in any room, compartment or box containing apparatus, or in the vicinity of apparatus.

(g) Adequate precautions shall be taken by earthing or other suitable means to discharge electrically any conductor or apparatus, or any adjacent apparatus, if there is danger therefrom, before it is handled and to prevent any conductor or apparatus from being accidentally or inadvertently electrically charged when persons are working thereon. While lamps are being charged the pressure shall be cut off.

(h) The person authorized to work an electrically driven portable machine shall not leave the machine while it is working and shall, before leaving the place see that the pressure is cut off from the flexible trailing cable which supplies such portable machine. Trailing cables shall not be dragged along by the machine when working.

(i) Every flexible cable shall be examined at least once in every fourteen days by the electrician and if used with a portable machine at least once in each shift by the person authorized to work the machine. A correct report of each of these inspections shall be made immediately in a book kept at the mine for the purpose. If a flexible cable is found damaged or defective it shall forthwith be replaced by a spare cable in good and substantial repair. Such damaged or defective cable shall not be further used underground until after it has been sent to the surface and there properly repaired.

17. In any part of a mine in which inflammable gas or coal dust, although not normally present, is likely to occur in quantity sufficient to be indicative of danger, the following additional requirements shall be observed:

Use of
electricity
where in-
flammable
gas is likely
to be present

- (i) All cables, apparatus, signalling wires and signalling instruments shall be constructed, installed, protected, worked and maintained, so that in the normal working thereof there shall be no risk of open sparking;
- (ii) All motors shall be constructed so that when any part is live all rubbing contacts (such as commutators and slip rings) are so arranged or enclosed as to prevent open sparking;
- (iii) The pressure shall be switched off apparatus forthwith if open sparking occurs, and during the whole time that examination or adjustment disclosing parts liable to open sparking is being made. (3) After the first day of January, 1916, no safety lamp except an electric lamp shall be lighted below ground except by a competent person appointed by the manager who shall only light such lamp after it has been thoroughly examined and found to be in safe condition and in good working order and no person other than such person as aforesaid shall have in his possession any contrivance for lighting any safety lamp.

An Act relating to Town Planning.

(Assented to March 25, 1913.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. A town planning scheme may be prepared in accordance with the provisions of this Act with respect to any land which is in course of development or appears likely to be used for building purposes, with the general object of securing suitable provision for traffic, proper sanitary conditions, amenity and convenience in connection with the laying out of streets and use of the land and of any neighbouring lands for building or other purposes. Preparation and approval of town planning scheme

(2) The term "local authority" as hereinafter used in this Act, shall mean any city or town council of any regularly incorporated city or town or the municipal council of any municipality in the Province of Alberta, and the term "Minister" as hereinafter used in this Act shall mean the Minister of Municipal Affairs of the Province of Alberta. Local authority and Minister defined

(3) Any local authority may make application to the Minister for authority to put into effect a town planning scheme or any part thereof and the Minister may authorize a local authority to prepare and put into effect a town planning scheme or any part thereof with reference to any land within or in the neighbourhood of the area over which it has municipal control, if the local authority satisfies the Minister that there is a *prima facie* case for making such a scheme, or the Minister may authorize a local authority to adopt with or without modifications any such scheme or any part thereof, proposed by all or any owners of land, with respect to which the local authority might itself have been authorized to prepare a town planning scheme. Application for authority

(4) The expression "land likely to be used for building purposes" shall include any land likely to be used as or for the purpose of providing open spaces, roads, streets, parks, pleasure or recreation grounds, or for the purpose of executing any work upon or under the land incidental to a town planning scheme, whether in the nature of a building work or not, and the decision of the Minister as to whether land is likely to be used for building purposes shall be final. Land defined

(5) The Minister may authorize the inclusion in a town planning scheme of any land already built upon or any land not likely to be used for building purposes, if it be made to appear to him that such land is so situated that it ought to be included, and What land included in scheme

may provide for the demolition or alteration of any building thereon so far as may be necessary for carrying the scheme into effect.

Approval
of Minister
necessary

(6) A town planning scheme prepared or adopted by a local authority shall not have effect unless approved by written order of the Minister, and the Minister may refuse to approve any such scheme except with such modifications and subject to such conditions as he may think fit to impose; provided that before a town planning scheme can be approved of by the Minister, notice of intention to make application for its approval must have been published in *The Alberta Gazette* of the province for at least one month, and if within twenty-one days from the publication of such notice, any interested person or authority files notice of objection in the prescribed manner, such objection shall be heard and adjudicated upon by the Minister or by such board or boards of commission as may be appointed by the Minister for the purposes of hearing and adjudicating upon all or any matters of dispute, which may arise between a local authority or a responsible authority, and other interested parties.

Objections
sustained

In the event of objections being sustained by the Minister or such board of commission as he may appoint for the purpose of adjudicating upon them, no proceedings shall be taken toward carrying part of the scheme so objected to into effect, but this without prejudice to the preparation of a new or modified scheme covering the same area or any part thereof.

An Act to Authorize the Guarantee of Certain Securities of the Grand Trunk Pacific Branch Lines Company.

(See also 1909, c. 14; 1911-12, c. 17; 1913 (2), c. 4.)

(Assented to October 22, 1913.)

WHEREAS, by chapter 15 of the Statutes of Alberta, passed in the year 1909, intituled "*An Act to authorize the Guarantee of Certain Securities of the Grand Trunk Pacific Branch Lines Company*" (hereinafter called the principal Act), provision was made for the guaranteeing by the Province of Alberta of securities to the extent of \$13,000 per mile in respect of certain lines of railway mentioned and described in the schedule to the said Act and including therein a line from a point on the western division of the Grand Trunk Pacific Railway between the 111th and 113th degrees of longitude to Calgary which the Grand Trunk Pacific Branch Lines Company (hereinafter called the company) was authorized to construct, and for the securing of the guaranteed securities by means of certain mortgages or deeds of trust;

And whereas, by section 10 of the principal Act it was amongst other things enacted that subject to the proviso in the said section contained, the mortgages or deeds of trust securing the securities thereby authorized to be guaranteed might provide for the issue from time to time and ranking *pari passu* with the said securities and without preference or priority one over the other of additional securities of similar kind, tenor and effect, not exceeding \$2,000 per mile of the mileage of any of the lines mentioned in the schedule thereto; provided always that before such additional securities were issued the guarantee by the province of the payment of the principal and interest thereof should first have been authorized by the Legislative Assembly and that such guarantee should first have been given pursuant to such authorization;

And whereas, it is expedient to authorize the guarantee by the province of additional securities pursuant to the said provision in the principal Act contained;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the company, to guarantee the principal and interest of additional bonds, debentures, debenture stock or other securities (hereinafter called the additional securities) of the company, to the extent and upon the terms hereinafter set forth.

2. The amount of the additional securities to be so guaranteed shall not exceed the sum represented by \$2,000 per mile of the line of the company's railway running from a point on the western division of the Grand Trunk Pacific Railway between the 111th and 113th degrees of longitude to Calgary.

3. The additional securities shall form part of the issue secured by the mortgage dated the 28th day of July, 1909, and made between the Grand Trunk Pacific Branch Lines Company, the National Trust Company, Limited, as trustee, and His Majesty, representing the Province of Alberta (being the deed of trust by way of mortgage securing the guaranteed securities authorized to be issued and guaranteed by the principal Act).

4. Before the additional securities are issued and guaranteed supplementary mortgages or deeds of trust covering the line in section 2 hereof mentioned, in the form approved by the Lieutenant Governor in Council shall, as provided in the second proviso to the said section 10 of the principal Act be taken to the trustees of the mortgage dated the 28th day of July, 1909, hereinbefore referred to.

5. The certificate of the Minister of Railways and Telephones for Alberta as to the mileage of the said line of railway shall for the purposes of this Act and of the additional securities be conclusive.

6. All the provisions of the principal Act not inconsistent with the provisions of this Act shall apply to the additional securities issued and guaranteed in pursuance hereof.

7. The time for the construction of the hereinbefore mentioned line of railway which the company is authorized to construct, or in respect of which the province is authorized to guarantee the securities, and the time for the completion of the same which but for the passing of this Act would have expired, is hereby extended until the 31st day of December, 1915. CHAPTER 5.

An Act to Authorize the Guarantee of Securities of Light Railways.

(Assented to October 22, 1913.)

WHEREAS it is expedient to make provision for the transportation facilities in portions of the province not served by existing railways;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council may on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the company, guarantee the payment of the principal and interest of the bonds, debentures, debenture stock or other securities (hereinafter called the securities) of a company in respect of the line or part of the line of the railway of such company, to the extent of an amount not being more than fifty per cent. of the estimated cost of construction thereof, and in any event not being more than \$7,000 a mile of the mileage of such railway or part thereof.

2. The certificate of the Minister of Railways and Telephones of the Province of Alberta as to the mileage of the said line shall, for the purposes of this Act and of the guaranteed securities, be conclusive, but the said Minister may issue interim certificates from time to time based upon the estimated mileage of the said line, or fixing temporarily the mileage with regard thereto. A final certificate shall ultimately be issued by the said Minister with regard to the said line to accord with the miles and fractions of miles of the said line actually constructed between the points authorized. The said securities may be made payable in whole or in part in lawful money of Canada or in its equivalent in sterling or other money. Interest thereon shall be payable at the rate of not more than five per cent. per annum and may be made payable either yearly or half-yearly.

3. The said securities shall be secured by one or more deeds of trust by way of mortgage or charge to a trustee or trustees approved by the Lieutenant Governor in Council and such deeds or deeds of trust shall grant a first mortgage or charge upon the line of railway and the rolling stock and equipment, present and future, acquired for the purposes of the said line, and the tolls, revenues and income arising and to arise therefrom, and the rights, privileges, franchises and powers of the company now or hereafter held or enjoyed in respect of the said line of railway and the operation and maintenance thereof.

4. The kind of securities to be guaranteed, and the form and terms thereof, and the form and terms of the deed or deeds of trust by way of mortgage securing them, and the times and manner of the issue of the securities, and the disposition of the moneys to be raised thereon by sale, pledge or otherwise, pending the expenditure of such moneys for the purposes of the said line of railway and the form and manner of the guarantee or guarantees from time to time or at any time given in respect thereof, shall be such as the Lieutenant Governor in Council may approve.

5. The said guarantee or guarantees shall be signed by the Provincial Treasurer or such other officer as may be designated by the Lieutenant Governor in Council and upon being so signed the Province of Alberta shall become liable for the payment of the principal and interest of the securities guaranteed according to the tenor thereof, and the Lieutenant Governor in Council is hereby authorized to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee or guarantees and to advance the amount necessary for that purpose out of the general revenue of the province, and in the hands of any purchaser, pledgee or other person acquiring any of such securities the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of this Act with respect to the guaranteed securities and the deed of trust and all matters relating thereto have been complied with, and that the company is a company within the meaning of this Act, and that the railway is a railway to which this Act applies.

6. All moneys realized by sale, pledge or otherwise of the securities hereby authorized shall be paid directly by the purchaser, subscriber, pledgee, or lender into a bank or banks approved by the Lieutenant Governor in Council to the credit of a special account in the name of the Treasurer of the province or to such other credit as the Lieutenant Governor in Council may direct; and if money borrowed by the company upon pledge or otherwise of any of the securities prior to sale thereof, which money shall be paid in as aforesaid, the amount so paid in shall be deducted from the purchase price subsequently received for the securities so borrowed upon, and the balance only shall be paid in; and securities borrowed upon may after the loans thereon have been paid or discharged by the company be issued or re-issued and shall be secured by the said deed or deeds of trust and entitled to the benefit thereof notwithstanding such loans and payment or discharge. The balances at the credit of the special account or accounts shall be credited with interest at such times and at such rates as may be agreed upon between the company and the bank holding the same, and the said balances shall from time to time be paid out to the company or its nominees in monthly payments as far as practicable as the construction of the line of railway is proceeded with to the satisfaction of the government according to the specifications fixed by contract between the government and the company and from time to time as the said work of construction proceeds the government shall out of the said balances pay to the company or its nominees in monthly payments as far as is practicable, amounts equal respectively to one-half of such sums as an engineer appointed

by the Lieutenant Governor in Council shall certify as justified, having regard to the proportion of the work done upon the said line of railway as compared with the whole work done and to be done thereon. The balance, if any, of the proceeds of such securities which may remain after the completion of the said line of railway may be paid over to the company or its nominees upon such terms and conditions and in such amounts and at such time or times as shall be agreed upon between the company and the government.

7. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not in any event be taken to affect the liability of the company therefor under the securities so paid or under the deed or deeds of trust securing the payment thereof, but such liability shall remain unimpaired and enforceable by the province against the company. The province shall be subrogated as against the company to all rights, privileges and powers to which the holders of the respective securities so paid were entitled by virtue of such securities, or of the said deed or deeds of trust prior to payment by the province under its guarantee, and shall with respect to the securities so paid be in the same position as a holder of securities upon which the company has made default.

8. No securities shall be guaranteed hereunder until it has been made to appear to the satisfaction of the Minister of Railways and Telephones that adequate provision has been made by the company for furnishing the balance of the money necessary to construct and equip the railway; and no such securities shall be sold, pledged or otherwise disposed of without the consent of the Minister of Railways and Telephones.

of the Central Canada Railway Company.**

(See also 1914, caps. 29, 30; 1915, caps. 19, 36.)

(Assented to October 22, 1913.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the Central Canada Railway Company (hereinafter called the company) to guarantee the payment of the principal and interest of the bonds, debentures, debenture stock or other securities (hereinafter called the securities) of the company in respect of that portion of the line of the company's railway from a point where the said railway joins the Edmonton, Dunvegan and British Columbia Railway to a point at or near Peace River Landing, thence in a general westerly direction to a point in township eighty-one (81), range four (4), west of the sixth principal meridian, a total distance of one hundred miles, to the extent of twenty thousand dollars (\$20,000) per mile of such line.

2. The certificate of the Minister of Railways and Telephones of the Province of Alberta as to the mileage of the said line of railway shall, for the purposes of this Act and of the guaranteed securities, be conclusive, but the said Minister may issue interim certificates from time to time based upon the estimated mileage of the said line, or fixing temporarily the mileage with regard thereto. Final certificates shall be ultimately issued by the said Minister with regard to the said line to accord with the miles and fractions of miles of the said line actually constructed between the points authorized. The said securities may be made payable in whole or in part in lawful money of Canada or in its equivalent in sterling or other money. Interest thereon shall be payable at the rate of four and one-half per cent. per annum half-yearly. The principal shall be payable in thirty years from the passing of this Act.

3. The said securities shall be secured by one or more deeds of trust by way of mortgage or charge to a trustee or trustees approved by the Lieutenant Governor in Council and such deed or deeds of trust shall grant a first mortgage or charge upon the line of railway included therein and with respect to the mileage of which the securities secured thereby are issued, and the rolling stock and equipment, present and future, acquired for the purposes of the said line so included in such deed or deeds

of trust respectively, and the tolls, revenues and income arising and to arise therefrom, and the rights, privileges, franchises and powers of the company now or hereafter held or enjoyed in respect of the said line and the operation and maintenance thereof.

4. The kind of securities to be guaranteed, and the form and terms thereof, and the form and terms of the deed or deeds of trust by way of mortgage securing them, and the times and manner of the issue of the securities, and the disposition of the moneys to be raised thereon by sale, pledge or otherwise, pending the expenditure of such moneys for the purposes of the said line of railway, and the form and manner of the guarantee or guarantees from time to time or at any time given in respect thereof shall be such as the Lieutenant Governor in Council may approve.

5. The said guarantee or guarantees shall be signed by the Provincial Treasurer or such other officer as may be designated by the Lieutenant Governor in Council and upon being so signed the Province of Alberta shall become liable for the payment of the principal and interest of the securities guaranteed according to the tenor thereof, and the Lieutenant Governor in Council is hereby authorized to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee or guarantees and to advance the amount necessary for that purpose out of the general revenue of the province, and in the hands of any purchaser, pledgee or other person acquiring any of such securities the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of this Act with respect to the guaranteed securities and the deed of trust and all matters relating thereto have been complied with.

6. All moneys realized by sale, pledge or otherwise of the securities hereby authorized shall be paid directly by the purchaser, subscriber, pledgee or lender into a bank or banks approved by the Lieutenant Governor in Council to the credit of a special account in the name of the Treasurer of the province or to such other credit as the Lieutenant Governor in Council may direct; and if money be borrowed by the company upon pledge or otherwise of any of the securities prior to sale thereof, which money shall be paid in as aforesaid, the amount so paid in shall be deducted from the purchase price subsequently received for the securities so borrowed upon, and the balance only shall be paid in; and securities borrowed upon may after the loans thereon have been paid or discharged by the company be issued or re-issued, and shall be secured by the said deed or deeds of trust and entitled to the benefit thereof notwithstanding such loans and payments or discharge. The balances at the credit of the special account or accounts shall be credited with interest at such times and at such rates as may be agreed upon between the company and the bank holding same and the said balances shall from time to time be paid out to the company or its nominees in monthly payments as far as is practicable as the construction of the line of railway is proceeded with to the satisfaction of the government according to the specifications fixed by contract between the government and the company, and from

time to time as the said work of construction proceeds the government shall out of the said balances pay to the company or its nominees in monthly payments as far as is practicable such sums as an engineer appointed by the Lieutenant Governor in Council shall certify as justified, having regard to the proportion of work done upon the said line of railway as compared with the whole work done and to be done upon such line. The balance, if any, of the proceeds of such securities which may remain after the completion of the said line of railway, shall be paid over to the company or its nominees. Pending completion of the said line the balances at the credit of such special accounts shall, until paid out as above provided for, be deemed part of the mortgaged premises under said deed or deeds of trust and shall not be taken to be public moneys, received by the province:

Provided, also, that the Lieutenant Governor in Council may upon the request of the company by order in council alter the deposit of the said money or any portion or balance thereof by approving of any other bank or banks than, and in the place and stead of, those originally approved of for the deposit therein of any of the said money or any portion or balance thereof, and any such money the deposit of which is so changed into any other bank or banks than those originally approved of, shall be deposited to the same credit and be subject to the same provisions as are herein provided for in respect of the original deposit or deposits.

7. Work to the value of at least fifty (50) miles of constructed line shall be done by the company upon the said line on or before the 31st December, 1914, and the said line shall be completed and ready for traffic on or before the 31st December, 1916.

8. The said line shall be constructed to a general standard in all respects, apart from grades and curvature (as to which the character of the country through which the lines pass shall be taken into consideration) not inferior to the standard fixed by the specifications of the main line of the Edmonton, Dunvegan & British Columbia Railway, and to the satisfaction of the Minister of Railways and Telephones.

9. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not in any event be taken to affect the liability of the company therefor under the securities so paid or under the deed or deeds of trust securing the payment thereof, but such liability shall remain unimpaired and enforceable by the province against the company. The province shall be subrogated as against the company to all rights, privileges and powers to which the holders of the respective securities so paid were entitled by virtue of such securities, or of the said deed or deeds of trust prior to payment by the province under its guarantee, and shall with respect to the securities so paid be in the same position as a holder of securities upon which the company has made default.

10. Subject to the proviso in this section contained, the deed or deeds of trust (hereinafter called the original instruments) securing the securities hereby authorized to be guaranteed may

provide for the issue from time to time and ranking *pari passu* with the said securities and without preference or priority one over the other of additional securities of similar kind, tenor and effect in respect of the mileage of the said line, and also additional securities of similar kind, tenor and effect also ranking *pari passu* and without preference or priority as aforesaid in respect of additional lines of railway in the Province of Alberta to be hereafter constructed by the company, but not exceeding twenty thousand dollars (\$20,000) per mile of such additional lines; provided always, that before any such additional securities are issued the guarantee by the province of the payment of the principal and interest thereof shall first have been authorized and the amounts to be issued per mile in respect of such lines shall first have been fixed by the Legislative Assembly and that such guarantee shall first have been given pursuant thereto.

11. A supplementary deed or deeds of trust (herein called supplementary instruments) covering the said line in respect of which additional securities are authorized to be issued or such additional lines as aforementioned, as the case may be, in the form approved by the Lieutenant Governor in Council shall from time to time be taken to the trustees of the original instruments, and such additional securities shall be issued under the terms of the original instruments and supplementary instruments which, together with the mortgaged premises covered by the original and supplementary instruments, shall form the security for all securities issued thereunder in the same manner and with the same effect as if the original instrument and supplementary instrument or instruments formed together but one instrument and as if all the securities issued or to be issued under the original or supplementary instruments were issued under one instrument.

12. Should the constructed mileage of the said line herein mentioned be less than the mileage herein estimated, by reason whereof there remains—

A surplus of authorized mileage in respect of which, no securities at the rates respectively specified with regard thereto were actually issued or guaranteed; or

A surplus of proceeds of the moneys realized by sale, pledge or otherwise of guaranteed securities issued in respect thereof,

the Lieutenant Governor in Council may guarantee additional securities in respect of such surplus of mileage or authorize the application of such surplus of proceeds, whichever may be the case, in or in respect of the further construction by the company of extensions of the said line or of branches therefrom, or of other lines of railway in Alberta approved by the Lieutenant Governor in Council.

(2) A supplementary deed or deeds of trust covering the mileage further constructed by the company under this section shall be taken to the trustees of the original instruments mentioned in sections 10 and 11 of this Act, and the provisions of section 11 shall, where not inconsistent with this section, apply to the supplementary deeds executed under this section and to the securities which may be issued and guaranteed in pursuance hereof.

(SECOND SESSION)

CHAPTER 8.

An Act to Authorize the Guarantee of Certain Securities of the Canadian Northern Railway Company.

(See also 1909, c. 14; 1911-12, c. 17.)

(Assented to October 22, 1913.)

WHEREAS, by chapter 14 of the Statutes of Alberta passed in the year 1909, intituled "*An Act to authorize the Guarantee of Certain Securities of the Canadian Northern Railway Company*" (hereinafter called the principal Act), provision was made for the guaranteeing by the Province of Alberta of securities to the extent of \$13,000 per mile in respect of certain lines of railway mentioned and described in the schedule to the said Act, which the Canadian Northern Railway Company (hereinafter called the company) was authorized to construct, and for the securing of the guaranteed securities by means of certain mortgages or deeds of trust;

And whereas, by section 10 of the principal Act it was enacted that subject to the proviso in the said section contained, the mortgages or deeds of trust securing the securities thereby authorized to be guaranteed might provide for the issue from time to time and ranking *pari passu* with the said securities and without preference or priority one over the other of additional securities of similar kind, tenor and effect not exceeding \$2,000 per mile of the mileage of any of the lines mentioned in the schedule thereto, and also of additional securities of similar kind, tenor and effect also ranking *pari passu* and without preference or priority as aforesaid, not exceeding \$15,000 per mile of additional lines of railway in the Province of Alberta to be thereafter constructed by the Canadian Northern Railway Company; provided always that before such additional securities were issued the guarantee by the province of the payment of the principal and interest thereof should first have been authorized by the Legislative Assembly and that such guarantee should first have been given pursuant to such authorization;

And whereas, by chapter 17 of the Statutes of Alberta, 1911-12, intituled "*An Act to authorize the Guarantee of Certain Securities of the Canadian Northern Railway Company*" (hereinafter called the first supplementary Act), provision was made for the guaranteeing by the Province of Alberta of additional securities to the extent of \$13,000 per mile of one additional line of railway mentioned and described in the said first supplementary Act which the company was authorized to construct, and also for the securing of the said additional securities by certain further mortgages or deeds of trust supplementary to the mortgages or deeds of trust made or created under and pursuant to the said principal Act;

And whereas, it was by the first supplementary Act provided that all the provisions of the principal Act not inconsistent

with the provisions of the first supplementary Act should apply to the additional line of railway and to the additional securities issued and guaranteed in pursuance of the first supplementary Act;

And whereas, the provision of the said principal Act hereinbefore recited providing for the issue from time to time and ranking *pari passu* with the securities thereby authorized to be guaranteed and without preference or priority one over the other of additional securities of similar kind, tenor and effect, not exceeding \$2,000 per mile of the mileages of the lines of railway to which the said principal Act referred but subject always to the proviso in the principal Act contained providing that before such additional securities are issued, the guarantee by the province of the payment of the principal and interest thereof shall first have been authorized by the Legislative Assembly and that such guarantee shall first have been given pursuant to such authorization was intended to apply to the additional line of railway and to the additional securities issued and guaranteed in pursuance of the first supplementary Act in the same way and to the same extent and effect as if the said additional line of railway had been included in the schedule to the principal Act;

And whereas, it is expedient to authorize the guarantee by the province of additional securities pursuant to the said provision in the principal Act contained;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the company, to guarantee the payment of principal and interest of additional bonds, debentures, debenture stock or other securities (hereinafter called the additional securities) of the company to the extent and upon the terms hereinafter set forth.

2. The amount of the additional securities to be so guaranteed shall not exceed the sum represented by \$2,000 per mile of the lines of railway respectively mentioned in the schedule to the principal Act and the additional line of railway mentioned in the first supplementary Act and for the purposes of this Act and of the first supplementary Act the said additional line of railway shall be deemed to have been added to the schedule to the principal Act.

3. The additional securities shall form part of the issue secured by the mortgage dated the 10th day of June, 1909, and made between the Canadian Northern Railway Company, the National Trust Company, Limited, and the British Empire Trust Company, Limited, as trustees, and His Majesty the King representing the Province of Alberta (being the deed of trust by way of mortgage securing the guaranteed securities authorized to be issued and guaranteed by the principal Act); and by confirmatory and supplementary deeds made between the same parties and dated respectively the twentieth day of January, 1910, and the twentieth day of June, 1912.

4. Before the additional securities are issued and guaranteed any necessary supplementary mortgages or deeds of trust covering the lines mentioned in the schedule to the principal Act and the additional line of railway mentioned in the first supplementary Act in the form approved by the Lieutenant Governor in Council shall as provided in section 11 of the principal Act be taken to the trustees of the mortgage dated the 10th day of June, 1909, hereinbefore referred to.

5. The certificate of the Minister of Railways and Telephones for Alberta as to the mileage of the said lines of railway respectively shall, for the purposes of this Act, and of the additional securities, be conclusive.

6. All the provisions of the principal Act not inconsistent with the provisions of this Act, shall apply to the additional securities issued and guaranteed in pursuance hereof.

7. When the constructed mileage of any line or lines of railway mentioned or referred to in the schedule to the principal Act, or of the line of railway mentioned in the first supplementary Act, or the aggregate mileage of some or all of such lines is less than the mileage as estimated or set out in the said schedule or Act, by reason of which there remains a surplus of authorized mileage in respect of which no securities at the rates specified with regard thereto in the said principal Act or the first supplementary Act were actually issued or guaranteed, or a surplus of the proceeds of the money realized by sale, pledge or otherwise of the guaranteed securities in respect thereof, the Lieutenant Governor in Council may guarantee additional securities in respect of such surplus of mileage or authorize the application of such surplus of proceeds, whichever may be the case, in or in respect of the further construction by the company of extensions or any of the lines mentioned in the said principal Act, or the first supplementary Act, or of branches therefrom or of other lines of railway in Alberta approved by the Lieutenant Governor in Council.

8. The time for the construction of the lines of railway which the company is authorized to construct, or in respect of which the province is authorized to guarantee the securities, which but for the passing of this Act would have expired, is hereby extended until the thirty-first day of December, 1915. 1914, c. 2, s. 19.

CHAPTER 10.

**An Act respecting the Taxation of the Unearned
Increment on Land.**

(Assented to October 25, 1913.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. This Act may be cited as the "*Unearned Increment Tax Act*."

2. The expressions defined in section 2 of *The Land Titles Act* shall have in this Act the same meanings as are by the said section assigned to them.

3. There shall be payable upon the registration under *The Land Titles Act* of any transfer of land a tax of five per cent. on the increased value of the said land over and above the value thereof according to the last preceding value for the purposes of this Act, excluding in all cases the cost of improvements or of development work actually made or done upon or in connection with the said land.

(2) No tax shall be payable under this Act upon the registration of any grant from the Crown or of any transmission of the land of a deceased person or upon any transfer from the executors or administrators of any such person to the devisee or devisees of such land or to the persons entitled thereto upon a distribution of the estate and any value ascertained upon the registration of any such transmission or transfer shall not be deemed to be a value ascertained for the purpose of this Act.

(3) No tax shall be payable under this Act in respect to the transfer of any unsubdivided land of which at least ten per cent. was under cultivation and which was actually and *bona fide* used by the transferror for agricultural purposes during twelve months immediately preceding the transaction which results in the making of the transfer, except to the extent of the excess area of land beyond 640 acres in which the transferror was beneficially interested immediately before the transaction which results in the making of the transfer and to the extent of the excess value of the land transferred beyond the sum of \$50.00 per acre without improvements.

(4) The value ascertained for the purpose of any transfer of land exempt from taxation under the last preceding clause shall be deemed to be a value ascertained for the purpose of this Act.

4. For the purpose of ascertaining the first taxable value for the purposes of this Act in respect of any interest in land created before the passing thereof, the last value for the purposes of this Act shall be deemed to be—

- (a) \$15.00 per acre in the case of any land not at the date of the passing of this Act within any incorporated city, town or village;
- (b) The assessed value of any land within any incorporated city, town or village according to the last revised assessment roll for the year 1913, if such land is assessed upon such roll or if not then such value as may be made to appear to the registrar of land titles to be just;
- (c) Provided that if it is made to appear to the satisfaction of the registrar that the person liable to pay any tax payable hereunder has before the passing of this Act bought or agreed to buy the land in respect of which such tax is payable at a price greater than the last value as hereinbefore ascertained, the price paid or agreed to be paid upon such purchase shall be deemed to be the last value for the purposes of this subsection;
- (d) And provided further that if within one year from the passing of this Act the owner of any land not within the limits of an incorporated city, town or village makes it appear to the registrar that at the time of the passing of this Act the value of such land exceeded \$15.00 per acre, the registrar shall cause the value of the said land to be ascertained and the value certified by him shall be deemed to be the value for the purposes of this subsection.

(2) For the purpose of ascertaining the first taxable value of any interest in land created after the passing of this Act, the last value shall be taken to be the value ascertained at the date of the creation of the interest, if any, or if no value was then ascertained, the last value shall be taken to be zero.

5. The secretary-treasurer of every incorporated city, town and village shall forthwith upon the assessment roll for such city, town or village being finally revised for the year 1913 send to the registrar of land titles for the district in which such city, town or village lies, a copy of such roll duly certified by him under the seal of the corporation.

(2) Upon the receipt by him of such assessment rolls, the registrar of land titles shall note upon every certificate of title covering lands included therein the value of such lands as shown upon such roll.

6. No transfer of land shall be registered until after the payment of any tax payable hereunder.

7. Unless otherwise agreed upon between the parties, any tax payable hereunder shall be payable by the transferrer or, in the case of the first transfer after the date of the passing hereof, shall be payable by the person beneficially entitled to the land at the said date.

(2) If any tax payable hereunder is paid by any person other than the person liable for the payment thereof, it shall be recoverable from the person so liable in an action at the suit of the person by whom it was paid in any court of competent jurisdiction as a debt due to such person.

8. Where part only of the land included in the last valuation is transferred the amount of the tax payable shall be ascertained by determining the unit value of the whole of the said land (namely, the value per square foot or per acre or as the case may be) according to the last preceding valuation, and the value according to the valuation of the same unit at the date of such transfer unless it is made to appear to the registrar upon oath that such ascertainment of the tax would be unfair or impracticable by reason of the variation in the quality or situation of the land, or other similar cause, and in such case the registrar shall decide the mode of ascertaining and the amount of the tax.

9. The Lieutenant Governor in Council may from time to time make such regulations and provide such forms not inconsistent with this Act as may be necessary or advisable for the efficient and equitable operation of the same.

NOTE.—See *Land Titles Act*, 1906, form ii, and the provisions of section 117, subsections 2, 3 and 4 thereof.

1. This Act may be cited as "*The Libel and Slander Act.*"

On the trial of an action for libel the court or jury may give a general verdict upon the whole matter in issue in the action and shall not be required or directed to find for the plaintiff merely on proof of publication by the defendant of the alleged libel and of the sense ascribed to it in the action; but the judge shall according to his direction give his opinion and directions to the jury (if the action is tried by a jury) on the matter in issue as in other cases and the jury may on such issue find a special verdict if they think fit so to do and the proceedings after verdict whether general or special shall be the same as in other cases.

6. The court or a judge upon an application by two or more defendants in any two or more actions for the same or substantially the same libel or for a libel or libels contained in articles the same or substantially the same published in different newspapers brought by one and the same person may make an order for the consolidation of such actions so that they shall be tried together and after such order has been made and before the trial of such actions the defendants in any new actions instituted in respect to any such libel or libels shall also be entitled to be joined in a common action upon a joint application being made by such new defendants and the defendants in the actions already consolidated.

(2) In a consolidated action under this section the judge or jury shall assess the whole amount of the damages, if any, in one sum, but a separate judgment or verdict shall be taken for or against each defendant in the same way as if the actions consolidated had been tried separately and if the judge or jury find a judgment or verdict against the defendant or defendants in more than one of the actions so consolidated the judge or jury shall apportion the amount of the damages between and against such last mentioned defendants and the judge in the event of the plaintiff being awarded the costs of the action shall thereupon make such order as he shall deem just for the apportionment of the costs between and against such defendants.

NEWSPAPER LIBEL.

7. No action for libel contained in a newspaper shall lie unless the plaintiff has within six weeks after the publication thereof has come to his notice or knowledge, given to the defendant a notice in writing specifying the statement complained of which shall be served in the same manner as the statement of claim, or by delivering the notice to a grown-up person at the place of business of the defendant; and no such action shall be begun until in the case of a daily newspaper three (3) clear days, in the case of a weekly publication ten (10) clear days, and in the case of a monthly publication six (6) weeks have elapsed after the service of such notice, in order to give the defendant an opportunity to publish a full apology for the said libel; and if the defendant admits the libel and pleads that such a full apology was published before the commencement of the action, and that the libel was published in good faith and without malice, the plaintiff shall be entitled to enter a judgment for nominal damages

of \$5.00 and his costs up to and including defence or may proceed to trial but shall in such latter event only recover such actual damages as he has sustained, if the judge or jury find that the defences alleged are proven.

(2) In the case of a libel of any candidate for elective public office in Alberta the apology in this section referred to shall be made editorially in a conspicuous manner at least fifteen days (15) before the election.

8. The defendant may pay into court with his defence a sum of money by way of amends for the injury sustained, by publication of any libel to which the next preceding section applies and such payment shall have the same effect as payment into court in other cases.

9. A fair and accurate report published in a newspaper of any proceedings in the Senate or House of Commons of Canada, in any Legislative Assembly of any of the provinces of Canada or in any committee of any such bodies or of a public meeting or (except where neither the public nor any newspaper reporter is admitted) of any meeting of a municipal council, school board, board of health or of any other board or local authority formed or constituted under any of the provisions of any public Act of any Legislative Assembly of any of the provinces of Canada or of the Parliament of Canada or of any committee appointed by any of the above mentioned bodies and the publication of the whole or a portion or fair synopsis of any report, bulletin, notice or other document issued for the information of the public from any government office, bureau or department or by any board of health or medical health officer or the publication at the request of any government or municipal official, commissioner of police or chief constable of any notice or report issued by him for the information of the public shall be privileged unless it shall be proved that such publication was made maliciously.

(2) Nothing in this section shall authorize the publication of any blasphemous, seditious or indecent matter.

(3) The protection intended to be afforded by this section shall not be available as a defence in any proceeding if the plaintiff shows that the defendant has refused to insert in the newspaper making such publication a reasonable letter or statement of explanation of contradiction by or on behalf of the plaintiff.

(4) Nothing in this section shall limit or abridge any privilege now by law existing or protect the publication of any matter not of public concern or the publication of which is not for the public benefit.

10. All reports of proceedings in any open public court exercising judicial authority published in any newspaper shall be privileged, provided that they contain only fair and authentic reports without comment, but nothing in this section shall authorize the publication of any blasphemous, seditious or indecent matter.

11. In an action for libel contained in a newspaper the defendant may at any time after the delivery of the statement of claim

apply to a judge of the court in which the action is taken for security for costs, by notice of motion which shall be supported by an affidavit of the defendant or his agent, showing the nature of the action and of the defence, that the defendant has a good defence upon the merits, as the deponent is advised and believes, that the plaintiff is not possessed of property sufficient to answer the costs of the action in case a judgment is given in favour of the defendant, that the statements complained of were published in good faith, and that the grounds of action are trivial or frivolous, and the judge, upon a perusal of all material in support of and in opposition to the motion, may, in his discretion, order that the plaintiff shall give security for costs, which security shall be given in accordance with the practice in cases where the plaintiff resides out of Alberta, and the order shall be a stay of proceedings until the security is given; but where the alleged libel involves a criminal charge the defendant shall not be entitled to security for costs under this Act, nor shall he in any other case unless he can show that there was reasonable ground to believe that the publication was for the public benefit; and if it is alleged by the defendant that the publication took place in mistake or misapprehension of the facts that a full and fair retraction of any statement therein alleged to be erroneous was published either before or immediately after he was served with a notice under section 7 of this Act and was published in as conspicuous a place in the said newspaper and in as large type as was the article complained of. 1915, c. 7.

(2) For the purposes of this section the plaintiff or the defendant or their agents may be examined upon oath at any time after the delivery of the statement of claim.

(3) This section shall not apply to any action wherein the plaintiff shall sue in *forma pauperis*.

(4) An order made under this section shall be final and shall not be subject to appeal unless the same is made by a local judge of the Supreme Court, in which case an appeal shall lie to a judge of the Supreme Court sitting in chambers, whose order shall be final and shall not be subject to appeal.

12. An action for libel contained in a newspaper shall be tried in the judicial district where the chief office of such newspaper is, or in the judicial district wherein the plaintiff resides at the time the action is brought; but upon the application of either party, a judge of the court in which the action is brought may direct the action to be tried or the damages to be assessed in any other judicial district if it appears to be in the interests of justice or that it will promote a fair trial, and may impose such terms as to the payment of witness fees and otherwise as may seem proper.

13. An action for libel contained in a newspaper shall be commenced within three months after the publication thereof has come to the notice or knowledge of the person defamed; but where an action is brought and is maintainable for a libel published within that period, the same may include a claim for any other libel published against the plaintiff by the defendant in the same newspaper within a period of one year before the commencement of the action.

14. In an action for libel contained in a newspaper the defendant may prove in mitigation of damages that the plaintiff has already brought actions for and has recovered damages or has received or agreed to receive compensation in respect of a libel or libels to the same purport or effect as that for which such action is brought.

15. No defendant shall be entitled to the benefit of sections 7 and 13 of this Act unless the name of the proprietor and publisher and address of publication is stated either at the head of the editorials or on the front page of the newspaper.

(2) The production of a printed copy of a newspaper shall for all purposes of the trial be *prima facie* evidence of the publication by the defendant of the said printed copy.

16. In any action for the publication in a newspaper of any defamatory matter which has been communicated in writing to such newspaper with a view to its publication therein by a person other than a person employed by the defendant, the defendant may at any stage of the proceedings apply on notice to such person to a judge of the court in which the action is taken, for an order joining such person as a party defendant in the action, and such person may be so joined on such terms as may appear to be just.

(2) The application shall be supported by an affidavit verifying the facts entitling the defendant to have such person joined as a party defendant, and showing that the defamatory matter was not known by the applicant to be untrue and that it was not contained in an anonymous communication, and judgment may be given in the action against one or both of the defendants or for such remedy or relief over to the person or company against whom the action was in the first instance taken against the person so joined as a party defendant, as the court before which the action is tried shall determine.

SLANDER OF WOMEN.

17. In an action for slander for defamatory words spoken of a woman imputing unchastity or adultery, it shall not be necessary to allege in the plaintiff's statement of claim, or to prove that special damage resulted to the plaintiff from the utterance of such words, and the plaintiff may recover damages, without averment or proof of special damage.

(2) The defendant may, at any time after the delivery of the statement of claim, apply to a judge for security for costs, upon notice and an affidavit showing the nature of the action and that the plaintiff is not possessed of property sufficient to answer the costs of the action if a verdict or judgment is given in favour of the defendant, and that the defendant has a good defence on the merits, or that the grounds of action are trivial or frivolous; and the judge may in his discretion make an order that the plaintiff shall give security for the costs, which shall be given in accordance with the practice in cases where a plaintiff resides out of Alberta, and the order shall be a stay of proceedings until the security is given.

(3) For the purposes of subsection (2) the plaintiff or the defendant may be examined upon oath at any time after the delivery of the statement of claim.

CHAPTER 26.

An Act to provide for the Relief of the Springbank Irrigation District.

(Assented to October 22, 1914.)

CHAPTER 27.

An Act to Authorize the Guarantee of Certain Securities of the Edmonton, Dunvegan and British Columbia Railway Company.

(See also 1911-12, c. 16; 1915, c. 21.)

(Assented to October 22, 1914.)

WHEREAS the Edmonton, Dunvegan and British Columbia Railway Company, a company incorporated by an Act of the Parliament of Canada, is authorized to construct a line of railway from Edmonton through Dunvegan to the western boundary of the province running south of Lesser Slave Lake;

And whereas by an Act of the Province of Alberta being chapter 16 of the Acts of 1911-12, the Lieutenant Governor in Council of the province was authorized to guarantee the payment of the principal and interest of the bonds, debentures, debenture stock or other securities of the company in respect of the said line of railway to the extent of twenty thousand dollars a mile and in respect of three hundred and fifty miles thereof;

And whereas it is expedient to authorize the guarantee by the Government of certain securities to be issued by the company and to be secured upon the balance of the said line being that portion of the said line from a point distant three hundred and fifty miles from Edmonton to the western boundary of the province, a distance of sixty-one miles;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the Edmonton, Dunvegan and British Columbia Railway Company (hereinafter called the company), to guarantee the payment of the principal and interest of the bonds, debentures, debenture stock or other securities (hereinafter called the securities) of the company in respect of that portion of the line of the Edmonton, Dunvegan and British Columbia Railway Company (being the line recited in the first recital hereof) from a point distant three hundred and fifty miles from Edmonton to the western boundary of the province, a distance of sixty-one miles to the extent of twenty thousand dollars a mile of such mileage and upon the terms hereinafter set forth.

2. The certificate of the Minister of Railways of the Province of Alberta as to the mileage of the said line shall, for the purposes of this Act and of the guaranteed securities, be conclusive, but the said Minister may issue interim certificates from time to time based upon the estimated mileage with regard

thereto. A final certificate shall ultimately be issued by the said Minister with regard to the said line to accord with the miles and fractions of miles of the said line actually constructed between the points authorized. The said securities may be made payable in whole or in part in lawful money of Canada or in its equivalent in sterling or other money. Interest thereon shall be payable at the rate of four and one-half per cent. per annum half-yearly. The principal shall be payable in thirty years from the passing of this Act.

3. The said securities shall be secured by one or more deeds of trust by way of mortgage or charge to the trustee under the deed of trust securing the securities of the company heretofore guaranteed by the Government, and such deed or deeds of trust shall grant a first mortgage or charge upon the line of railway the securities whereof are hereby authorized to be guaranteed, and the rolling stock and equipment, present and future, acquired for the purposes thereof and the tolls, revenues and income arising and to arise therefrom, and the rights, privileges, franchises and powers of the company now or hereafter held or enjoyed in respect thereof and the operation and maintenance thereof.

4. The kind of securities to be guaranteed, and the form and terms thereof, and the form and terms of the deed or deeds of trust by way of mortgage securing them, and the times and manner of the issue of the securities, and the disposition of the moneys to be raised thereon by sale, pledge or otherwise, pending the expenditure of such moneys and the form and manner of the guarantee or guarantees from time to time or at any time given in respect thereof, shall be such as the Lieutenant Governor in Council may approve.

5. The said guarantee or guarantees shall be signed by the Provincial Treasurer or such other officer as may be designated by the Lieutenant Governor in Council and upon being so signed the Province of Alberta shall become liable for the payment of the principal and interest of the securities guaranteed according to the tenor thereof, and the Lieutenant Governor in Council is hereby authorized to make arrangements for supplying the money necessary to fulfil the requirements of the said guarantee or guarantees and to advance the amount necessary for that purpose out of the general revenue of the province, and in the hands of any purchaser, pledgee or other person acquiring any of such securities the said guarantee or guarantees so signed shall be conclusive evidence that the requirements of this Act with respect to the guaranteed securities and the deed of trust and all matters relating thereto have been complied with.

6. All moneys realized by sale, pledge or otherwise of the securities hereby authorized shall be paid directly by the purchaser, subscriber, pledgee or lender into the bank or banks approved by the Lieutenant Governor in Council to the credit of a special account in the name of the Treasurer of the province or to such other credit as the Lieutenant Governor in Council may direct; and if the money be borrowed by the company upon pledge or otherwise of any of the securities prior to sale thereof, which money shall be paid in as aforesaid, the amount

so paid in shall be deducted from the purchase price subsequently received for the securities so borrowed upon, and the balance only shall be paid in; and securities borrowed upon may after the loans thereon have been paid or discharged by the company be issued or re-issued and shall be secured by the said deed or deeds of trust and entitled to the benefit thereof notwithstanding such loans and payment or discharge. The balances at the credit of the special account or accounts shall be credited with interest at such times and at such rates as may be agreed upon between the company and the bank holding the same, and the said balances shall from time to time be paid out to the company or its nominees in monthly payments as far as practicable as the construction of the said line of railway is proceeded with to the satisfaction of the Government according to the specification fixed by contract between the Government and the company, and from time to time as the said work of construction proceeds the Government shall (subject to the provisions of the next succeeding clause of this Act) out of the said balances, pay to the company or its nominees, in monthly payments as far as practicable such sums as an engineer appointed by the Lieutenant Governor in Council shall certify as justified, having regard to the proportion of the work done upon the said line of railway as compared with the whole work done and to be done thereon. The balance, if any, of the proceeds of such securities which may remain after the completion of the said line of railway shall be paid over to the company or its nominees. Pending completion of the said line of railway the balances at the credit of such special account shall, until paid out as above provided for, be deemed part of the mortgaged premises under said deed or deeds of trust and shall not be taken to be public moneys received by the province.

7. The constructions of the said line of railway shall be begun on or before the first day of October, 1915, and the said line shall be completed and be ready for traffic on or before the first day of October, 1917.

8. The said line shall be constructed to a general standard in all respects, apart from grades and curvature (as to which the character of the country through which the line passes shall be taken into consideration) not inferior to the standard set by the specifications of the balance of the line of the said railway, and to the satisfaction of the Minister of Railways.

9. Any payment by the province of principal or interest on the said securities, pursuant to the guarantee thereof, shall not in any event be taken to affect the liability of the company therefor under the securities so paid or under the deed or deeds of trust securing the payment thereof, but such liability shall remain unimpaired and enforceable by the province against the company. The province shall be subrogated as against the company to all rights, privileges and powers to which the holders of the respective securities so paid were entitled by virtue of such securities, or of the said deed or deeds of trust prior to payment by the province under its guarantee, and shall with respect to the securities so paid be in the same position as a holder of securities upon which the company has made default.

10. Subject to the proviso in this section contained the deed or deeds of trust (hereinafter called the original instruments) securing the securities hereby authorized to be guaranteed may provide for the issue from time to time and ranking *pari passu* with the said securities and without preference or priority one over the other of additional securities of similar kind, tenor and effect in respect of the mileage of the said line, and also additional securities of similar kind, tenor and effect also ranking *pari passu* and without preference or priority as aforesaid in respect of additional lines of railway in the Province of Alberta to be hereafter constructed by the company, but not exceeding twenty thousand dollars (\$20,000) per mile of such additional lines; provided always that before any such additional securities are issued the guarantee by the province of the payment of principal and interest thereof shall have first been authorized and the amount to be issued per mile in respect of such line or lines shall first have been fixed by the Legislative Assembly and that such guarantee shall first have been given pursuant thereto.

11. A supplementary deed or deeds of trust (herein called supplementary instruments) covering the said line in respect of which additional securities are authorized to be issued or such additional lines as aforementioned, as the case may be, in the form approved by the Lieutenant Governor in Council shall from time to time be taken to the trustees of the original instruments, and such additional securities shall be issued under the terms of the original instruments and supplementary instruments which, together with the mortgaged premises covered by the original and supplementary instruments, shall form the security for all the securities issued thereunder in the same manner and with the same effect as if the original instrument and supplementary instrument or instruments formed together but one instrument, and as if all securities issued or to be issued under the original or supplementary instruments were issued under one instrument.

12. Should the constructed mileage of the said line be less than the mileage herein estimated by reason whereof there remains—

A surplus of authorized mileage in respect of which no securities were actually issued or guaranteed; or

A surplus of proceeds of the moneys realized by sale, pledge or otherwise of the guaranteed securities issued in respect thereof,

the Lieutenant Governor in Council may guarantee additional securities in respect of such surplus of mileage or authorize the application of such surplus of proceeds, whichever may be the case, in or in respect of further construction by the company or extensions of the said line or of branches thereof or of other lines of railway in Alberta approved by the Lieutenant Governor in Council.

13. A supplementary deed or deeds of trust covering the mileage further constructed by the company under the last preceding section of this Act shall be taken to the trustees of

the original instruments mentioned in sections 10 and 11 of this Act, and the provisions of section 11 shall, where not inconsistent with this section or with the last preceding section, apply to the supplementary deeds executed under this section and to the securities which may be issued and guaranteed in pursuance thereof.

CHAPTER 28.

An Act to Authorize the Guarantee of Certain Securities of the Central Canada Railway Company.

(See also 1913 (1), c. 46; 1913 (2), c. 7; 1914, c. 28 and 29; 1915, caps. 19 and 36.)

(Assented to October 22, 1914.)

WHEREAS by chapter 7 of the Statutes of Alberta passed in the year 1913 (2nd Session), entitled "*An Act to Authorize the Guarantee of Certain Securities of the Central Canada Railway Company*" (hereinafter called the said Act) provision was made for the guaranteeing by the Province of Alberta of securities in respect of a certain portion of the railway line of the Central Canada Railway Company (hereinafter called the company) which the company was authorized to construct and for the securing of the guaranteed securities by means of certain mortgages or deeds of trust;

And whereas by section 10 of the said Act it was, amongst other things, enacted that provision might be made for the issue from time to time ranking *pari passu* with the securities guaranteed under the said Act and without preference or priority one over the other, of additional securities of similar kind, tenor and effect not exceeding twenty thousand dollars (\$20,000) per mile of additional lines of railway in the Province of Alberta to be thereafter constructed by the company; provided that before such additional securities were issued, the guarantee by the province of the payment of the principal and interest thereof should first have been authorized and the amounts to be issued per mile in respect of such lines should first have been fixed by the Legislative Assembly, and that such guarantee should first have been given pursuant to such authorization;

And whereas it is expedient to authorize the guarantee by the province of additional securities pursuant to the said provision;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the company to guarantee the payment of the principal and interest of additional bonds, debentures, debenture stock or other securities (hereinafter called additional securities) of the company to the extent and upon the terms hereinafter set forth.

2. The additional securities shall form part of the issue secured by the mortgage or mortgages, deed or deeds of trust securing the guaranteed securities authorized to be issued and guaranteed by the said Act; and the additional securities shall be limited

to the amount represented by \$20,000 per mile of one additional line of railway (hereinafter called the additional line of railway) namely: a line of the company's railway extending from a point on the Edmonton, Dunvegan and British Columbia Railway to or through Grouard in the Province of Alberta, a distance of about fourteen miles.

3. Before the additional securities are issued and guaranteed, such supplementary mortgages or deeds of trust (if any) covering the lines mentioned in the said Act and the additional line of railway as shall be necessary or expedient to be taken, shall as provided in section 11 of the said Act be taken to the trustees of the mortgage or mortgages, deed or deeds of trust securing the guaranteed securities authorized to be issued and guaranteed pursuant to the said Act in the form approved by the Lieutenant Governor in Council.

4. The certificate of the Minister of Railways and Telephones for Alberta as to the mileage of the additional line of railway shall, for the purposes of this Act and of the additional securities, be conclusive.

5. Construction upon the additional line of railway shall be commenced at or before the 31st day of December, 1915, and the said additional line of railway shall be completed and ready for traffic on or before 31st December, 1917.

6. All the provisions of the said Act not inconsistent with the provisions of this Act shall apply to the additional line of railway and to the additional securities issued and guaranteed in pursuance hereof.

CHAPTER 29.

An Act concerning the Central Canada Railway Company.

(See also 1913 (1), c. 46; 1913 (2), c. 7; 1914, caps. 28 and 29; 1915, caps. 19 and 36.)

(Assented to October 22, 1914.)

WHEREAS by chapter 7 of the Statutes of Alberta passed in the year 1913 (2nd Session), intituled "*An Act to Authorize the Guarantee of Certain Securities of the Central Canada Railway Company*" (hereinafter called the said Act) provision was made for the guaranteeing by the Province of Alberta of securities in respect to that portion of the railway line of the Central Canada Railway Company (hereinafter called the company), from a point where the said railway joins the Edmonton, Dunvegan and British Columbia Railway to a point at or near Peace River Landing, thence in a general westerly direction to a point in township eighty-one (81), range four (4), west of the sixth principal meridian, a total distance of 100 miles to the extent of \$20,000.00 per mile of such line;

And whereas the securities of the said company have not yet been sold;

And whereas it is expedient that that portion of the said line of railway from a point on the line of the Edmonton, Dunvegan and British Columbia Railway to the Peace River, a distance of about 50 miles, should be completed as speedily as possible for the purpose of connecting with the navigation of the said Peace River;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Provincial Treasurer is hereby authorized to pay to the said company out of the proceeds of the sale or hypothecation of the securities of the said company, upon the report of the Minister of Railways and Telephones, and the certificate of the Provincial Railway Engineer, a sum or sums not exceeding eighty per cent. (80%) of the actual cost of the said line from the said point on the line of the Edmonton, Dunvegan and British Columbia Railway to the said point at or near Peace River Landing.

2. An amount or amounts not exceeding eighty per cent. of the estimated cost of construction of the said portion of the said line in section 1 hereof mentioned may from time to time pending the disposal of the guaranteed securities of the company in this Act recited be advanced by the Government out of any of the unappropriated funds of the province which the Government is authorized to raise by way of loan for the purpose amongst others of the satisfaction and discharge of any obligation of the

province; provided, however, that the total amount of the said advance shall not exceed the amount of the said guaranteed securities of the company. 1915, c. 19, s. 1.

3. Such advance shall carry interest at such rate (not being less than four and one-half per centum per annum) as the Lieutenant Governor in Council may fix, and shall be secured by a bond, debenture, covenant or other security of the company guaranteed by the Edmonton, Dunvegan and British Columbia Railway Company, the due payment whereof shall be further secured by a first mortgage or charge upon the said line of railway and the rolling stock and equipment, present and future, acquired for the purposes thereof, and the tolls, revenues and incomes arising and to arise therefrom, and the rights, privileges, franchises and powers of the company now or hereafter held and enjoyed in respect thereof, and the operation and maintenance thereof, and the said bond, debenture, covenant or other security shall provide for the payment of the said advance either contemporaneously with the sale, pledge or other disposition of the guaranteed securities of the company in the said recited Act mentioned or in five years from the time of the coming into force of this Act whichever period shall be the shorter. 1915, c. 19, s. 1.

4. The kind of security to be given for the said advance and the form and terms thereof and the form and terms of any deed or any deeds of trust by way of mortgage securing them and the trustee or trustees thereunder shall be such as the Lieutenant Governor in Council may approve and such advance shall save as hereinafter otherwise provided, for all the purposes of section 6 of the said recited Act, be treated as money borrowed by the company upon a pledge of the securities in the said recited Act mentioned. 1915, c. 19, s. 1.

5. Any balance of the said advance not paid out for the completion of the said portion of the said line in section 1 hereof mentioned shall, until repayment of the said advance and interest remain in the special account in said section 6 of the said recited Act mentioned, to be paid out in accordance with the provisions of the said last mentioned section towards the completion of the balance of the said line of railway. 1915, c. 19, s. 1.

(Assented to April 17, 1915.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. When any person dies intestate owning any real or personal property and without leaving any next-of-kin or other person entitled thereto by the law of Alberta, such property shall immediately on his death vest in His Majesty in his right of Alberta, and the Attorney General may cause possession thereof to be taken in the name of His Majesty in his said right; or if possession is withheld may cause an action to be brought in the Supreme Court of Alberta for the recovery thereof.

2. The Lieutenant Governor in Council may grant any property which has vested or which hereafter vests in His Majesty by virtue of this Act or any part thereof, or any interest therein, to any person for the purpose of transferring or restoring the same to any person having a legal or moral claim upon the person to whom the same had belonged, or of carrying into effect any disposition thereof which such person may have contemplated, or of rewarding any person giving information with respect to such property as to the Lieutenant Governor in Council may seem meet, and if possession of the property is withheld the person to whom the grant is made may institute, in any court of competent jurisdiction, proceedings for the recovery thereof.

3. As to the property of any person who has died on or since the first day of September, 1905, and prior to the passing hereof this Act shall apply and be effective and be deemed to have been effective as if the same had been passed on the first day of September, 1905.

CHAPTER 6.

An Act respecting Public Utilities, to Create a Public Utility Commission, and to prescribe its Powers and Duties.

(Assented to April 17, 1915.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

SHORT TITLE.

1. This Act may be cited as "*The Public Utilities Act.*"

INTERPRETATION.

2. In this Act, unless the context otherwise requires—

(a) The expression "board" means the Board of Public Utility Commissioners appointed under this Act;

(b) The expression "public utility" means and includes every corporation other than municipal corporations (unless such municipal corporation voluntarily comes under this Act in the manner hereinafter provided), and every firm, person or association of persons, the business and operations whereof are subject to the legislative authority of this province, their lessees, trustees, liquidators, or receivers appointed by any court that now or hereafter own, operate, manage or control any system, works, plant or equipment for the conveyance of telegraph or telephone messages or for the conveyance of travellers or goods over a railway, street railway, or tramway, or for the production, transmission, delivery, or furnishing of a water, gas, heat or light power, either directly or indirectly, to or for the public; also, the Alberta government telephones, now managed and operated by the Department of Railways and Telephones;

(c) The expression "charter" means any special or general legislative Act of the province or Ordinance of the North-West Territories by or by virtue of which a corporation or company is incorporated, and the letters patent issued in virtue of any such Act or Ordinance;

(d) The expression "local authority" shall mean and include the council of a city, town, village or rural municipality, the board of trustees of a school district and the directors, or other officers of any corporation doing business under *The Municipal Telephone Act*.

3. This Act is applied—

(a) To all public utilities as hereinbefore defined, which are now or may hereafter be owned or operated by or under the control of the government of the province;

(b) To all such public utilities that shall be owned or operated by or under the control of any company or corporation that is subject to the legislative authority of the province; and

(c) To every person, company or corporation owning or operating any public utility as hereinbefore defined including railway, street railway, or tramway to which the jurisdiction of the province extends, but not including any railway, street railway, tramway or other public utility owned and operated by any municipality which has not passed a by-law under section 4 hereof.

4. This Act shall not apply to any public utility owned or operated by any municipal corporation unless and until the same is brought under this Act by an order of the Lieutenant Governor in Council, which may be made upon and after the due passing of a by-law by the council of any municipality requesting that all or any public utilities operated by the municipality be made subject to this Act.

COMMISSION BOARD.

5. There shall be a board to be known as the Board of Public Utility Commissioners, to be composed of three members to be appointed by the Lieutenant Governor in Council, one of whom shall be appointed as chairman and shall be entitled to hold the position of chairman as long as he continues a member of the board. The board shall be a court of record and shall have an official seal of such design as shall be provided by the Lieutenant Governor in Council and such seal shall be judicially noticed.

6. Each of the commissioners shall hold office during good behaviour for a period of ten years from the date of appointment, but shall be removable by the Lieutenant Governor on address of the Legislative Assembly. A commissioner shall devote the whole of his time to the performance of his duties under this Act and shall not accept or hold any office or employment inconsistent with this section, nor shall he, directly or indirectly—

(a) Hold, acquire or become interested in for his own behalf any stock, share, bond, debenture or other security of any public utility;

(b) Have any interest in any device, appliance, machine, patent, process or article, or in any part thereof, which may be used for the purpose of the business of a public utility; nor shall he, directly or indirectly, hold, purchase or become interested in any stock, debenture or other security of a local authority in Alberta or become concerned or interested in a bargain or contract for the construction of any work made with or on behalf of any such local authority or become or remain a member of any company which deals in the securities of local authorities or is concerned or interested in any such bargain or contract. If any such thing, or interest therein, is the property of any commissioner when he is appointed to his office, or if thereafter and while he holds such office he acquires the same by succession or by will, he shall, within six months after such appointment or subsequent acquisition, as the case may be, alienate the same or his interest therein.

7. A commissioner shall cease to hold office upon reaching the age of seventy years.

8. A commissioner, on expiration of the term of his office, if not disqualified by age, shall be eligible for reappointment.

9. The commissioners shall, during their term of office, reside in such places as the Lieutenant Governor in Council from time to time determines.

SITTINGS.

10. The Lieutenant Governor in Council shall fix the place where the board shall sit and shall have its office, and shall also provide it with suitable quarters, furniture and facilities for the holding of its sittings and the transaction of its business generally.

11. Whenever circumstances render it expedient to hold a sitting of the board elsewhere than in the place fixed by the Lieutenant Governor in Council, the board may hold such sitting in any part of the province.

EXPERTS.

12. The Lieutenant Governor in Council may, upon the recommendation of the board, from time to time appoint one or more experts, or persons having technical or special knowledge of the matter in question, to inquire into and report to the board and to assist the board in an advisory capacity in respect of any matter before it.

SECRETARY.

13. There shall be a secretary of the board who shall be appointed by the Lieutenant Governor in Council and who shall hold office during his pleasure.

14. It shall be the duty of the secretary—

- (a) To attend all sessions of the board;
- (b) To keep a record of all proceedings conducted before the board;
- (c) To have the custody and care of all records and documents of the board;
- (d) To obey all rules of practice and directions which may be made or given by the board touching his duties or office;
- (e) To have every order and rule of practice of the board drawn pursuant to the direction of the board signed by the chairman or other duly authorized officer, sealed with the official seal of the board and filed in the office of the secretary.

(2) The secretary shall keep suitable books of record, in which he shall enter a true copy of every such order and rule of practice, and every other document which the board shall order to be entered therein, and such entry shall constitute and be the original record of any such order or rule of practice.

(3) Upon application of any person, and on payment of such fees as the Lieutenant Governor in Council may prescribe, the secretary shall deliver to such applicant a certified copy of any such order, rule of practice or other document.

15. In the absence of the secretary, the board may replace him temporarily.

LIABILITY OF OFFICIALS.

16. No member or officer of the board, nor any employee under its control, shall be personally liable for anything done by him under the authority of this Act.

REMUNERATION.

17. The members, secretary and other officials or appointees of the board shall receive such remuneration as may be fixed by the Lieutenant Governor in Council.

18. Whenever the board, acting within its jurisdiction, appoints or directs any person, other than a member of its staff, to perform any service required by this Act, such person shall be paid therefor such sum for services and expenses as the Lieutenant Governor in Council may, upon the recommendation of the board, determine.

19. The above remuneration, and all the expenses incurred by the board in the performance of its duties, including all reasonable travelling expenses of the members and secretary, and of such members of the staff of the board as may be required by the board, shall be paid monthly, out of the consolidated revenue fund of the province.

JURISDICTION AND POWERS OF BOARD.

20. The board shall have jurisdiction—

(a) In all questions relating to the transportation of goods or passengers on the lines of any tramway company or street railway company or steam railway company under the jurisdiction of the Legislature of Alberta as herein defined or on any parts thereof; and for such purpose it may authorize or require any such company to carry goods or passengers on its lines or any part thereof for any period of time and at such prices as it may fix;

(b) Whenever it is made to appear to the board, upon the complaint of any public utility, or of any person or persons having an interest, present or contingent, in the matter respecting which the complaint is made, that there is reason to believe that the tolls demanded by any public utility exceed what is just and reasonable, having regard to the nature and quality of the service rendered or of the commodity supplied, and in such case it may proceed to hold such investigation as it sees fit into all matters relating to the nature and quality of the service or the commodity in question, or to the performance of such service and the tolls or charges demanded therefor, and may make such order respecting the improvement of the commodities or services and as to the tolls or charges demanded, as seems to it to be just and reasonable, and may disallow or change, as it thinks reasonable, any such tolls or charges as, in its opinion, are excessive, unjust or unreasonable or unjustly discriminate between different persons or different municipalities;

the whole, however, subject to such of the provisions of any contract existing between such public utility and a municipality at the time such complaint is made as the board shall consider fair and reasonable;

(c) In all cases arising when a public utility having the right to enter a municipality for the purpose of placing therein, with or without the consent of the municipality, its rails, posts, wires, pipes, conduits or other appliances, upon, along, across, over or under any public road, street, square, watercourse or part thereof, cannot come to any agreement with such municipality, as to the use, as aforesaid, of the roadway or the watercourse in question, or as to the terms and conditions of such use, and applies to the commission for permission to use such roadway or watercourse, or to fix the terms and conditions of such use; and in such case the board may permit, as aforesaid, the use of such roadway or watercourse, and prescribe the terms and conditions thereof;

(d) In all questions arising whenever a public utility, being unable to extend its system, line or apparatus from a point where it lawfully does business to another point or points where it is authorized to do business, without placing its rails, posts, wires, pipes, conduits or other apparatus upon, along, across, over or under some public road, street, square, watercourse or part thereof, which it cannot lawfully so use without the consent of the municipal corporation having control of the same, and being unable to come to an agreement with the said municipal corporation, applies to the board for permission to such public road, street, square, watercourse or part thereof; and, for the purpose of such extension only, and without unduly preventing the use thereof by other persons or companies already lawfully using the same, the board may permit such use, notwithstanding any law or contract granting any other person or corporation exclusive rights with respect thereto, but shall prescribe the terms and conditions upon which such public utility may use such road, street, square or watercourse, or part thereof;

(e) In all contestations arising between a public utility and a municipality with reference to the performance of the terms and conditions mentioned in paragraphs (c) and (d) of this section; and the board may change such terms and conditions if, in its opinion, such changes are necessary or desirable;

(f) Upon the complaint of any municipality that a public utility doing business in such municipality fails to extend its services to any part of such municipality, and after hearing the parties and their witnesses, and making such inquiry into such matter as it sees fit, may order the extension of such services and the conditions under which the same shall be done, including the cost of all necessary works, which it may apportion between the public utility and the municipality in any matter it deems equitable;

(g) Subject to the terms of any contract between any public utility and any municipality, and of the franchise or rights of the public utility, to define or prescribe the terms and conditions upon which a public utility shall or may use, for any of its purposes as a public utility, any highway or any public bridge or subway constructed or to be constructed by the municipality, or two or more municipalities, and to enforce compliance with such terms and conditions.

21. The board shall have a general supervision over all public utilities subject to the legislative authority of the province, and may make such orders regarding equipment, appliances, safety devices, extension of works or systems, reporting and other matters, as are necessary for the safety or convenience of the public or for the proper carrying out of any contract, charter or franchise involving the use of public property or rights. The board shall conduct all inquiries necessary for the obtaining of complete information as to the manner in which public utilities comply with the law, or as to any other matter or thing within the jurisdiction of the board.

22. The fact that a receiver, manager or other official of any public utility, or a sequestrator of the property thereof, has been appointed by any court in the province, or is managing or operating a public utility under the authority of any such court, shall not prevent the exercise by the board of any jurisdiction conferred by this Act; but every such receiver, manager or official shall be bound to manage and operate any such public utility in accordance with this Act and with the orders and directions of the board, whether general or referring particularly to such public utility; and every such receiver, manager or official, and every person acting under him, shall obey all orders of the board within its jurisdiction in respect of such public utility, and be subject to have them enforced against him by the board, notwithstanding the fact that such receiver, manager, official or person is appointed by, or acts under the authority of, any court.

23. The board shall have power—

(a) To investigate, upon its own initiative or upon complaint in writing, any matter concerning any public utility as herein defined;

(b) From time to time to appraise and value the property of any public utility as herein defined, whenever in the judgment of the said board it shall be necessary so to do, for the purpose of carrying out any of the provisions of this Act, and in making such valuation the board may have access to and use any books, documents or records in the possession of any department or board of the province or any municipality thereof;

(c) After hearing, upon notice, by order in writing, to fix just and reasonable individual rates, joint rates, tolls, charges or schedules thereof, as well as commutation, mileage and other special rates which shall be imposed, observed and followed thereafter by any public utility as herein defined, whenever the board shall determine any existing individual rate, joint rate, toll, charge or schedule thereof or commutation, mileage or other special rate to be unjust, unreasonable, insufficient or unjustly discriminatory or preferential;

(d) After hearing, upon notice, by order in writing, to fix just and reasonable standards, classifications, regulations, practices, measurements or service to be furnished, imposed, observed and followed thereafter by any public utility as herein defined;

(e) To require every public utility as herein defined to file with it complete schedules of every classification employed and of every individual or joint rate, toll, fare or charge made, charged

or enacted by it for any product supplied or service rendered within this province as specified in such requirement;

(f) To impose and enforce regulations for the safety and protection of employees of any public utility;

(g) To impose and enforce regulations in case of accidents, howsoever happening, in or about a public utility or the operation thereof, and for the remedying of the cause thereof and prevention of recurrence;

(h) After hearing, upon notice, by order in writing, to direct any railroad or street railway company to establish and maintain at any junction or point of connection or intersection with any other line of said road, or with any line of any other railroad, street railway or traction company, such just and reasonable connections as shall be necessary to promote the convenience of shippers of property, or of passengers, and in like manner to direct any railroad, street railway or traction company engaged in carrying merchandise to construct, maintain and operate, upon reasonable terms, a switch connection with any private sidetrack, which may be constructed by any private shipper to connect with the railroad or street railway where, in the judgment of the board, such connection is reasonable and practicable and can be put in with safety, and will furnish sufficient business to justify the construction and maintenance of the same.

24. Where it is in the public interest or where, as a means of saving expense, it is in the interest of any public utilities, that there be joint user of the means of distribution, such as poles, conduits or other equipment, the board may, after notice to all parties concerned, in cases where it shall be practicable, order such joint user and declare the terms thereof, and by such order or subsequent order make such provisions as may be necessary for the convenient and effectual carrying out of the work, and the operation of the services by means of the equipment so to be jointly used.

25. For the purpose of clearing and improving the appearance of streets, and wherever it may be found practicable to do so, the board may, after notice to all parties concerned, direct that the wires known as span wires of street railway companies shall, on any street or part of a street, be affixed to buildings on the properties abutting on the street. No such direction shall be made as to involve any expense to the owner of any such building, but the expense shall be paid by the municipality or street railway company, or by the two jointly, as the board may direct. Such directions shall be given and the work shall be so carried out as to cause no permanent injury to the building or inconvenience to the owner or occupant thereof. The necessary access to the building for this purpose shall be afforded and, in case of any question affecting the same, the board shall give proper directions.

26. In considering and acting upon any application or matter before the board involving the question of rates to be charged for service by any public utility, the board shall not make any ruling or direction to raise rates for any such service beyond what the owners of any public utility may desire to impose.

27. The board shall have power, after hearing, upon notice, by order in writing, to require every public utility as herein defined—

(a) To comply with the laws of this province and any municipal ordinance or by-law affecting the public utility, and to conform to the duties imposed upon it thereby, or by the provisions of its own charter or by any agreement with any municipality or other public utility;

(b) To furnish safe, adequate and proper service and to keep and maintain its property and equipment in such condition as to enable it to do so;

(c) To establish, construct, maintain and operate any reasonable extension of its existing facilities where, in the judgment of said board, such extension is reasonable and practicable and will furnish sufficient business to justify the construction and maintenance of the same, and when the financial condition of the said public utility reasonably warrants the original expenditure required in making and operating such extension;

(d) To keep its books, records and accounts so as to afford an intelligent understanding of the conduct of its business, and to that end to require every such public utility of the same class to adopt a uniform system of accounting, which system may be prescribed by the board;

(e) To furnish periodically, and whenever the board shall require, a detailed report of finances and operations, in such form and containing such matters and verified in such manner as the board may from time to time by order prescribe;

(f) To carry, whenever in the judgment of the board it may reasonably be required, for the protection of stockholders, bondholders or creditors, a proper and adequate depreciation account in accordance with such rules, regulations and forms of account as the board may prescribe; the board shall from time to time ascertain and determine, and by order in writing after hearing, fix proper and adequate rates of depreciation of the property of each public utility, in accordance with such regulations or classifications, which rates shall be sufficient to provide the amounts required over and above the expense of maintenance to keep such property in a state of efficiency corresponding to the progress of the industry; each public utility shall conform its depreciation accounts to the rates so ascertained, determined and fixed, and shall set aside the moneys so provided for out of earnings and carry the same in a depreciation fund; the income from investments of moneys in such fund shall likewise be carried in such fund; this fund shall not be expended otherwise than for depreciation, improvements, new constructions, extensions or additions to the property of such public utility;

(g) To give such notice to the board as it may by order require of any and all accidents which may occur within this province upon the property of any public utility as herein defined or directly or indirectly arising from or connected with its maintenance or operation, and to investigate any such accident, and the board may make such order or recommendation with respect thereto as in its judgment may be just and reasonable.

28. Said board shall have power to require every public utility as herein defined to file with the board a statement in writing, verified by the oaths of the president and secretary thereof,

respectively, setting forth the name, title of office or position, and post office address, and the authority, power and duties of every officer, member of the board of directors, trustee, executive committee, superintendent, chief or head of construction and operation, or department, division or line of construction and operation thereof, in such form as to disclose the source and origin of each administrative act, rule, decision, order or other action of the corporation, and shall, within ten days after any change is made in the title of, or authority, powers or duties appertaining to any such office or position, or the person holding the same, file with the board a like statement, verified in like manner, setting forth such change.

RESTRICTION ON POWERS OF PUBLIC UTILITIES.

29. No public utility as herein defined shall—

(a) Make, impose or exact any unjust or unreasonable, unjustly discriminatory or unduly preferential individual or joint rate, commutation rate, mileage or other special rate, toll, fare, charge or schedule for any product of service supplied or rendered by it within this province;

(b) Adopt or impose any unjust or unreasonable classification in the making or as the basis of any individual or joint rate, toll, fare, charge or schedule for any product or service rendered by it within this province;

(c) Adopt, maintain or enforce any regulation, practice or measurement which shall be unjust, unreasonable, unduly preferential, arbitrarily or unjustly discriminatory or otherwise in violation of law; nor shall any public utility as herein defined provide or maintain any service that is unsafe, improper or inadequate, or withhold or refuse any service which can reasonably be demanded and furnished when ordered by said board;

(d) Make, or give, directly or indirectly, any undue or unreasonable preference or advantage to any person or corporation or to any locality or to any particular description of traffic in any respect whatsoever, or subject any particular person or corporation or locality or any particular description of traffic to any prejudice or disadvantage in any respect whatsoever;

(e) Issue any stocks, stock certificates, bonds or other evidences of indebtedness, payable in more than one year from the date thereof, until it shall have first obtained authority from the board for such proposed issue; it shall be the duty of the board, after hearing, to approve of any such proposed issue maturing in more than one year from the date thereof, when satisfied that the same is to be made in accordance with law and the purpose of such issue be approved by said board;

(f) Capitalize any franchise to be a corporation; capitalize any franchise in excess of the amount (exclusive of any tax or annual charge) actually paid to the province or any municipality thereof as the consideration of such franchise; capitalize any contract for consolidation, merger or lease; issue any bonds or other evidence of indebtedness against or as a lien upon any contract for consolidation, merger or lease; provided, however, that the provisions of this paragraph shall not prevent the issuance of stock, bonds or other evidences of indebtedness,

subject to the approval of said board, by any lawfully merged or consolidated public utilities not in contravention of the provisions of this paragraph;

(g) Without the approval of the board, sell, lease, mortgage or otherwise dispose of or encumber its property, franchises, privileges or rights, or any part thereof; or merge or consolidate its property, franchises, privileges or rights, or any part thereof, with that of any other public utility as herein defined; every sale, lease, mortgage, disposition, encumbrance, merger or consolidation made in violation of any of the provisions hereof shall be void and of no effect; nothing herein contained shall be construed in any wise to prevent the sale, lease or other disposition by any public utility as herein defined of any of its property in the ordinary course of its business.

30. No public utility as herein defined, incorporated under the laws of this province, shall sell, nor shall any such public utility make or permit to be made upon its books any transfer of any share or shares of its capital stock to any other public utility as herein defined, unless authorized to do so by the board; nor shall any public utility as herein defined, incorporated under the laws of this province, sell any share or shares of its capital stock or make or permit any transfer thereof to be made upon its books, to any corporation, domestic or foreign, the result of which sale or transfer, in itself or in connection with other previous sales or transfers, shall be to vest in such corporation a majority in interest of the outstanding capital stock of such public utility corporation unless authorized to do so by the board. Every assignment, transfer, contract or agreement for assignment or transfer by or through any person or corporation to any corporation in violation of any of the provisions hereof shall be void and of no effect, and no such transfer shall be made on the books of any public utility corporation. Nothing herein contained shall be construed to prevent the holding of stock heretofore lawfully acquired.

31. In the case of a public utility which has for its object the construction, working or maintaining of telegraph, telephone or transmission lines, or the delivery or sale of water, gas, heat, light or power, the following conditions shall be fulfilled, over and above those which may be prescribed by the board, that is to say—

(a) The public utility shall not interfere with the public right of travel, or in any way obstruct the entrance to any door or gateway or free access to any building;

(b) The public utility shall not permit any wire to be less than sixteen feet above such highway or public place, or erect more than one line of poles along any highway;

(c) All poles shall be as nearly as possible straight and perpendicular;

(d) The public utility shall not unnecessarily cut down or mutilate any shade, fruit or ornamental tree;

(e) The opening up of any street, square or other public place, for the erection of poles, or for the carrying of wires underground, shall be subject to the supervision of such person as the municipal

council may appoint, and such street, square or other public place shall, without unnecessary delay, be restored as far as possible to its former condition;

(f) If, in the exercise of the public right of travel, it is necessary that the said wires or poles be temporarily removed by cutting or otherwise, the public utility shall, at its own expense, upon reasonable notice in writing from any person requiring it, remove such wires and poles; and in default of the public utility so doing such person may remove such wires and poles at the expense of the public utility.

(2) The public utility shall be responsible for all unnecessary damage which it causes in carrying out, maintaining or operating any of its said works.

(3) The public utility, unless ordered by the board, shall not be entitled to compensation on account of its poles or wires being cut by order of the officer in charge of the fire brigade at any fire if, in the opinion of such officer, it is advisable that such poles or wires be cut.

(4) Every person engaged in erecting or repairing any line or instrument of the public utility shall have conspicuously attached to his dress a badge on which are legibly inscribed the name of the public utility and a number by which he can be readily identified.

(5) Nothing in this section shall be deemed to authorize the public utility to sell or distribute water, gas, light, heat, power or electricity in cities, towns or villages without having previously obtained by by-law the consent of the municipality thereto, unless such public utility has authority therefor by its charter.

32. No change in any existing individual rates, joint rates, tolls, charges or schedules thereof or any commutation, mileage or other special rates shall be made by any public utility, nor shall any new schedule of any such rates, tolls or charges be established until such changed rates or new rates are approved by the board, when they shall come into force on a date to be fixed by the board, and the board shall have power, either upon written complaint or upon its own initiative, to hear and determine whether the proposed increases, changes or alterations are just and reasonable. The burden of proof to show that any such increases, changes or alterations are just and reasonable shall be upon the public utility seeking to make the same.

33. Every municipality operating any form of public utility service shall keep the accounts thereof in the manner prescribed by the board for the accounting of similar public utilities, and shall file with the said board such statements thereof as it may be directed so to do by said board.

34. No railway company within the legislative authority of this province shall, without first obtaining the approval of the board, abandon any railway station or stop the sale of passenger tickets, or cease to maintain an agent to receive and discharge freight, at any station now or hereafter established in this province, at which passenger tickets are now or may hereafter be regularly sold, or at which such agent is now or may hereafter be maintained.

35. No highway shall be constructed across the tracks of any such railway company at grade, nor shall the tracks of any such railway company, or of any street railway or traction company be laid across any highway, so as to make a new crossing at grade, nor shall the tracks of any such railway or street railway or traction company be laid across the tracks of any other railway or street railway or traction company, without first obtaining therefor permission from the board; provided, however, that this section shall not apply to the replacement of lawfully existing tracks.

36. Whenever it appears to the board that a public highway and a railway within the legislative authority of this province cross one another, or that a public highway and a street railway cross one another, or that such a railway and a street railway cross one another at the same level, and that conditions at such grade crossing make it necessary for the protection of the travelling public at such grade crossing that gates be erected or that some other reasonable provision for the protection of the travelling public at such grade crossing should be adopted, the board may order and direct such railway company or such street railway company, or either or both of them, to install such protective device or devices or adopt such other reasonable provision for the protection of the travelling public at such crossing as in the discretion of the board shall be necessary.

37. No privilege or franchise hereafter granted to any public utility as herein defined, by any municipality of this province shall be valid until approved by said board, such approval to be given when, after hearing, said board determines that such privilege or franchise is necessary and proper for the public convenience and properly conserves the public interests, and the board shall have power in so approving to impose such conditions as to construction, equipment, maintenance, service or operation as the public convenience and interests may reasonably require.

38. Where, by any general or special Act, a public utility is authorized to amalgamate with any other public utility, such amalgamation shall be subject to the consent of the board, and shall have no effect until the order authorizing the same is published in *The Alberta Gazette*.

ENFORCEMENT OF ACT—PROCEDURE.

39. Every municipal council, whenever it deems that the interests of the public in a municipality or in a considerable part of a municipality are sufficiently concerned, may by resolution authorize the municipality to become a complainant or intervenant in any matter within the jurisdiction of the board; and for that purpose the council is authorized to take any steps and to incur any expense and to take any proceedings necessary to submit the question in dispute to the decision of the board, and if necessary to authorize the municipality to become a party to an appeal therefrom.

40. If the Attorney General, a municipality or any party interested makes a complaint to the board that any public utility, municipal corporation, company or person has unlawfully done or unlawfully failed to do, or is about unlawfully to do, or unlawfully not to do, something relating to a matter over which the board has jurisdiction as aforesaid, and prays that the board do make some order in the premises, the board shall, after hearing such evidence as it may think fit to require, make such order as it thinks proper under the circumstances.

41. The board may make rules of practice, not inconsistent with this Act, regulating its procedure and the times of its sittings. Such rules of practice shall come into force from the date of their publication in *The Alberta Gazette*.

42. Any summons to a witness may be signed by a member of the board or by the secretary of the board, and shall be served in the same manner as a like summons is served in the Supreme Court of Alberta.

43. The board may issue commissions to take evidence outside of Alberta, and make all proper orders for the purpose and for the return and use of the evidence so obtained.

44. The board shall, as respects the costs of all proceedings before it, the attendance and examination of witnesses, the production and inspection of tariffs, contracts, papers, books, accounts, and all other documents, the enforcement of its orders, the entry on and inspection of property, the punishment of contempt of court and other matters necessary or proper for the due exercise of its jurisdiction, or for carrying this Act into effect, have all such powers, rights and privileges as are vested in the Supreme Court of Alberta or a judge thereof, including the ordering of costs to be paid by any party in its discretion.

(2) When costs are ordered to be paid by any party to any other party, the same shall be fixed by the board.

45. The board may in its discretion accept and act upon evidence by affidavit or written affirmation or by the report of any officer or engineer appointed by it or obtained in such other manner as it may decide.

46. All hearings and investigations before the board shall be governed by rules adopted by the board, and in the conduct thereof the board shall not be bound by the technical rules of legal evidence.

47. No person shall be excused from testifying or from producing any book, document or paper in any investigation or inquiry by or upon the hearing before said board, when ordered so to do by the board, upon the ground that the testimony or evidence, book, document or paper required of him may tend to incriminate him or subject him to penalty or forfeiture, but no person shall be prosecuted, punished or subjected to any penalty or forfeiture for or on account of any act, transaction, matter or thing con-

cerning which he shall, under oath, have testified or produced documentary evidence; provided, however, that no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him in his testimony. Nothing herein contained is intended to give, or shall be construed as in any manner giving to any corporation immunity of any kind. No member or employee of the board shall be required to give testimony in any civil suit to which the board is not a party, with regard to information obtained by him in the discharge of his official duty.

48. The board may appoint or direct any person to make an inquiry and report upon any application, complaint or dispute pending before the board, or any matter or thing over which the board has jurisdiction under this Act or any other Act, and may order and direct by whom and in what proportion the costs and expenses incurred in making such inquiry and report shall be paid, and may fix the amount of such costs and expenses.

49. Sheriffs, deputy sheriffs, bailiffs, constables and other peace officers shall be *ex officio* officers of the board and shall aid, assist and obey the board in the exercise of its jurisdiction conferred by this Act or any other Act whenever required so to do, and shall, upon the certificate of the secretary, be paid like fees as for similar services in the Supreme Court of Alberta.

50. The board or any person authorized by the board to make inquiry or report, may—

(a) Enter upon and inspect any place, building or works being the property or under the control of any public utility;

(b) Inspect any works, structure, rolling stock or other property of such public utility;

(c) Require the attendance of all such persons as he thinks fit to summon and examine and take the testimony of such persons;

(d) Require the production of all books, plans, specifications, drawings and documents;

(e) Administer oaths, affirmations or declarations; and shall have the like powers to summon witnesses, enforce their attendance, and compel them to give evidence and produce the books, plans, specifications, drawings and documents, which it or he may require them to produce, as is vested in any court in civil cases.

51. Every order made by the board shall be served upon the person or public utility, as herein defined, affected thereby, within ten days from the time said order is signed, or within such longer time as the board may direct, by personally delivering or by mailing a certified copy thereof, in a sealed package, with postage prepaid, to the person to be affected thereby, or, in case of a public utility, to any officer or agent thereof upon whom a summons may be served in accordance with the provisions of the law in this province. All orders of the board to continue service or rates in effect at the time said order is made shall be immediately operative; all other orders shall become effective

upon the date specified therein, which shall be at least twenty days after the date of said order, unless the board shall, for good reason, specially provide for an earlier date.

52. The board may order and require any company or person or municipal corporation to do forthwith, or within or at any specified time, and in any manner prescribed by the board, so far as is not inconsistent with this Act or any other Act, any act, matter or thing which such company or person or municipal corporation is or may be required to do under this Act or any other Act, or any regulation, order or direction of the board, or under any agreement, and may forbid the doing or continuing of any act, matter or thing which is contrary to this Act, or any other Act, or any such regulation, order, direction or agreement, and shall have full jurisdiction to hear and determine all matters, whether of law or of fact, and shall, as respects the attendance and examination of witnesses, the production and inspection of documents, the enforcement of its orders, the entry on and inspection of property, and other matters necessary or proper for the due exercise of its jurisdiction under this Act or any other Act, or otherwise for carrying this Act or any other Act, or any such regulation, order, direction or agreement into effect, have all such powers, rights and privileges as are vested in the Supreme Court of Alberta.

53. In case default shall be made in the doing of any act, matter or thing, which the board may direct to be done by the company or person or municipal corporation required to do the same, the board may authorize such person as it may see fit to do the act, matter or thing, and in every such case the person so authorized may do such act, matter or thing, and the expense incurred in the doing of the same may be recovered from the company or person or municipal corporation in default as money paid for and at the request of such company or person or corporation and the certificate of the board of the amount so expended shall be conclusive evidence thereof.

54. The observance of the orders of the board may be enforced by a written direction to the sheriff of any judicial district endorsed upon or annexed to a certified copy of any such order and signed by the said board, and in the case of an order for payment of any money, costs, expenses or penalty, the sheriff receiving such direction shall levy the amount with his costs and expenses in like manner and with the same powers as if the order were an execution against the goods of the party to pay issued out of the Supreme Court of Alberta.

(2) In the case of an order of the board for payment of any money, costs, expenses or penalty, a certificate of the order signed by the secretary may be registered in the office of any registration district or land titles office in the province, and when so registered shall constitute a lien and charge upon any lands or interest therein of the party or person or company ordered to pay the money in the registration district or land titles district in which such office is situated to the same extent and in the same manner as such lands would be bound by the registration of an execution issued after judgment in the Supreme Court of Alberta. The amount ordered to be paid by any

such order so registered may be realized in the same manner and by similar proceedings as the amount of any registered execution of the Supreme Court of Alberta.

55. The board may take such steps and employ such persons as are necessary for the enforcement of any order made by it and for the purposes thereof may forcibly or otherwise enter upon, seize and take possession of the whole or part of the movable and immovable property of such public utility, together with the books and offices thereof, and may, until such order has been enforced, assume and take over the management of the business thereof for and in the interest of the shareholders and the public, and all or any of the powers, duties, rights and functions of the directors and officers of the public utility in all respects, including the employment and dismissal of officers and servants thereof, for such time as the board continues to direct such management.

(2) Upon the board so taking possession of such property, it shall be the duty of every officer and employee of the public utility to obey the orders of the board or of such person or persons as it places in authority in the management of any or all departments of the undertaking.

(3) The board may, upon so taking possession of such undertaking and property, determine, receive and pay out all moneys due to or owing by the public utility, and give cheques, acquittances and receipts for moneys to the same extent and as fully as the proper officers thereof could do if no such possession had been taken.

(4) The costs and expenses of and incidental to proceedings to be taken by the board under this section shall be in the discretion of the board, and the board may direct by whom and to what extent they shall be paid.

56. If it is proved that a public utility has not complied with an order given by the board, and if it is of opinion that there are no effectual means of compelling the public utility to obey such order, the board, as an alternative, shall transmit to the Attorney General a certificate, signed by the board and secretary, setting forth the nature of the order and the default of the public utility in complying therewith. Such default so established shall be ground, after public notice in *The Alberta Gazette* of the receipt of the said certificate by the Attorney General, for an action to dissolve the public utility or to annul the letters patent incorporating it. The proceedings upon such action shall be governed by the rules in force under *The Supreme Court Act* as nearly as may be.

57. The board may, if the special circumstances of any case so require, make a provisional order after notice, and in cases of urgency, without notice, authorizing, requiring or forbidding anything to be done which the board would be empowered, in a contested case, to authorize, require or forbid; and such provisional order shall remain in force until the final decision of the board, or in case of appeal, until the final judgment of the court *en banc*.

(2) If a provisional order has been made without notice, any interested party may, at any time before final order or judgment, apply by petition to have the same modified or set aside.

58. The board may direct in any order that such order or any portion thereof shall come into force at a future time, or upon the happening of any contingency, event or condition in such order specified, or upon the performance, to the satisfaction of the board, or person named by it, of any terms which the board may impose upon any party interested, and the board may direct that the whole or any portion of such order shall have force for a limited time, or until the happening of a specified event.

59. When in the exercise of the powers conferred upon it by this Act or by any special Act the board directs any structure, appliances, equipment or works to be provided, constructed, reconstructed, altered, repaired, installed, used or maintained, it may order by what company, municipality or persons interested and when or within what time and upon what terms and conditions as to the payment of compensation or otherwise, and under what supervision such work shall be carried out.

60. When any order of the board requires any work, act or thing to be performed or done within a specified time, the board may, upon notice, extend the time so specified.

61. No order involving any outlay, loss or deprivation to any public utility, municipality or person shall be made without due notice and full opportunity to all parties concerned, to make proof to be heard at a public sitting of the board, except in case of urgency, and, in such case, as soon as practicable thereafter, the board shall, on the application of any party affected by such order, rehear and reconsider the matter and make such order as shall seem just.

62. Upon application made for that purpose, the board may, after hearing the parties and their witnesses, revise, change or annul a decision, order or rule previously given or made.

(2) The board at any time may order a rehearing and extend, revoke or modify any order made by it.

63. Every public utility shall, as soon as possible after having received or having been served with any order or other document of the board, notify the same to each of its or his officers and servants performing duties which are or may be affected thereby, by delivering a copy to him or by posting up a copy in some place where his work or duties or some of them are to be performed.

64. The decision of the board upon any question of fact or law within its jurisdiction shall be final and be *res judicata*.

BOARD DOCUMENTS AS EVIDENCE.

65. Copies of all official documents and orders filed or deposited in the office of the board, certified by the board, or by the secretary,

to be true copies of the originals, under the official seal of the board, shall be evidence in like manner as the originals in all courts of this province, and the board or secretary may charge and collect for such copies ten cents for each folio; the fees so collected shall be paid into the treasury of the province.

66. Every document purporting to be signed by the board and secretary, or either of them, or by any officer of the board shall, without proof of any such signature, be *prima facie* evidence in all courts, and shall be sufficient notice to the public utility and all parties interested (if duly served therewith) that such document was duly signed and issued by the board or officer of the board, as the case may be; and, if such document purports to be a copy of any regulation, order, direction, decision or report, and when duly served on the public utility, or any person, shall be sufficient notice to the public utility, or any person, of such regulation, order, direction, decision or report from the time of such service.

ANNUAL REPORT.

67. The board shall, in the month of January in each year, transmit to the chairman of the Executive Council, for the year ending on the thirtieth day of November previous, a report showing briefly—

(a) Applications to the board and summaries of the orders made thereon;

(b) The number and the nature of the inquiries which it has held of its own motion;

(c) Such matters as the Lieutenant Governor in Council directs.

(2) The report shall be laid before the Legislative Assembly during the first fifteen days of the then next session, or within fifteen days after its receipt if the legislature shall be then sitting.

68. A substantial compliance with the requirements of this Act shall be sufficient to give effect to all the rules, orders, acts and regulations of the board, and they shall not be declared inoperative, illegal or void for any omission of a technical nature in respect thereto.

APPEAL.

69. The decision of the board upon any question of fact or law within its jurisdiction, and as to whether any company, municipality or person is or is not a party interested within the meaning of this Act, shall be binding and conclusive upon all companies and persons and municipal corporations and in all courts.

(2) The board shall have exclusive jurisdiction in all cases and in respect of all matters in which jurisdiction is conferred on it by this Act, or by any other Act, and, save as herein otherwise provided, no order, decision or proceeding of the board shall be questioned or reviewed, restrained or removed by prohibition, injunction, *certiorari* or any other process or proceeding in any court, even when the question of its jurisdiction is raised.

(3) No order of the board need show upon its face that any proceeding or notice was had or given, or any circumstance existed, necessary to give it jurisdiction to make such order.

(4) In determining any question of fact, the board shall not be concluded by the finding or judgment of any other court in any suit, prosecution or proceeding involving the determination of such fact, but such finding or judgment shall, in proceedings before the board, be *prima facie* evidence only.

(5) The pendency of any suit, prosecution or proceeding in any other court, involving questions of fact, shall not deprive the board of jurisdiction to hear and determine the same questions of fact.

70. An appeal shall lie to the court *en banc* from any final decision of the board upon any question involving the jurisdiction of the board, but such appeal can be taken only by permission of the court *en banc* and upon notice of intention to appeal being given to the board and the parties within fifteen days from the day on which the decision of the board has been served upon each of the parties or his solicitor. The costs of such application and appeal shall be in the discretion of the court *en banc*.

71. The time for appeal shall begin to run from the day on which the decision of the board has been served upon the party or upon his solicitor.

72. When the petition to appeal has been granted the appeal shall be brought by a *praecipe* filed in the office of the secretary of the board and with the registrar of the Supreme Court within eight days after the permission to appeal has been granted. The *praecipe* must contain a statement of the names of the parties and their addresses, the date of the order appealed from, and a statement of its effect and of the grounds of the appeal, and the date, hour and place when and where the security hereinafter mentioned will be given, and, in case money is not deposited as security, the names and addresses of the proposed surety or sureties. After the *praecipe* has been filed and within the said eight days a copy of it must be served upon the adverse party or parties.

73. At the time mentioned in the *praecipe*, which must be within five days after the filing of it, or within such further time as the board may order, the appellant shall give security before the secretary of the board in conformity, as nearly as may be, with the rules governing the giving of security for costs in an action in the Supreme Court.

74. In other respects the proceedings upon appeals taken in virtue of this Act, until final judgment by the court *en banc*, shall be in conformity, as nearly as may be, with the rules governing appeals in the Supreme Court.

75. The court *en banc* shall thereafter determine the matter referred to it, or upon which the appeal is taken, and shall make such order as shall appear just and shall adjudge the costs of such appeal in its discretion and order that the record be trans-

mitted to the secretary of the board by the registrar of the Supreme Court, who shall annex to the record a copy of the judgment of the court, and there shall be no appeal from such judgment. Payment of any costs so ordered may be enforced in the same manner as payment of costs ordered by the board to be paid.

76. Every order of the board shall go into effect at the time prescribed by the order, and its operation shall not be suspended by any such appeal to the court *en banc* unless otherwise ordered by the said court *en banc*; but the board itself may suspend the operation of its order, when appealed from, until the decision of the court *en banc* is rendered, if the board thinks fit.

GENERAL PROVISIONS.

77. Every municipal corporation owning or operating any public utility within the meaning of this Act may, by by-law of the council thereof, approved of by the Lieutenant Governor in Council, provide that such public utility shall come under the operation of this Act and be subject to the control and orders of the said board; and, if any such by-law is so passed and approved, the public utility owned and operated by such municipality shall thereafter come under the operation of this Act and under the control and management of the said board.

78. Any proceeding in any court of this province directly affecting an order of the board, or to which the board is a party, shall have preference over all other civil proceedings pending in such court.

79. If, for any reason, any section or provision of this Act shall be questioned in any court, and shall be held to be unconstitutional or invalid, no other section or provision of this Act shall be affected thereby.

PENALTIES.

80. In default of compliance with any order of the board, when the same shall become effective, the person or public utility affected thereby shall be subject to a penalty of one hundred dollars per day for every day during which such default continues, the amount of such penalty to be fixed and determined by the board by order signed by it under the seal of the board.

81. Any person who shall knowingly and wilfully perform, commit or do, or participate in performing, committing or doing, or who shall knowingly or wilfully cause, participate or join with others in causing, any public utility or corporation or company to do, perform or commit, or who shall advise, solicit, persuade or knowingly and wilfully instruct, direct or order any officer, agent or employee of any public utility, corporation or company, to perform, commit or do any act or thing forbidden or prohibited by this Act, shall be guilty of an offence against this Act.

82. Any person who shall knowingly and wilfully neglect, fail or omit to do or perform, or who shall knowingly and wilfully

cause or join or participate with others in causing any public utility, corporation or company to neglect, fail or omit to do or perform, or who shall advise, solicit or persuade, or knowingly or wilfully instruct, direct or order any officer, agent or employee of any public utility, corporation or company to neglect, fail or omit to do, any act or thing required to be done by this Act, shall be guilty of an offence against this Act.

83. Any public utility, corporation or company which shall perform, commit or do any act or thing hereby prohibited or forbidden, or which shall neglect, fail or omit to do or perform any act or thing hereby required to be done or performed by it, shall be guilty of an offence against this Act.

84. Every person or public utility guilty of an offence under this Act shall, in addition to all other penalties, be liable, on summary conviction before a police magistrate or two justices of the peace, to a fine of not less than fifty dollars nor more than five hundred dollars, besides costs of prosecution, and, in default of payment, if an individual, to imprisonment for a term not exceeding six months.

85. This Act shall not have the effect to release or waive any right of action by the board or by any person for any right, penalty or forfeiture which may have arisen, or which may arise, under any of the laws of this province, and any penalty or forfeiture enforceable under this Act shall not be a bar to or affect the recovery for a right, or affect or bar any action at law or prosecution, against any public utility, or person or persons operating such public utility, its officers, directors, agents or employees.

ADDITIONAL POWERS.

86. In addition to the powers hereinbefore granted, the board shall have power—

(a) To inquire into the merits of any application of a local authority for permission to raise money by way of debenture or upon the security of stock, and to grant or refuse such permission;

(b) To manage, notwithstanding anything in any city charter, town charter or *The Town Act*, the sinking fund of any local authority which desires to intrust the same to the board for management;

(c) To supervise the expenditure of moneys borrowed by a local authority under this Act;

(d) To obtain from any local authority at any time a statement in detail of its assets and liabilities and of its revenue and expenditures for any definite period.

87. The officials of any local authority, to whom the board makes application for statements, reports, copies of documents or information of any kind, shall furnish the required statements, copies or information to the board free of cost.

(2) The registrars of land titles in the different land registration districts throughout the province shall furnish the board with such certificates and certified copies of documents as the board

may in writing require without charge, and the board or any member or official of the board thereunto authorized may at any time search in the public records of the land titles offices without charge.

(3) The board shall have all the power and authority to compel persons to attend and testify under oath or affirmation as to matters connected with any investigation or inquiry which it is authorized to make and to produce books and documents, and all the power and authority to preserve order and punish for contempt, which may be exercised by a police magistrate or justice of the peace in respect of criminal or *quasi* criminal matters pending before him.

88. When a local authority desires to provide for the raising of a loan by way of debenture or upon the security of stock for the purpose of any work or undertaking, the acquisition of property or any other object within its jurisdiction, application shall be made to the board for permission to do so.

89. In the case of a city or town such application shall be made prior to, or forthwith after, the first reading of a by-law providing for the loan and before such by-law is submitted to a vote of the persons authorized to vote thereon, and no further action shall be taken by the council upon the by-law until the authorization of the commissioners has been obtained as hereinafter provided.

90. In the case of villages and rural municipalities the council shall continue to follow the procedure now provided by *The Village Act* and *The Rural Municipality Act*, respectively, for obtaining leave to borrow money, save that hereafter application for such leave shall be made to and the power to grant such authority shall vest in the board instead of the Minister of Municipal Affairs as now provided in the said Acts; and whenever in sections 75, 76, 77, 79 and the second line of section 78 of *The Village Act*, and in sections 227, 238, 239 and the second line of section 240 of *The Rural Municipality Act*, reference is made to the Minister of Municipal Affairs, the said reference shall be deemed to apply to the board.

91. In the case of school districts the school boards shall continue to follow the procedure laid down in *The School Ordinance* for obtaining permission to borrow money, save that hereafter application for such authority shall be made to and the power to grant such permission shall vest in the board instead of the Minister as now provided in the said Ordinance; and whenever in sections 108, 110, 112 and the fourth line only of section 128 of *The School Ordinance*, reference is made to the Minister, and when in subsection (2) of section 109 and in section 127 of *The School Ordinance* reference is made to the department, the reference shall be deemed to apply to the board.

92. Every application shall be addressed to the secretary of the board and shall be accompanied in the case of applications by the councils of cities and towns by a copy of the by-law dealing with the proposed loan, in other cases by the documents prescribed by the various statutes governing the application.

PROCEDURE BY THE BOARD.

93. The board in conducting its inquiry and in arriving at its decision shall consider the nature of the work, undertaking or other object of the proposed loan, the necessity or expediency of the same, the financial position of the local authority and all such other matters as in the opinion of the board may call for consideration.

94. The board, in the course of an inquiry, shall have power to summon and examine on oath any person whose evidence it may desire to obtain and may fix a date for the hearing of all parties interested in the granting or refusing of an application, in which case it may order that proper public notice be given of the hearing.

95. When a local authority proposes to borrow money by way of debenture or other security for the purpose of establishing or extending any system of waterworks or of constructing, altering or extending any common sewer or system of sewerage, the board shall not grant the permission applied for until the certificate of the provincial board of health approving of the proposed undertaking has first been obtained, as provided by sections 11 or 12, as the case may be, or under the provision of section 13 of *The Public Health Act*.

96. All debentures issued by local authorities shall contain, in addition to other particulars required by law, a note or memorandum under the seal of the board, signed by the chairman or, in his absence, by one of the other commissioners, authorizing the issue:

Provided, however, that nothing contained in this section or in any other section of this Act shall be deemed to repeal any of the provisions concerning the countersigning of debentures or of debenture coupons by a Minister contained in any Act now in force in Alberta.

97. In case the board undertakes the management of the sinking fund of a local authority it shall be at liberty to invest the same in all or any of the securities in which trustees having trust money in their hands are authorized to invest it under *The Trustee Ordinance*; and it shall have all the powers and authorities conferred upon sinking fund trustees by city charters, town charters and *The Town Act* respectively; and the treasurer of the local authority shall be subject to the control and requisition of the board and shall deposit the sinking fund as required by the city charter, town charter or *The Town Act*, as the case may be.

98. It shall be the duty of the Provincial Auditor to arrange for an annual audit of the accounts of the board in connection with sinking funds and their management, and an inspection of the books and records of the board connected with such funds for the preceding financial year, and such audit and inspection shall be under the supervision of the Provincial Auditor and the costs and expenses thereof shall be paid by the board as part of the cost of managing the funds at its disposal.

SUPERVISION OF EXPENDITURE.

FEES.

100. There shall be paid on every application for permission to raise money by way of loan on debentures or stock and for services performed by the board in inquiring into the merits of applications or in managing the investing of a sinking fund such fees as shall be fixed by the board with the approval of the Lieutenant Governor in Council.

GENERAL.

101. The Lieutenant Governor in Council shall have power to make all provisions not inconsistent with this Act which may be required for the better carrying its purposes into effect.

102. This Act shall come into force on a date fixed by proclamation.

1. Every joint stock company, if a provincial company, shall keep on deposit with the Treasurer \$10,000, and, if a foreign company, \$20,000; provided, however, that a provincial or foreign company undertaking plate glass insurance only shall deposit \$3,000;

25. The Treasurer may permit the substitution of other securities for those deposited with him.

26. Any securities deposited under the provisions of this Act may be used by the Treasurer for the purposes of re-insuring all or any part of the risks of the insurance corporation outstanding in Alberta as and when the superintendent may see fit.

at once, and on failure to do so its corporate powers in the province shall thereupon cease and determine, except for the purpose of winding up its affairs. In the case of life companies, such re-insurance value shall be calculated on the basis used by the insurance branch of the Department of Finance at Ottawa.

29. 30. Except in cases with respect to which it may be otherwise provided by the Lieutenant Governor in Council, so long as the deposit of any insurance corporation is unimpaired and no notice of any final judgment or order to the contrary is served upon the Treasurer, the interest upon securities forming the deposit shall be handed over to the insurance corporation when received by him.

31. Every registered company, other than a Dominion company, transacting any business of life insurance in the province, shall maintain a reserve for the protection of its Alberta policyholders, computed on the basis of the reserve required under the provisions of *The Insurance Act of Canada* for the time being in force.

33. Any insurance corporation shall be liable upon the application of any creditor or policyholder to have its deposits in the hands of the Treasurer administered in manner hereinafter mentioned upon the failure of the company to pay any undisputed claim arising under any contract within the last preceding

section for the space of sixty days after being due, or if disputed, after final judgment and tender of a legal valid discharge, and (in either case) after notice thereof, to the Treasurer. In the event of such administration all deposits of the insurance corporation held by the Treasurer shall be applied *pro rata* towards the payment of all claims duly authenticated against the insurance corporation, as well as in respect of unearned premiums, such being claims and premiums under the contracts aforesaid; and the distribution of the proceeds of such deposits may be made by order of a judge of the Supreme Court of the province.

34. In any case where a claim accruing on the occurrence of any event is by the terms of the contract payable on proof of such occurrence without any stipulated delay, the notice required in the last preceding section shall not be given until after the lapse of sixty days from the time when the claim becomes due.

35. Before an application is made to a judge of the Supreme Court of Alberta for the administration of the deposit of an insurance corporation at least ten days' notice of the intended application shall be served on the Treasurer; and the notice shall designate the day named for the hearing of the application.

36. Upon granting an order for administration as aforesaid the court shall appoint a receiver, who may be an officer of the court, who shall forthwith call upon the insurance corporation to furnish a statement of all its outstanding contracts, being within the second and thirty-second sections of this Act, and upon all claimants under such contracts to file their claims; and upon the filing of the claims with the receiver the parties interested shall have the right of contestation thereof, and the right of appeal from the decision of the receiver to the court as aforesaid, according to the practice of the court; and in case of any such administration the claimants aforesaid shall be entitled to claim for a part of the premiums paid proportionate to the unexpired period of their contracts respectively, and such unearned premiums shall rank, in the distribution of assets, with judgments obtained and claims accrued; and upon the completion of the schedule to be prepared by the receiver of all judgments against the company upon said outstanding contracts, and of all claims for unearned premiums, or for surrender of policies, the court shall cause the securities held by the Treasurer for the insurance corporation, or any part of them, to be sold in such manner and after such notice and formalities as the court appoints; but all the proceeds thereof, after paying expenses incurred, shall be distributed *pro rata* amongst the claimants according to the schedule, and the balance, if any, shall be surrendered to the insurance corporation; but if any claim, within the second and thirty-second sections of this Act, arises after the statement of the said outstanding contracts has been obtained from the insurance corporation, as hereinbefore provided, and before the final order of the court for the distribution of the proceeds of the securities, the holder of such claim, upon due proof thereof, shall be entitled to share in such distribution.

37. As to any claim arising after the distribution of the proceeds of the securities and as to any balance of claims against the insurance corporation not fully paid and met by such distribution, the holders of such claim shall not be barred from any recourse they may have against the insurance corporation.

38. The court, by the order appointing a receiver or by any subsequent order, may authorize the receiver to exercise, in respect of the accounts of the insurance corporation, all or any of the powers which a judge of the Supreme Court of the province would have if he were taking an account of the claims against the said deposit, and every receiver so authorized shall possess the said powers, as well as the powers usually enjoyed by a receiver appointed under an order of the said court.

SURRENDER OF SECURITIES.

39. Where an insurance corporation has ceased to undertake insurance within the province and has given written notice to that effect to the Treasurer it shall re-insure all such outstanding contracts as are within the second and thirty-second sections of this Act with some registered insurance corporation or corporations, and shall pay all loss claims for which it is legally liable and all unearned premiums in respect of contracts not re-insured, or obtain a discharge thereof, and its securities shall not be delivered to the insurance corporation until the same is done to the satisfaction of the Treasurer.

40. When an insurance corporation has ceased to undertake insurance in the province after the notice hereby required it shall pay the losses arising from policies not re-insured or surrendered as if it had continued to do business in the province.

41. Upon making application for securities the insurance corporation shall file with the Treasurer a list of all contracts within the second and thirty-second sections of this Act which have not been re-insured as provided by the fortieth section of this Act or have not been discharged; and it shall at the same time publish in *The Alberta Gazette* a notice that it has applied to the Treasurer for the release of its securities on a certain day, not less than three months after the date of the notice, and calling upon all claimants, contingent or actual, opposing the release, to file their opposition with the Treasurer on or before the day so named, and after that date, if the Treasurer is satisfied that the insurance corporation has ample assets to meet its liabilities under this Act, all the securities may be released to the insurance corporation by an order of the Lieutenant Governor in Council, or a sufficient amount thereof may be retained to cover the claims filed, and the remainder may be released; and thereafter from time to time, as such opposing claims lapse or proof is adduced that they have been satisfied, further releases may be made on the authority aforesaid.

(2) The Lieutenant Governor in Council may require the same notice to be given upon any application for such change of name as is required by *The Companies Ordinance*.

(3) Notice of any change of name shall be forthwith inserted by the insurance corporation in at least one issue of *The Alberta Gazette*.

BOOKS TO BE KEPT BY INSURANCE CORPORATIONS.

44. Every registered insurance corporation, other than a Dominion insurance corporation, shall keep a classification of its contracts and such registers and books of account as may from time to time be directed or authorized by the Treasurer; and if it appears at any time to the Treasurer that such books are not kept in such business-like way as to make at any time a proper showing of the affairs and standing of such insurance corporation he shall thereupon nominate a competent accountant to proceed under his directions to audit such books, and to give such instructions as will enable the officers of such insurance corporation to keep them correctly thereafter, the expense of the accountant to be borne by the insurance corporation to which he is sent, and shall not exceed ten dollars per day and necessary travelling expenses; the account for such audit and instructions shall be certified and approved by the Treasurer and thereupon shall be payable forthwith by the insurance corporation.

SUPERINTENDENT OF INSURANCE.

49. The Lieutenant Governor in Council may appoint an officer to be called the superintendent of insurance, who shall act under the instructions of the Treasurer, and his duties shall include examining into and reporting to the Treasurer from time to time upon all matters connected with insurance in this province.

(2) Neither the superintendent, nor any officer under him, shall be interested as a shareholder, directly or indirectly, in any insurance company.

50. The salary of the superintendent shall be such sum per annum as the Lieutenant Governor in Council shall from time to time determine; and the Lieutenant Governor in Council may provide from time to time such assistance as may be found necessary, and may appoint a deputy of such superintendent.

INSPECTION—REGISTER.

51. The superintendent shall keep on file the various documents required by this Act to be filed in his office, and shall personally or by deputy visit the head or chief office in Alberta of every registered insurance corporation other than a Dominion insurance corporation at least once in every year, and shall carefully examine the condition and affairs of each such insurance corporation and report thereon to the Treasurer as to all matters requiring his attention and decision.

52. In order to facilitate the inspection of the books and papers of any such insurance corporation such insurance corporation may be required by the superintendent, with the approval of the Lieutenant Governor in Council, to produce the said books and papers at its head or chief office in Alberta, or to such other convenient place as the superintendent may direct. The officer or officers of the insurance corporation who have custody of the books shall be entitled to be paid by the insurance corporation for the actual expenses of such attendance.

53. The superintendent shall from such examination prepare and lay before the Treasurer an annual report of the condition of the business of every registered insurance corporation as ascertained from such inspection, and such report may be published forthwith after the completion thereof.

54. It shall be the duty of the officers or agents of the insurance corporation to cause their books to be open for the examination of the superintendent, and otherwise to facilitate the examination so far as may be in their power; and the superintendent or his deputy shall have power to examine under oath any officer or agent of the insurance corporation relative to its business.

55. It shall also be the duty of the officers and agents of the insurance corporation to furnish the superintendent, on his request, with full information as to the total liability of the insurance corporation, if provincial, in respect of unearned premiums upon all outstanding unmatured policies, and, if foreign, in respect of unearned premiums upon all its outstanding unmatured policies of insurance upon property in Alberta.

56. 57. Every director, officer, manager, agent, collector, auditor or employee of an insurance corporation who knowingly makes or assists to make any untrue entry in any books of any such insurance corporation, or who refuses or neglects to make any proper entry therein, or to exhibit the same or to allow the same to be inspected, and extracts to be taken therefrom, shall be liable on summary conviction thereof to a fine not exceeding fifty dollars and costs, and, in default of payment to imprisonment for a term not exceeding six months.

58. If it appears to the superintendent that the assets of any insurance corporation are not sufficient to justify its continuance of business, or that the insurance corporation is unsafe for the public to effect insurance with, he shall make a special report on the affairs of the insurance corporation to the Treasurer to that effect.

59. After full consideration of such report and a reasonable time being given to the insurance corporation to be heard, and if, after such further inquiry and investigation (if any) as he may see proper to make, the Treasurer reports to the Lieutenant Governor in Council that he agrees with the superintendent in the opinion expressed in his report, then, if the Lieutenant Governor in Council also concurs in such opinion, he may by order suspend or cancel the corporate powers of the insurance corporation, other than a Dominion corporation, in Alberta, and thereafter it shall not be lawful for such insurance corporation to do any further business in the province, until the suspension or prohibition is removed by the Lieutenant Governor in Council, and the corporate powers of the insurance corporation in the province restored.

60. Notice of the suspension or cancelling of the corporate powers in the province of any insurance corporation shall be published in *The Alberta Gazette*; and thereafter any person undertaking insurance on behalf of the insurance corporation, except for winding up its affairs pursuant to this or any other Act, shall be liable on summary conviction thereof to a penalty not exceeding \$100.00 and costs.

61. Wherever the affairs of any registered insurance corporation other than a Dominion insurance corporation appear to require the same the superintendent, with the approval of the Lieutenant Governor in Council, may, at the expense of the insurance corporation, have abstracts prepared of its books and vouchers and a valuation made of its assets and liabilities; and the certificate of the superintendent approved of by the Treasurer shall be conclusive as to the expenses to be paid by the insurance corporation in respect thereof.

62. The Treasurer's certificate, or approval of an account certified by the superintendent, shall, as to the amount payable by any insurance corporation under the forty-fourth and sixty-first sections of this Act be held to be conclusive.

IMPAIRMENT OF CAPITAL AND PAYMENT OF DIVIDENDS.

63. Every registered fire or inland marine insurance company, other than a Dominion company, shall at all times maintain assets in the province at least equal in value to the total of the unearned premiums upon all outstanding unmatured policies upon property in the province, calculated *pro rata* for the times unexpired, together with the amount of matured claims for losses in the province, and all its other liabilities of every kind in the province.

64. No dividend shall be paid by any such company while its paid up capital is impaired or while its assets are less than the amount required by the next preceding section, nor shall any dividend be paid which would reduce its assets below the said amount or impair its capital.

65. If it appears to the superintendent at any time that the assets of any such company fall below the requirements of section 63 he shall report the fact to the Treasurer, and state whether or not the company appears to him to have paid any dividend in contravention of the last preceding section, and the Treasurer, after a full consideration of the matter and after giving the company a reasonable opportunity to be heard, may either recommend to the Lieutenant Governor in Council, the cancellation by him of the corporate powers of the company in the province, who may if he concurs in such recommendation order the cancellation of the same, or the Treasurer may, upon such terms and conditions as he may deem proper, limit a time within which such company shall make good the deficiency, and upon the company's failure to make good such deficiency within the time so limited, such corporate powers in the province shall be cancelled by the Lieutenant Governor in Council upon the report of the Treasurer recommending the same.

66. If at any time it be found that the assets of any such company are less than the amount required by section 63, by an amount equal to twenty per cent. or more of the total amount of the said unearned premiums, calculated as aforesaid, or that the company has paid any dividends in contravention of section 64, it shall be the duty of the Treasurer to report the same to the Lieutenant Governor in Council, whereupon the company's corporate powers in the province shall be cancelled by order of the Lieutenant Governor in Council.

FIRE INSURANCE.

67. Every registered fire insurance company may insure or re-insure any property in which the assured has an insurable interest against damage or loss by fire, lightning or explosion, whether the same happens by accident or from any other cause, except that of design on the part of the assured.

(2) A registered fire insurance company insuring any mercantile or manufacturing risk, may either by the same or by a separate contract insure the same risk against loss or damage arising from defects in or injuries from sprinklers or other fire extinguishing appliances.

68. Fire insurance contracts shall not exceed the term of three years; and the insurance of mercantile and manufacturing risks shall, if on the cash plan, be for a term not exceeding one year, but any policy may be renewed by the delivery of a renewal receipt or a new premium note.

69. On the face of a policy of fire insurance there shall appear the name of the insurer, the name of the assured, the name of the person or persons to whom the insurance money is payable, the premium or other consideration for the insurance, the subject matter of the insurance, the maximum amount or amounts which the insurer contracts to pay, the event on the happening of which payment is to be made and the term of the insurance.

(2) On every contract of insurance issued by a registered fire insurance company there shall be printed, stamped, or written the words "Issued on application submitted by (*with name of agent filled in*)", authorized resident agent at (*with name of place filled in*)" but if the contract is countersigned or is to be countersigned before delivery by an authorized resident agent, the provisions of this subsection shall not apply.

(3) A policy may contain a co-insurance clause, but any such policy shall have printed or stamped across its face in large type and in red ink the words "This policy contains a co-insurance clause", and if these words are not so printed or stamped such clause shall not be binding on the assured.

(4) Any stipulation or term of the contract, other than those above stated, if held to be not just and reasonable by a court or a judge before whom a question relating thereto is tried, shall not be binding on the assured.

(5) The conditions set forth in schedule C to this Act shall, as against the insurer, be deemed to be part of every contract in force in the province with respect to any property therein or in transit therefrom or thereto, and shall be printed on every

policy with the heading "Statutory Conditions", and no stipulation to the contrary, or providing for any variation, addition or omission shall be binding on the assured unless evidenced in the manner prescribed by sections 70 and 71.

(6) The said conditions shall be deemed to have been in force from the first day of January, 1915, but the provisions of this Act as to printing the same on the policies shall not be imperative until on and after the first day of January, 1916.

70. If the insurer desires to vary the statutory conditions or to omit any of them, or to add any new condition, there shall be added immediately after such conditions words to the following effect, which with any such variation, addition or reference to omissions, shall be printed in conspicuous type and in red ink:

VARIATIONS IN CONDITIONS.

"This policy is issued on the above statutory conditions, with the following variations, omissions and additions, which are, by virtue of *The Alberta Insurance Act*, in force so far only as they shall be held to be just and reasonable to be exacted by the company."

71. No such variation, omission or addition, unless the same is distinctly indicated and set forth in the manner above prescribed, shall be binding on the assured; but on the contrary, the policy shall, as against the insurer, be subject to the statutory conditions only.

72. Any such variation, omission or addition, unless held to be just and reasonable, shall be null and void.

73. It shall be optional with the insurer to pay or allow claims, wholly or in part, which are void under any statutory condition.

74. Where the loss, if any, under any policy has with the consent of the company been made payable to some person or persons other than the assured as mortgagee or mortgagees said policy shall not be cancelled by the company upon the application of the assured nor in any case without reasonable notice to the said mortgagee or mortgagees.

75. Where, by reason of necessity, accident or mistake, any condition of a contract of insurance on property in the province as to the proof to be given to the insurer after the occurrence of the event insured against, has not been strictly complied with, or where after statement or proof of loss has been given in good faith by or on behalf of the assured, in pursuance of any condition of such contract of insurance, the insurer, through its agent or otherwise, objects to the loss upon other grounds than for imperfect compliance with such conditions or does not within a reasonable time after receiving such statement or proof notify the assured in writing that it is objected to, stating the particulars in which the same is alleged to be defective, and so from time to time, or where, for any other reason, it is held to be inequitable that the insurance should be deemed void or

forfeited by reason of imperfect compliance with such condition, no objection to the sufficiency of such statement or proof or amended or supplemental statement or proof, as the case may be, shall be allowed as a defence by the insurer or a discharge of his ability on such contract of insurance wherever entered into.

76. After any loss or damage to insured property the insurer by a duly accredited agent, shall have an immediate right of entry and access sufficient to enable him to survey and examine the property, and to make an estimate of the loss or damage, but the insurer shall not be entitled to the disposition, control, occupation or possession of the injured property, or of the remains or salvage thereof, unless the insurer undertakes re-insatement, or accepts abandonment of the property.

(2) After any loss or damage to insured property, it shall be the duty of the assured when, and as soon as it is practicable, to secure the insured property from damage, or from further damage, and to separate as far as reasonably may be, the damaged from the undamaged property, and to notify the insurer when such separation has been made, and thereupon the insurer shall be entitled to entry and access sufficient to enable him to make an appraisalment or particular estimate of the loss or damage.

(3) The insurer and the assured, instead of proceeding by arbitration under statutory condition 22, may at any time after the loss or damage make a joint survey, examination, estimate or appraisalment of the loss or damage, in which case the insurer shall be deemed to have waived all right to make a separate survey, examination, estimate or appraisalment thereof.

77. Where proofs of loss are made by any person other than the assured, the insurer shall be entitled to have the assured examined under oath touching the loss or damage before the District Court Judge of the judicial district in which the assured resides, and the procedure shall be the same as that upon an examination for discovery in an action.

EXAMINATION OF COMPANY'S AFFAIRS. RECEIVER.

78. The Lieutenant Governor in Council may, when he deems it expedient, direct an inquiry to be made by a commissioner or commissioners into the affairs of any insurance corporation, under the provisions of *An Act respecting Inquiries Concerning Public Matters*, being chapter 2 of the Statutes of 1908, insurance and the undertaking thereof being hereby declared to be "public business" within the meaning of the said Act.

79. After receiving the report the Attorney General may be authorized by the Lieutenant Governor in Council to take such action as may be taken by a contributory under *The Companies Winding Up Ordinance*.

LIQUIDATION AND WINDING UP.

80. The corporate powers of any provincial insurance corporation, whether incorporated under a special or general Act of the Legislature, shall be forfeited by nonuser during any

continuous period of four years, ending after the coming into force of this Act, whether commencing before or after such coming into force, or if, after an insurance corporation has undertaken contracts within the intent of this Act, such insurance corporation discontinues business for one year, or if it ceases to be a registered insurance corporation, or if its corporate powers in Alberta are otherwise cancelled, the said corporate powers shall be forfeited, except for the sole purpose of winding up its affairs; and a judge of the Supreme Court of Alberta, upon the petition of the Attorney General or of any person interested, may, by judgment or order, limit the time within which the insurance corporation shall settle and close its accounts, and may for this specific purpose direct it to be wound up under *The Companies Winding Up Ordinance*.

81. When an insurance corporation proposes to go into voluntary liquidation, under the provisions of *The Companies Winding Up Ordinance*, at least one month's notice in advance shall be given to the Treasurer; the like notice shall also be published by the insurance corporation in two consecutive issues of *The Alberta Gazette*, and in some newspaper should the Treasurer so require; and the notice shall state the date at which contracts shall cease to be taken by the insurance corporation, also the name and address of its liquidator, or its intention to apply on a stated date for the appointment of a liquidator.

82. The Treasurer may, at any time before a permanent liquidator is appointed, appoint a provisional liquidator, who shall forthwith take charge of the affairs of the insurance corporation and shall act until a permanent liquidator is appointed.

83. The remuneration to be paid to any liquidator appointed under the provisions of the preceding section shall be fixed by the Treasurer, and such remuneration and all expenses and outlay in connection with such appointment, together with all expenses and outlay of the provisional liquidator while he acts in such capacity, shall be borne and paid by the insurance corporation; and all such remuneration, expenses and outlay shall form a first lien or charge upon the assets of the insurance corporation, and the Treasurer may pay the same out of the securities deposited with him by the insurance corporation.

84. 85. When any insurance corporation is wound up, each person contracted with on the cash plan shall be entitled to a refund from the insurance corporation of the unearned proportion of the cash premium calculated from the date at which the insurance corporation according to the notice as provided for by this Act, ceased to undertake contracts; but this shall not destroy or defeat any other remedy such person may have against the insurance corporation in respect thereof or for any other cause.

86. Every assignee or liquidator of an insurance corporation shall, until the affairs of the insurance corporation are wound up and the accounts are finally closed, within seven days after the close of each month, file with the court or other authority appointing him, and also with the Treasurer, detailed schedules showing in such forms as may be required receipts and expenditures, and also assets and liabilities, and he shall, whenever, by the authority appointing him or by the Treasurer, required so to do, exhibit the office books and vouchers, and furnish such other information respecting the affairs of the insurance corporation as may be required; and any assignee or liquidator refusing or neglecting to furnish such information shall, for each offence, be subject to a penalty of not less than fifty dollars nor more than two hundred dollars, to be recovered with costs on behalf of His Majesty for the use of the province; and he shall in addition render himself liable to be dismissed or removed.

INSURANCE IN UNREGISTERED COMPANIES.

87. Save as hereinafter provided, no person shall insure or cause to be insured any property whatever, real or personal, situate in, or described in any policy, interim receipt, or insuring document as situate in any part of the province against fire loss in any provincial or foreign company which is not registered under this Act.

88. Any person may insure any property situate in the province, in which he has an insurable interest, with any foreign company, which is not registered under this Act, and any person may also insure with persons who reciprocally insure for protection only and not for profit; and any property insured under this section may be inspected and any loss incurred in respect thereof adjusted, provided:

1. That such insurance is effected outside of Canada without any solicitation whatsoever directly or indirectly on the part of such company or persons, and that such company or persons, as the case may be, do not undertake insurance within the province;

2. That any person (or any officer, agent or employee of any such person, having any actual knowledge of the facts) procuring any insurance against fire on any property, real or personal in the province, or described in any policy, interim receipt, or insuring document as situate in any part of the province in any such company or with any such persons, shall forthwith, and not later than one month from the effecting of any such insurance, or of the receipt of any such policy, interim receipt, or insuring document issued by or on behalf of such company or persons, whichever shall be first in point of time, notify the superintendent of insurance in writing under oath of the terms of such insurance, the company with which such insurance is placed, and the amount of premium paid or payable, or premium notes given or to be given, or mutual liability assumed in connection therewith, and shall, at the same time, pay to the Treasurer for the benefit of the province a sum equal to fifty per centum of the premium paid or payable, or premium note given or to be given, or mutual liability assumed in connection with such insurance.

89. It shall be competent for the Treasurer, or the Lieutenant Governor in Council, on application made by or on behalf of any person, to permit contracts of insurance to be made or entered into without the province with a foreign company not registered under this Act, under such regulations and restrictions as may be deemed necessary and expedient.

PENALTIES AND PROSECUTIONS.

90. Any person or any insurance corporation violating any of the provisions of this Act or of any rules or regulations made thereunder or omitting or refusing or neglecting to fulfil, perform, observe or carry out any duty or obligation created or imposed by this Act or any rules or regulations made thereunder shall, unless a special penalty is otherwise provided by this Act, be liable upon summary conviction to a penalty of not less than \$20.00 and costs and not more than \$200.00 and costs for every such offence, and in default of payment thereof forthwith to imprisonment for a term not exceeding three months.

91. In any prosecution under this Act the burden of proof shall be upon the accused.

FURTHER DEPOSIT BY FOREIGN MUTUAL HAIL COMPANIES.

92. Every foreign mutual hail insurance company shall, in addition to the deposit required by sections 20 and 21 of this Act, on or before the first day of March in each and every year until the sum of fifteen thousand dollars, exclusive of any deposit under the provisions of sections 20 and 21, is deposited as herein provided, deposit with the Treasurer either in cash, or in any stock debentures or other securities approved by the Treasurer, an amount equal to two per centum of the total gross premiums or premium notes paid or payable or assessments made in respect of all insurance undertaken within the province, during the preceding calendar year.

(2) The provisions of this Act as to proof of ownership, payment of interest, administration and release of securities shall, *mutatis mutandis*, apply to securities deposited under the provisions of this section.

(4) Any such company undertaking insurance within the province during the year 1915 shall make the deposit required by this section on or before the 15th day of May, 1915.

(5) Any such company, refusing, omitting or neglecting to make the deposit required by this section within the time or times so limited, shall be liable to a penalty of not less than \$100.00 per day to be paid to the Treasurer for the use of the province for each and every day during which such refusal, omission or neglect continues, and in addition thereto to have its corporate powers within the province suspended or cancelled by the Lieutenant Governor in Council.

MISCELLANEOUS.

93. All moneys payable or becoming payable to the Treasurer, under this Act, or under *The Alberta Insurance Act* heretofore in force, shall be a debt due to the Treasurer, and shall be recoverable by him by action in any court of competent jurisdiction.

94. Every agent of any registered company who receives or collects any premium moneys as such agent shall be responsible in a trust or fiduciary capacity to such company and such premium moneys shall not be retained when paid to him by the assured over and beyond the term stipulated in his agency contract or agreement.

95. All fees paid by any insurance corporation under *The Alberta Insurance Act* and amendments heretofore in force shall be deemed to have been taxes paid as if this Act had been in force at the time of the several payments thereof.

97. For the purposes of his duties under this Act, or under any other Act relating to insurance, the superintendent may require to be made, and may take and receive affidavits, statutory declarations and depositions, and may examine witnesses upon oath; and he shall have the same power to summon officers of corporations, receivers and liquidators, and other persons to attend as witnesses to enforce their attendance, and to compel them to produce books, documents and things, and to give evidence as any court has in civil cases.

98. No company incorporated elsewhere than in Canada shall have corporate powers in the province conferred upon it under the provisions of section 6 of this Act, unless it shows to the satisfaction of the Treasurer that it has carried on successfully for a period of at least five years the class or classes of insurance which it proposes to undertake.

99. Where a contract of insurance other than one of life insurance has been delivered it shall be as binding on the insurer as if the premium had been paid, although it has not in fact been paid, and although delivered by an officer or agent of the insurer, who had not authority to deliver it.

(2) This section shall have effect notwithstanding any agreement, condition or stipulation to the contrary.

(3) Where the premium is paid by a cheque or a promissory note and the cheque is not paid on presentation or the promissory note at maturity the contract shall at the option of the insurer be void.

100. The fact that any insurance corporation is in arrears in payment of any tax or fee imposed upon it by this Act may be pleaded to any action brought by it and if established shall be an effectual bar to such action until such arrears are paid or extinguished.

SCHEDULE C.

STATUTORY CONDITIONS.

1. If any person insures property and causes the same to be described
 otherwise than as it really is to the prejudice of the company, or misrepres-
 ents or omits to communicate any circumstance which is material to be
 made known to the company, in order to enable it to judge of the risk it
 undertakes, such insurance shall be of no force in respect to the property
 in regard to which the misrepresentation or omission is made.

2. Any change, material to the risk, and within the control or knowledge
 of the assured, shall avoid the policy as to the part affected thereby, unless
 the change is promptly notified in writing to the company or its local agent;
 and the company when so notified may return the unearned portion, if any,
 of the premium which has been paid for the unexpired period and cancel
 the policy, or may demand in writing, by registered letter addressed to the
 assured at his last post office address notified to the company, and where
 no address notified then to the post office of the agency from which the
 application was received, an additional premium, which the assured shall,
 if he desires the continuance of the policy, within fifteen days pay to the
 company, and if he neglects to make such payment within fifteen days after
 receiving such demand the policy shall be no longer in force.

3. If the assured now has any other insurance on any property covered
 by this policy which is not disclosed to the company or hereafter effects
 any other insurance thereon without the written assent of the company,
 he shall not be entitled to recover in excess of sixty per cent. of the loss or
 damage in respect of such property; but if for any fraudulent purpose the
 assured does not disclose such other insurance to the company this policy
 shall be void.

(a) If within two weeks after written notice of such other insurance or
 of any intended insurance, or after that time and before such other insurance
 is effected, the company does not dissent by notice in writing to the assured,
 it shall be deemed to have assented thereto.

4. In the event of there being any other insurance on the property herein
 described at the time of the happening of any loss or damage in respect thereof,
 then this company shall be liable only for the payment of a rateable propor-
 tion of such loss or damage or of such amount as the assured shall be entitled
 to recover as provided by condition No. 3.

5. After application for insurance, if the same is in writing signed by the
 assured, it shall be deemed that any policy sent or delivered to the assured
 is intended to be in accordance with the terms of the application, unless
 the company points out in writing, the particulars wherein the policy differs
 from the application. If the policy has been issued on verbal application
 or instructions of the assured it shall be deemed to be in accordance with
 such application or instructions, unless the assured points out to the com-
 pany in writing the particulars wherein the policy differs from such applica-
 tion or instructions.

6. No condition of the policy, either in whole or in part, shall be deemed to have been waived by the company, unless the waiver is clearly expressed in writing, signed by an agent of the company.

7. Any officer or agent of the company who assumes on behalf of the company to enter into any written agreement relating to any matter connected with the insurance shall be deemed *prima facie* to be the agent of the company for the purpose.

8. Any written notice to the assured may be by letter delivered to the assured or by registered letter addressed to him at his last post office address notified to the company or where no address is notified and the address is not known, addressed to him at the post office of the agency, if any, from which the application was received.

9. Any written notice to the company may be delivered at the head office or chief agency of the company in the province in which the property is situate, or sent by registered post addressed to the company, its manager or agent, at such head office or chief agency or may be delivered or sent by registered post to an authorized agent of the company.

10. The insurance may be terminated by the company by giving to the assured fifteen days' notice in writing or five days' personal notice to that effect, and if on the cash plan by tendering therewith a rateable proportion of the premium paid, for the unexpired term, calculated from the termination of the notice, and the policy shall cease after such notice or notice and tender, as the case may be, and the expiration of the fifteen days or five days, as the case may be.

11. The insurance, if on the cash plan, may also be terminated by the assured by giving written notice to that effect to the company or its authorized agent, in which case the company may retain the customary short rate for the time the insurance has been in force, and shall repay to the assured the balance of the premium paid.

12. If the property insured is assigned without a written permission endorsed hereon by an agent of the company duly authorized for such purpose, the policy shall thereby become void; but this condition does not apply to change of title by succession or by operation of the law, or by reason of death.

13. Money, books of account, securities for money, and evidences of debt or title, are not insured.

14. The company is not liable for the losses following, that is to say:

(a) For the loss of property owned by any other person than the assured, unless the interest of the assured is stated in or upon the policy; nor for loss beyond the actual value destroyed by fire nor for loss occasioned by Ordinance or law regulating construction or repair of buildings;

(b) For loss caused by invasion, insurrection, riot, civil commotion, military or usurped power;

(c) Where the insurance is upon buildings or their contents for loss caused by the want of good and substantial brick or stone or cement chimneys; or by ashes or embers being deposited, with the knowledge and consent of the assured, in wooden vessels; or by stoves or stovepipes being, to the knowledge of the assured, in an unsafe condition or improperly secured;

(d) For loss or damage to goods destroyed or damaged while undergoing any process in or by which the application of fire heat is necessary;

(e) For loss or damage occurring to buildings or to their contents while the buildings are being altered or repaired by carpenters, joiners, plasterers, or other workmen, and in consequence thereof, unless permission to execute such repairs or alterations has been previously granted in writing, signed by a duly authorized agent of the company, but fifteen days are allowed in each year for incidental alterations or repairs without such permission;

(f) For loss or damage occurring while petroleum, rock, earth or coal oil, camphene, gasoline, burning fluid, benzine, naphtha or any liquid products thereof, or any of their constituent parts (refined coal oil for lighting purposes only, not exceeding five gallons in quantity, or lubricating oil not being crude petroleum nor oil of less specific gravity than required by law for illuminating purposes, not exceeding five gallons in quantity, excepted) or more than twenty-five pounds weight of gunpowder is or are stored, kept or used by the assured or to his knowledge by any other person under his control, in the building insured or containing the property insured unless permission is given in writing by the company. In the case of gasoline not more than a quart shall be stored, kept, or used upon the premises without a permit;

(g) Where the building insured or containing the property insured be, or becomes vacant and unoccupied for a period of thirty days to the knowledge of the assured without the consent of the company in writing.

15. The company shall make good loss or damage caused by the explosion of coal or natural gas in a building not forming part of gas works, and loss or damage by fire caused by any other explosion or loss or damage caused by lightning, whether fire ensues therefrom or not, but if dynamos, excitors, lamps, switches, motors, or other electrical appliances or devices are insured any loss or damage to them caused by lightning or other electrical currents, artificial or natural, is expressly excluded and the company is liable only for such loss or damage to them as may occur from resultant fire originating outside the machines themselves.

16. Where property insured is only partially damaged, no abandonment of the same will be allowed unless by the consent of the company or its agent; and in case of removal of property to prevent damage thereto, the company will contribute to the loss and expenses attending such act of salvage proportionately to the respective interest of the company or companies and the assured; and that part of this policy in excess of its proportion of any loss and of the value of the property remaining in the original location, shall for the ensuing seven days only or for the unexpired term of the policy if less than seven days, cover the property so removed in the new location or locations in the proportion that the value in any one such new location bears to the value in all such new locations.

17. The company instead of making payment, may repair, rebuild or replace, within a reasonable time, the property damaged or lost, giving notice of their intention within fifteen days after receipt of the proofs herein required.

18. Subject to condition 19 proof of loss must be made by the assured, although the loss is payable to a third person.

19. Proofs of loss may be made by the agent of the assured, in case of the absence or inability of the assured himself to make the same, such absence or inability being satisfactorily accounted for, or in the like case or if the assured refuses to do so by a person to whom any part of the insurance money is payable.

20. Any person entitled to make a claim under this policy shall:

(a) Forthwith after loss give notice in writing to the company;

(b) Deliver, as soon after as practicable, as particular an account of the loss as the nature of the case permits;

(c) Furnish therewith a statutory declaration declaring: That the account is just and true; when and how the loss occurred, and if caused by fire how the fire originated, so far as the declarant knows or believes; that the loss did not occur, or if caused by fire, that the fire was not caused through any wilful act or neglect or the procurement, means or contrivance of the assured; the amount of other insurances, and names of other insuring companies; all liens and encumbrances on the subject of insurance; the place where the property insured, if movable, was deposited at the time of the fire;

(d) If required and if practicable, produce books of account, warehouse receipts and stock lists, and furnish invoices and other vouchers, verified by a statutory declaration in support of his claim, and furnish copies of the written portion of all policies, separate as far as reasonably may be the damaged from the undamaged property and exhibit for examination all that remains of the property which was covered by the policy. The evidence furnished under this clause shall not be considered proofs of loss within the meaning of condition 23.

21. Any fraud or false statement in any statutory declaration in relation to any of the above particulars shall vitiate the claim of the person making the declaration.

22. If any difference arises as to the value of the property insured, the property saved, or the amount of the loss, such value and amount and the proportion thereof (if any) to be paid by the company shall, whether the right to recover on the policy is disputed or not, and independently of all other questions, be submitted to the arbitration of some person to be chosen by both parties, or if they cannot agree on one person, then to two persons, one to be chosen by the party assured and the other by the company, and a third to be appointed by the persons so chosen, or in their failing to agree, then by a judge of the district court of the district in which the loss has happened; and such reference shall be subject to the provisions of *The Arbitration Act*; and the award shall, if the company is in other respects liable, be conclusive as to the amount of the loss and the proportion to be paid by the company; where the full amount of the claim is awarded the costs shall follow the event; and in other cases all questions of costs shall be in the discretion of the arbitrators.

23. The loss shall be payable in sixty days after the completion of the proofs of loss, unless a shorter period is provided for by the contract of insurance.

24. Every action or proceeding against the company for the recovery of any claim under or by virtue of this policy, shall be absolutely barred, unless commenced within one year next after the loss or damage occurs.

The inspector of stock shall be entitled to a fee of five cents per head, with a minimum fee of twenty-five cents, for such certificate:

8. No certificate shall be issued by any inspector of stock unless the shipper of such stock produces to him a memorandum of sale signed by the person who, from the brand or brands on such stock, appears to be the owner thereof or unless such person or his agent verbally consents to the granting of the certificate by the inspector.

(2) The provisions of this section shall not apply to any shipper of stock branded with the recorded brand of such shipper but such shipper shall, before receiving the said certificate, deliver to the inspector a memorandum signed by him or his agent, setting forth the age, sex and brands of each animal.

(3) In the case of unbranded stock the shipper shall sign and deliver to the inspector a memorandum setting forth the age, sex and description of each animal and stating from whom each animal was originally acquired by him or his agent.

11. The inspector of stock or brand reader shall be entitled to a fee of ten cents for every animal inspected by him under this Act and not otherwise provided for with a minimum fee of twenty-five cents for each certificate and the said fee shall be paid to the inspector or brand reader before any certificate of inspection is given by him.

16. An inspector of stock or brand reader shall be entitled to a fee of ten cents for each hide inspected and such inspector of stock or brand reader shall be liable to the penalty provided herein if he fails to personally inspect the hide for which a certificate is asked or if he is guilty of negligence in preparing the description of same or if he fails to forward to the Minister on the first of each month a report on all certificates issued, together with the memoranda obtained by him in connection therewith.

17. No person who slaughters any head of cattle shall sell the hide to anyone but a licensed buyer.

CHAPTER 12.

An Act to Govern and Regulate the Driving or Trailing of Sheep.

(Assented to April 17, 1915.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. This Act may be cited as "*The Sheep Trailing Act.*"

2. Whenever the owner of five hundred or more sheep desires to move same on foot from one point of the province to another distant twenty-five miles or more, he shall send a notice of such intention to the live stock commissioner of the province, at least ten days before starting on the proposed move. Said notice shall set out—

- (a) The full name and address of the owner of the sheep to be trailed;
- (b) The starting point;
- (c) The objective point;
- (d) The proposed route;
- (e) The number of sheep to be trailed;
- (f) The probable date of starting;
- (g) The name of responsible person who will be in charge of the sheep;

Provided that said notice shall not be necessary where the sheep are being driven directly to market.

3. Sheep that are being driven or trailed over public roads, trails or road allowances of the Province of Alberta must be in charge of the owner, or his agent, whose duty it shall be to see that the sheep are kept moving and under the control of the herders, and that they travel a minimum total distance of five miles a day.

4. The owner, or agent of any owner of sheep which are being driven over the roads, trails and road allowances in the Province of Alberta shall keep said sheep to such roads, trails and road allowances, and any owner or agent who allows said sheep, or any of them, to enter on the lands or rights of any person holding homestead entry, patent, lease or permit shall be liable for all damage done thereon, whether said lands are fenced or not, any provision of *The Fence Ordinance* to the contrary notwithstanding.

5. When sheep that are being driven or trailed enter upon private land or land held under lease or permit they may be seized by the owner, lessee or permittee of such lands and held until all damages resulting from said entrance shall have been paid.

6. When sheep have been thus seized and the parties cannot agree on the amount of the damages, or if the amount is not paid forthwith, the person making the seizure shall report same to the nearest justice of the peace without delay.

7. The justice of the peace shall, on receiving notice of the seizure, appoint three disinterested persons to survey and assess the damage done, and upon receipt of their report shall order the payment of the amount, with costs, by the owner of the sheep or his agent to the party suffering the damage, and upon such payment shall order the release of the sheep.

8. If the owner of the sheep or his agent refuses or neglects to pay the amount as ordered by the justice of the peace, he may order the sheep under seizure to be sold to satisfy the claim for said amount and in the order of sale may prescribe such notice to be given, such further costs to be paid and such other conditions as to him may appear just and reasonable.

9. Nothing in this Act shall prevent any person who has suffered damages because of sheep entering upon his lands from recovering compensation in any court of competent jurisdiction from the owner of the sheep through which such damage has been caused, any provision of *The Fence Ordinance* to the contrary notwithstanding.

CHAPTER 14.

An Act respecting Seed Grain, Fodder, and other Relief.

(Assented to April 17, 1915.)

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. A memorandum of agreement dated the thirteenth day of February, 1915, made between the Honourable William James Roche, Minister of the Interior, on behalf of the Dominion of Canada, and the Honourable Arthur L. Sifton, on behalf of the Government of Alberta (which memorandum of agreement is set out in the schedule to this Act) is hereby approved, ratified and confirmed, and the Lieutenant Governor in Council is hereby declared to have had power, and shall have power by order in council to do all acts deemed necessary or expedient to be done to carry out and perform on the part of the Government of Alberta the terms of the said agreement.

2. Any and all orders in council heretofore made for the purposes aforesaid are hereby approved, ratified and confirmed.

3. The moneys agreed to be paid by any person for seed grain, fodder for animals or other goods by way of relief in consideration of the advance to him by His Majesty the King in the right of the Dominion of Canada (hereinafter called His Majesty) of such seed grain, fodder for animals or other goods by way of relief, together with interest thereon at the rate of five per centum per annum until paid, shall be a debt due by such person to His Majesty and shall be a charge upon any real property of such person and upon any crop of any kind now being or hereafter grown on any land by such person having priority over all other liens, taxes, charges or other encumbrances, whenever created, upon such crop, and so far as such moneys are agreed to be paid in consideration of the advance of seed grain and fodder for animals, having priority over all other liens, taxes, charges and other encumbrances, whenever created, upon such real property; such charge shall be in addition to any other remedy which His Majesty may have to enforce payment of the said amount and shall be capable of enforcement by seizure and sale of the said real property or crop when growing or when cut, under warrant signed by the Minister of the Interior of Canada (hereinafter called the Minister) or by anyone authorized by him to sign such warrant wherever and whenever any of the said property may be found, and in respect thereof His Majesty shall have and be entitled to all the remedies of a mortgagee in the same manner as if the said amount were secured by a registered charge against the said land or by a chattel mortgage duly filed against the said crop and having the priorities herein set out.

4. The Minister may send to the registrar of land titles for each land registration district, a statement showing in alphabetic order the name of each person to whom an advance of seed grain, fodder for animals or other goods by way of relief has been made as aforesaid and showing the land for the cultivation of which such advance has been made, the amounts agreed to be paid by such persons for:

(a) Seed grain and fodder for animals;

(b) Other goods by way of relief;

and the date or dates from which interest is payable, and the registrar shall, except as provided in subsection 6 hereof, upon receipt of such statement enter in the register against such land, and endorse upon any duplicate certificate of title thereafter issued therefor, a memorandum as follows:

"This land is subject to a lien in favour of His Majesty in the right of the Dominion of Canada for the sum of dollars for seed grain and fodder for animals and interest thereon at five per centum per annum from the day of 191...., and for the sum of dollars for other goods by way of relief and interest thereon from the day of 191...."

(2) In respect of any other land in his land registration district the registrar shall treat each item in the statement as if it were a writ of execution against the land of such person for the amount shown thereby to be owing by such person, and may use the form herein provided in making the memorandum required to be made by section 77 of *The Land Titles Act*.

(3) Instead of entering a memorandum in the execution docket the registrar may use a separate docket to be known as the "seed grain docket."

(4) The Minister shall also cause the said statement to be published in the official gazette.

(5) In case it shall be made to appear to the Minister that any land against which such memorandum is entered, was not owned by the person agreeing to pay for such advances of seed grain, fodder for animals or other goods by way of relief when such seed grain, fodder for animals or other goods by way of relief, or any part thereof, was advanced, and was not interested therein under an agreement or contract for purchase thereof, and that the owner of such land or the person interested therein under an agreement or contract for purchase thereof did not join in such agreement to pay nor consent in writing to the same being given or to such advances, or only consented to part thereof, the Minister may require the registrar to cancel the said memorandum, or to reduce the charge stated therein to such amount as appears to the Minister to have been so consented to, and when so cancelled such land shall be discharged from the lien represented thereby, or if the amount is directed to be reduced as aforesaid the memorandum shall have the same effect as if the amount as so reduced had been the original amount entered in such memorandum.

(6) The Minister may also send to each registrar as aforesaid a statement showing in alphabetic order the name of each person (if any) who has so agreed to pay for seed grain, fodder for animals or other goods by way of relief, and who appears to be a tenant

of the land for the cultivation of which such seed grain, fodder for animals or other goods by way of relief were furnished and whose landlord has not joined in or consented in writing to such agreements or advances, and shall also furnish such registrar with the other particulars mentioned in subsection 1 of this section, and as to such tenants no memorandum shall be entered or endorsed as aforesaid as against such land unless the same is otherwise subject to a lien under this Act.

5. The Minister may by letter direct any registrar of land titles to enter a memorandum upon the certificate or certificates of title in the register to any land mentioned in such letter to the effect that the person mentioned in such letter has paid the amount charged against such land for advances of (a) seed grain and fodder for animals, or (b) other goods by way of relief, or both; and the registrar shall on receipt of such letter make such memorandum accordingly, and thereupon such land shall be discharged to the extent of the amount so paid, as appearing by such memorandum.

6. The Minister may, by letter, direct any registrar of land titles to enter a memorandum in the execution docket or in the seed grain docket as the case may be, to the effect that all the lands and crops of the person mentioned in such letter are released from all liens under this Act, and upon receipt of such letter the registrar shall make such memorandum accordingly, and thereafter such land and crops shall be absolutely released and discharged from all liens and claims under this Act.

7. All rights, securities and priorities of every kind given to or provided for His Majesty under this Act, shall be in addition to and independent of any other rights or securities taken by His Majesty from any person to whom advances of seed grain, fodder for animals or other goods by way of relief have been made as aforesaid, or from any other person on behalf of such person, and any such rights or securities so taken are hereby declared to be legal and binding, and such rights, securities and priorities shall also be in addition to and independent of all other rights and privileges of His Majesty. Such rights, securities and priorities of His Majesty shall in no way be prejudiced by *The Creditors' Relief Act* or by any other Act or law.

8. Notwithstanding anything contained in *The Bills of Sale Ordinance* or in any other Act or law, every document purporting to be a chattel mortgage heretofore or hereafter given or made to or in favour of His Majesty, or of any person representing His Majesty, to secure an advance of seed grain, fodder for animals or other goods by way of relief shall be capable of registration free of charge under *The Bills of Sale Ordinance*, and shall be valid and effective according to the true intent and meaning thereof; and no irregularity, informality, or insufficiency therein or in any affidavit made in connection therewith, nor the failure to make any such affidavit, nor the failure to file and register the said document, or to file or register the same within the time limited by law for that purpose shall render the same invalid; but every document shall bind the crop therein mentioned as fully and effectually to all intents and purposes as if all the provisions

of *The Bills of Sale Ordinance* and of any other Act or law had been strictly complied with and shall have priority over any other mortgage or lien whenever given upon the security of the same crop or any writ of execution against the mortgagor.

9. Any secretary-treasurer of a local improvement district or of any municipality, any Dominion land agent, sub-land agent, homestead inspector, immigration agent or member of the Royal North-West Mounted Police, or any other officer named by the Minister, is hereby declared to have had power and shall have power to administer oaths and take and receive affidavits, declarations and affirmations within this province appearing upon any paper or document taken by His Majesty in respect of, or as security for advances of seed grain, fodder for animals, or other goods by way of relief, and any order in council heretofore made so empowering such persons or any of them is hereby approved, ratified and confirmed.

10. All registrations, annotations, memoranda, entries or other work performed by any registrar of land titles, or by any other officer or employee of the Government of Alberta as provided for in this Act shall be done without fee or charge of any kind, and all publications in the official gazette provided for in this Act shall also be without fee or charge.

11. Any person to whom seed grain, fodder or other goods by way of relief have been advanced as in this Act provided, and who sells or disposes of same or any part thereof, or who neglects or fails to sow in a husband-like manner such seed grain or any part thereof without the consent of the Minister or of such person as may be appointed by the Minister for such purpose, shall be guilty of an offence, and shall be liable, upon conviction, to a fine not exceeding \$500.00 and to imprisonment for any term not exceeding two years or to both.

12. Any lien or charge in favour of His Majesty, for seed grain, fodder for animals or other goods by way of relief, advanced under this Act, or heretofore at any time advanced, a memorandum of which has appeared or shall hereafter appear, upon any letters patent issued by His Majesty, for land in this province shall as respects said land have priority over all other liens, taxes, charges or other encumbrances whenever created or to be created.

13. Prosecutions under the preceding sections may be had before any justice of the peace or police magistrate having jurisdiction in the place where the offence was committed or where the accused person resides, and the proceedings shall be summary.

SCHEDULE.

MEMORANDUM of Agreement between the Honourable W. J. Roche, Minister of the Department of Interior, on behalf of the Government of the Dominion of Canada, and the Honourable Arthur L. Sifton, on behalf of the Government of the Province of Alberta, entered into this Thirtieth day of February, 1915.

Whereas the Government of the Dominion of Canada and the Government of the Province of Alberta recognize that a serious situation exists in a portion

of the said province owing to severe drought which prevailed during the past summer and that the crops in those districts were almost a total failure and that the settlers are in many cases destitute;

And whereas it is generally recognized that to insure the future of the said province, it will be necessary to seed down every available acre of land and endeavour to keep up the production of grain;

And whereas the Government of the Dominion of Canada has undertaken a distribution of relief to the settlers affected as aforesaid;

Therefore it is agreed by the said Minister of the Interior and by the said Honourable Arthur L. Sifton for the Province of Alberta, as follows:

First, That the Dominion Government will undertake the distribution of seed grain and relief other than seed grain to homesteaders on patented and unpatented lands alike and in accordance with their necessities, and within the area described as the drought stricken area. Also outside of the drought stricken area, if found advisable to do so.

Second, That the Provincial Government agrees to afford the Government of Canada the same measure of protection and the same facilities in reference to the collection of advances of seed grain and fodder for animals made to homesteaders on lands now or hereafter patented as is afforded to the Government of Alberta by the *Act respecting Seed Grain*, being chapter 21 of the Statutes of 1908 of the Province of Alberta, as amended; and that the Government of the Province of Alberta shall at the next ensuing session of the Legislature procure the enactment of such legislation as will afford to His Majesty in the right of Canada the same security in respect of seed grain advances and other relief herein mentioned as is provided for His Majesty in the right of the province under the said Act.

Third, That the Province of Alberta hereby agrees to bear the expense of the central distribution office at Winnipeg and of the officers connected therewith in distributing such seed grain and other relief in respect of patented lands.

Fourth, That the Provincial Government will undertake to protect and legalize the liens for seed grain or relief other than seed grain which have already been taken or which will be taken hereafter by the Dominion Government against homesteaders on patented lands within the said Province of Alberta.

Fifth, That in the cases where liens for seed grain or relief other than seed grain have been consented to by homesteaders on unpatented lands, and where such homesteaders subsequently obtain their patents, the Provincial Government will undertake to protect and legalize the collection, by the Dominion Government through their authorized agents, of the amounts of such liens against such lands in the same manner as if the liens had primarily been filed against homesteaders on patented lands, such liens to have priority over all other liens, charges or encumbrances until fully paid.

Sixth, That the Provincial Government will undertake to register, free of charge, with the registrar of land titles for each land registration district, the mortgages given by homesteaders on patented lands within the Province of Alberta, as well as the liens given by homesteaders on unpatented lands, who may subsequently obtain their patents, and against whom such liens should be recorded on account of not having been paid prior to the securing of such patents, the said liens to have priority over all other liens, charges or encumbrances whatsoever until fully paid.

Seventh, That the Minister of the Interior and the Honourable Arthur L. Sifton, of the Province of Alberta, will undertake to have an order in council passed as soon as possible by their respective Government to ratify the agreement herewith; and

Eighth, That the Minister of the Interior and the Honourable Arthur L. Sifton, of the Province of Alberta, will undertake to have their respective Government pass, at their next session of Parliament, the necessary legislation approving, ratifying and confirming the order in council and agreement made for the purposes aforesaid.

In witness whereof the parties hereto have hereunto set their hands the day and year first hereinbefore written.

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

3. Where forms are prescribed any deviation therefrom not affecting the substance nor calculated to mislead shall not vitiate the same and forms to the like effect shall suffice.

4. If anything to be done by or under this Act at or within a fixed time cannot be or is not so done the Minister may by order from time to time appoint a further or other time for doing the same whether the time within which the same ought to have been done has or has not expired, and anything done within the time prescribed by such order shall be as valid as if it had been done within the time fixed by or under this Act.

ORGANIZATION.

5. The council of any municipality may pass a by-law, in form prescribed by the Minister, providing for the union of such municipality with at least nineteen other municipalities in a hail insurance district, for the purpose of indemnifying all persons having an interest in any crop within the limits of any such municipality, against damage to or destruction of such crop by hail; such by-law before coming into force shall be submitted to the resident electors of each municipality and receive the approval of a majority of the number of such resident electors voting thereon, according to the procedure prescribed by *The Rural Municipality Act* for voting on debenture by-laws.

(2) If the required majority of such resident electors of at least twenty municipalities, so proposing to unite, approve of such by-law, the Minister may, by order, establish such municipalities as a hail insurance district:

Provided, however, that after the organization of said hail insurance district any municipality other than those above mentioned may be admitted to all the benefits and rights but subject to all the provisions of this Act upon such terms as by regulation or order the hail insurance board may direct.

HAIL INSURANCE BOARD.

6. The hail insurance district shall be under the direction of a board to be known as "The Hail Insurance Board of Alberta," which board shall consist of three commissioners and shall have power, subject to the provisions of this Act, to adjust, settle and pay all claims of any person having an interest in any crop in the district for indemnity for damage to or destruction of such crop by hail.

(2) One member of such board, who shall be the chairman thereof, shall be appointed by and shall hold office during the pleasure of the Minister.

(3) The two other commissioners shall be appointed by the reeves of the several municipalities composing the hail insurance district, at a meeting thereof to be held at such place and time as is fixed by the Minister; notice of such meeting being sent in writing to the several municipalities. These two commissioners shall hold office for the term of one and two years respectively; the commissioner receiving the highest number of votes being appointed for the longer term.

(4) The successor of each of such two commissioners shall be chosen at a meeting of the reeves of all the municipalities within the hail insurance district to be held annually at such time and place as the board may direct, and the term of each such commissioner shall be two years; provided that the council of any such municipality may appoint to attend at any such meeting on its behalf such other member or officer of the council in lieu of the reeve as by resolution it may determine.

(5) The reeves or other members or officers of the council appointed to attend meetings of the reeves of all the municipalities within the hail insurance district shall be paid by the hail insurance board for the time necessarily occupied in attending such

meeting at the rate of \$4.00 per diem, together with the actual cost of transportation incurred and paid by them.

(6) The Minister may, in the event of the death or resignation of any commissioner, or of his office becoming or being declared vacant, appoint some person to fill such vacancy until same is filled by election or otherwise as herein provided.

(7) The board so appointed, and as from time to time constituted, shall be a corporate body, and shall have power under its corporate name of "The Hail Insurance Board of Alberta" to do all acts and things, to execute all deeds or instruments and to prosecute and maintain all actions and suits at law which in its judgment may be considered necessary to carry out and give effect to this Act.

(8) The board may by resolution authorize its chairman and treasurer to borrow from any person, bank or corporation, such sum or sums of money as the board deem necessary to meet any claims for any year against the hail insurance district for indemnity under this Act, and such loan shall be a debt owing by the hail insurance district, repayable in accordance with the terms of the resolution authorizing the same, and shall also be a first charge upon the taxes levied by any municipality in the hail insurance district for hail insurance purposes, and not paid by such municipality to the board; provided that such loans may be further secured by promissory note or notes of the chairman and treasurer given on behalf of the board, and such board may by the resolution authorizing such loans regulate the amounts of the same and define the note or notes to be given as security therefor; and further provided that any money received by the board from such unpaid taxes upon which such loans are made a charge, shall be, up to an amount equal to the principal and accruing interest of such loans, kept by the board in a separate account, and deposited in a chartered bank in a trust fund to be styled "Hail Insurance Trust Fund," and shall only be paid thereout in repayment of such loans.

(9) The board shall have power to invest any reserve funds or surplus that may be from time to time accumulated in such securities or ways as may be approved by the Minister.

DUTIES OF HAIL INSURANCE BOARD.

7. The hail insurance board shall appoint a secretary-treasurer and an inspector or inspectors, and, subject to the approval of the Minister, may define the duties and fix the remuneration of such officials and such other officials as may from time to time be required.

(2) The duty of the board shall be to superintend the operation of this Act; to receive, adjudicate upon and determine all claims for indemnity hereunder; to receive and distribute all moneys collected and remitted to it for the purposes hereof; to make regulations for the carrying out of the purposes of this Act, and generally to fulfil and to see to the fulfilment by all persons charged therewith of all duties imposed under this Act.

8. The commissioners shall be paid for their services and expenses a per diem allowance of seven dollars, together with

the actual cost of transportation incurred and paid by them for attendance at all meetings of the board.

9. On or before the fifteenth day of November in each year the hail insurance board shall appoint an auditor or auditors who on or before the first day of February in each year shall make a full and complete audit of the books, records and accounts of the board for the year ending on the thirty-first day of January, and shall for the purposes of such audit have free access to the books, records, accounts, vouchers, and receipts of the board, and the board shall on the completion of such audit prepare and publish a complete report of the operations of the board for the preceding year, and a copy of such report shall be furnished to the Minister and to the reeve and secretary-treasurer of each municipality within the hail insurance district. If the board shall neglect to make such appointment, the Minister may appoint an auditor or auditors to make such audit who shall have the like right of access to the books, records, accounts, vouchers and receipts of the board.

CLAIMS FOR INDEMNITY.

10. When any growing crop within the hail insurance district is damaged or destroyed by hail between the sixteenth day of June and the fifteenth day of September, both inclusive, in any year, any person having an interest in such crop and wishing indemnity therefor, shall within three days from the date on which such damage or destruction shall have been sustained give notice to the secretary of the hail insurance board by registered letter addressed to him at Edmonton in the province and such notice shall be in the form to be prescribed by the hail insurance board and shall show the location of the crop, the kind of crop, the number of acres damaged, the percentage of damage done, the nature and amount of the claimant's interest in the crop, the name and address of any other person or persons having an interest in the said crop and the nature and amount of their interest and shall be verified by statutory declaration.

(2) Such notice shall also show the section, township and range in which the claimant resides and his post office address and in case such claimant does not reside within two miles of the crop in respect of which the claim is being made, such notice shall contain the name, section, township and range of some person residing within two miles of such crop who shall be recognized by the inspector as the representative of such claimant for the purposes of inspection.

(3) It shall be the duty of every inspector to make every effort to personally see the claimant or in the absence of such claimant his resident representative, and upon the completion of his inspection to deliver in person to the claimant or his resident representative a complete copy of his report on such inspection.

(4) The maximum indemnity paid for total loss shall be six dollars per acre.

11. Any claimant or his resident representative who is not satisfied with the inspector's report may give notice in writing of his appeal therefrom, and shall within five days from the

delivery of such report to him by the inspector either mail such notice of appeal by registered letter addressed to the secretary of the hail insurance board at Edmonton in the province, or shall within the like period deliver such notice to such secretary in person; the hail insurance board shall hear and consider the allegations of all persons so appealing as soon as conveniently may be, and confirm or vary the report of the inspector as it may deem proper. The decision of the hail insurance board as to the amount of the loss so sustained by any person shall be final and conclusive, and shall not be questioned by any court on any grounds whatsoever.

DISPOSITION OF MONEYS.

12. In any year if it is found by the board that the total taxes levied for hail insurance purposes, together with any surplus that may be on hand, will not be sufficient to pay all the costs of administration and the losses in full, the board shall on or before the fifteenth day of November, after deducting from the total amount of moneys available from the taxes levied and the surplus, if any, an amount sufficient to pay the cost of administration to the end of the then current fiscal year, apportion the balance of the money among the claimants *pro rata*.

(2) From the amount awarded to any person for damage to his crop by hail there shall be deducted by the board the amount owing by the claimant by way of hail insurance tax to the municipality from which the claim arises, and the amount of such tax so deducted shall be paid to the secretary-treasurer of such municipality to be credited by him upon the hail insurance tax owing by such claimant.

(3) If any such claim for indemnity is not paid within thirty days from the fifteenth day of November in the year in which such indemnity is awarded the municipalities composing the hail insurance district shall be severally liable for an amount not exceeding the hail insurance tax due and unpaid by such municipality to the hail insurance board, and the said amount may be recovered with costs by the person entitled to the payment of the claim for indemnity by action in any court of competent jurisdiction.

HAIL INSURANCE TAX.

13. As soon as may be in any year, the hail insurance board shall prepare an estimate of the amount required during the then current year to pay all lawful expenses of the board and also all probable claims for indemnity for damage to or destruction of crops by hail, and also the amount, if any, required to pay all such claims outstanding and shall strike a rate per acre sufficient for the payment of such amounts to be levied equally upon all lands assessable for hail insurance purposes within the hail insurance district, and shall determine the total amount, based upon such rate, and the area of assessable land therein, which each municipality shall contribute for the purposes of the hail insurance district shall on or before the fifteenth day of February in each year forward a statement of such rate and the amount chargeable against each municipality to the Minister, and upon

the same being approved by him shall notify the treasurer of the various municipalities composing the district of such rate and amount.

(2) Every municipality within the hail insurance district shall within thirty days of the receipt from the secretary of the hail insurance board of the notification of such rate and amount pay to the hail insurance board a sum equal to five per centum of the total amount required to be paid by that municipality for hail insurance purposes and shall pay the balance of the amount on or before the fifteenth day of November of the year in which the same is levied:

Provided that with the written consent of the hail insurance board previously obtained the secretary-treasurer of any municipality may withhold from such remittance the total amount of the hail insurance tax levied upon lands title to which is in doubt or in respect to which the right of the municipality to tax is in dispute.

(3) The secretary-treasurer of each municipality shall cause the said rate to be levied equally against all assessable lands in the municipality except lands that are subdivided into blocks and lots according to a plan registered at the land titles office for the land registration district within which such lands are situated and lands held under lease or permit from the Dominion government for the purpose of pasture or for hay, and such taxes shall become payable in accordance with the provisions of this Act as hereinafter provided and may be collected by any means provided for the collection of other municipal taxes.

(4) In the event of any such hail insurance tax remaining unpaid after the thirty-first day of October of the year in which the same is levied there shall be added thereto by way of penalty the sum of one dollar for each quarter section in respect to which such tax remains unpaid and in the event of such tax remaining unpaid after the thirty-first day of December of the year for which the same is levied it shall be subject to the same penalties as are provided for in the case of other municipal taxes.

(5) The secretary-treasurer of each municipality in the hail insurance district shall mail to every person assessed for hail insurance purposes a notice in the following form:

“HAIL INSURANCE TAX NOTICE.

“Take notice that if your hail insurance tax is not paid before the first day of November next, a penalty of one dollar per quarter section will be added to the tax, and in the event of any of such tax remaining unpaid after the thirty-first day of December of the year in which the same is levied, it shall be subject to the same penalties as are provided for in the case of other municipal taxes.

“Dated the.....day of.....
A.D. 19.....”

(6) The amount chargeable against any municipality by the hail insurance board under this Act shall be a debt due by such municipality to the hail insurance board and may be recovered by it by action in any court of competent jurisdiction in Alberta.

(7) The secretary-treasurer of each municipality within the hail insurance district shall on or before the first day of February in each year furnish the secretary of the hail insurance board with a statement setting forth the total acreage of land assessable for hail insurance purposes within the bounds of the municipality.

(8) Upon all sums remaining due and unpaid to the hail insurance board by any municipality on the sixteenth day of November in each year, such municipality shall pay interest at the rate of eight per cent. per annum until fully paid.

(9) Any secretary-treasurer or other officer or person who fails to perform any duty or send any notification or return required of him by this Act or who makes a return that is wilfully false or misleading in any particular or who performs any act forbidden by this Act shall be deemed guilty of an offence and upon summary conviction shall be liable to a fine of not less than ten nor more than fifty dollars, and the provisions of part XV of chapter 146 of the Revised Statutes of Canada, 1906 (known as *The Criminal Code*) shall be applicable to all proceedings for the enforcement of any penalty under this Act.

14. Any person who may be liable to assessment under this Act, and who may be a resident and the owner or occupant of land within a municipality within the hail insurance district, may on or before the first day of May in any year by written notice to the secretary-treasurer of such municipality, withdraw from the operation of this Act any quarter section, as the same may in such notice be described by him, of land in respect of which he is liable to assessment hereunder upon satisfying the council and the hail insurance board as hereinafter provided that the same is an unpatented quarter section held by him under homestead entry from the Dominion of Canada upon which there are less than twenty-one acres under cultivation; and such land so described shall be exempt from such tax for the then current year.

(2) The council of each municipality within the hail insurance district shall during the month of May consider each such notice of withdrawal within their municipality and if satisfied that the land proposed to be withdrawn may properly be withdrawn under the next preceding subsection, shall authorize the withdrawal of same; forthwith after such action of the council and before the first day of June the secretary-treasurer shall prepare and forward to the hail insurance board a detailed statement of all the lands the withdrawal of which has been authorized by the council:

Provided, however, that all withdrawals shall be subject to review by the hail insurance board and if it decides that any withdrawal has been improperly made it may order that the withdrawal be cancelled and that the hail insurance tax be levied against such land and upon receipt by the secretary-treasurer of a notice from the hail insurance board to that effect the secretary-treasurer shall cancel the said withdrawal.

DISORGANIZATION.

15. At any time after the expiration of five years after the formation of the hail insurance district any municipality may, by by-law approved by a majority of the resident electors in the manner prescribed in *The Rural Municipality Act* for voting on debenture by-laws withdraw from such insurance district upon such terms as the Minister may deem just and upon such withdrawal the Minister shall have power to settle and adjust the assets and liabilities of such district among the municipalities composing the same and if less than twenty municipalities remain in such district to wind up the affairs of such district, and his decision shall be final in regard to all matters connected therewith.

BORROWING POWERS.

16. The council of any municipality may by resolution authorize the reeve and treasurer to borrow from any person, bank or corporation such sums of money as may be required to enable it to pay in full the hail insurance board the amount of the special rate herein provided for during the then current year, and the making of such loan by any municipality for such purpose shall not limit or impair its borrowing powers under any Act or law fixing or limiting the same. Such loan may be secured by promissory note or notes of the reeve or treasurer given under the seal of the municipality and on behalf of the council:

Provided, however, that no money shall be borrowed under the provisions of this section unless the municipality has been required to do so by resolution of the hail insurance board.

(2) In every year all taxes collected by any municipality for hail insurance purposes and all moneys borrowed under this section shall be kept by the council of such municipality in a separate account and deposited in a chartered bank in a trust fund to be styled "Hail Tax Trust Fund" and shall only be paid thereout to the hail insurance board.

(3) Moneys due as indemnity for hail losses shall be exempt from garnishment or attachment and shall be incapable of being assigned.

CHAPTER 19.

An Act to amend Chapter 29, Statutes of Alberta, 1914.

(Consolidated in Chapter 29, 1914.)

1915

CHAPTER 20.

An Act respecting the Guarantee of Certain Securities of the Canadian Northern Western Railway Company.

(See also 1911-12, caps. 19, 29; 1913 (1), c. 40; 1913 (2), c. 9; 1914, c. 2.)

(Assented to April 17, 1915.)

WHEREAS by chapter 19 of the Statutes of Alberta, passed in the years 1911-12, entitled *An Act to authorize the Guarantee of Certain Securities of The Canadian Northern Western Railway Company* (hereinafter called the said Act) provision was made for the guaranteeing by the Province of Alberta of securities in respect amongst other things of certain lines which The Canadian Northern Western Railway Company (hereinafter called "the company") was authorized to construct and for the securing of the guaranteed securities by means of certain mortgages or deeds of trust;

And whereas by chapter 20 of the Statutes of Alberta, passed in the year 1913 (1st Session), entitled *An Act to authorize the Guarantee of Certain Securities of The Canadian Northern Western Railway Company*, the said Act was amended by altering the rate of interest of the securities authorized to be guaranteed by the province under the provisions of the said Act from four per centum per annum to four and one-half per centum per annum;

And whereas by section 10 of the said Act it was amongst other things enacted that provision might be made for the issue from time to time ranking *pari passu* with the securities guaranteed under the said Act and without preference or priority one over the other of additional securities of similar kind, tenor and effect in respect of the mileage of any of the lines mentioned in the schedule to the said Act; provided that before any such additional securities were issued the guarantee by the province of the payment of the principal and interest thereof should first have been authorized and the amounts to be issued per mile in respect of such mileage should first have been fixed by the Legislative Assembly and that such guarantee should first have been given pursuant to such authorization;

And whereas it is expedient to authorize the guarantee by the province of additional securities pursuant to the said provision;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the company to guarantee the payment of the principal and interest of additional bonds, debentures, debenture stock or other securities (hereinafter called additional securities) of the company to the extent and upon the terms hereinafter set forth.

2. The additional securities shall form part of the securities secured by the mortgage or mortgages, deed or deeds of trust securing the guaranteed securities authorized to be issued and guaranteed by the said Act as so amended and the additional securities shall be limited to an amount represented by five thousand dollars (\$5,000) per mile of one hundred miles of the mileage of the following line of railway, being the line of railway described in clause 5 of the schedule to the said Act, namely: A line of railway from a point on the constructed line of The Canadian Northern Railway at or near Edmonton; thence in a north-easterly and easterly direction on the north side of the North Saskatchewan River to St. Paul de Metis and thence to the eastern boundary of the Province of Alberta.

3. Before the additional securities are issued or guaranteed such supplementary mortgages or deeds of trust covering the said mileage of the said line in the last preceding clause mentioned as shall be necessary or expedient to be taken shall, as provided in section 11 of the said Act as so amended be taken to the trustees of the mortgage or mortgages, deed or deeds of trust, securing the guaranteed securities authorized to be issued and guaranteed pursuant to the said Act as so amended in the form approved by the Lieutenant Governor in Council.

4. The certificate of the Minister of Railways and Telephones for Alberta as to the mileage of the portion of the line of railway hereinbefore described shall, for the purposes of this Act and of the additional securities, be conclusive.

5. All the provisions of the said Act as so amended not inconsistent with the provisions of this Act shall apply to the additional securities issued and guaranteed in pursuance hereof.

CHAPTER 21.

An Act to Authorize the Guarantee of Certain Securities of the Edmonton, Dunvegan and British Columbia Railway Company.

(See also 1914, c. 27.)

(Assented to April 17, 1915.)

WHEREAS by chapter 27 of the Statutes of Alberta, passed in the year 1914, entitled "*An Act to authorize the Guarantee of Certain Securities of the Edmonton, Dunvegan and British Columbia Railway Company*" (hereinafter called "the said Act") provision was made for the guaranteeing by the Province of Alberta of securities in respect of a certain portion of the railway line of the Edmonton, Dunvegan and British Columbia Railway Company (hereinafter called "the company") which the company was authorized to construct, and for the securing of the guaranteed securities by means of certain mortgages or deeds of trust;

And whereas by section 10 of the said Act it was amongst other things enacted that provision might be made for the issue from time to time ranking *pari passu* with the securities guaranteed under the said Act, and without preference or priority one over the other, of additional securities of similar kind, tenor and effect not exceeding twenty thousand dollars (\$20,000) per mile of additional lines of railway in the Province of Alberta to be thereafter constructed by the company; provided that before such additional securities were issued the guarantee by the province of the payment of the principal and interest thereof should first have been authorized and the amounts to be issued per mile in respect of such lines should first have been fixed by the Legislative Assembly, and that such guarantee should first have been given pursuant to such authorization;

And whereas it is expedient to authorize the guarantee by the province of additional securities pursuant to the said provision;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. The Lieutenant Governor in Council is hereby authorized on such terms and conditions not inconsistent with the provisions of this Act as may be agreed upon with the company to guarantee the payment of the principal and interest of additional bonds, debentures, debenture stock or other securities (hereinafter called "additional securities") of the company to the extent and upon the terms hereinafter set forth.

2. The additional securities shall form part of the issue secured by the mortgage or mortgages, deed or deeds of trust, securing the guaranteed securities authorized to be issued and guaranteed

by the said Act; and additional securities shall be limited to an amount represented by twenty thousand dollars (\$20,000) per mile in respect of a mileage of sixty miles of the additional line of railway hereinafter mentioned, being the mileage of the said additional line from the main line of the Edmonton, Dunvegan and British Columbia Railway to or through Grande Prairie City, the said additional line of railway being a line of railway from some point on the main line of the Edmonton, Dunvegan and British Columbia Railway as located in townships seventy-seven, seventy-eight or seventy-nine, ranges three, four, five or six, west of the sixth principal meridian in the Province of Alberta; thence in a general southerly direction through Grande Prairie land district; thence in a southerly direction at or near Jasper House in the Province of Alberta.

3. Before the additional securities are issued and guaranteed, such supplementary mortgages or deeds of trust (if any) covering the lines mentioned in the said Act and the additional line of railway as shall be necessary or expedient to be taken, shall, as provided in section 11 of the said Act be taken to the trustees of the mortgage or mortgages, deed or deeds of trust securing the guaranteed securities authorized to be issued and guaranteed pursuant to the said Act in the form approved by the Lieutenant Governor in Council.

4. The certificate of the Minister of Railways and Telephones for Alberta as to the mileage of the portion of the additional line of railway in clause 2 hereof mentioned shall, for the purposes of this Act and of the additional securities, be conclusive.

5. Construction upon the said portion of the said additional line of railway shall be commenced on or before the 1st day of August, 1915, and the said portion of the said additional line shall be completed and ready for traffic on or before the 31st day of December, 1916.

6. All the provisions of the said Act not inconsistent with the provisions of this Act shall apply to the said portion of the additional line of railway and to the additional securities issued and guaranteed in pursuance hereof.

CHAPTER 22.

(Consolidated in the various Acts.)

CHAPTER 23.
